Price: **2,585.63 zł** gross / 2,102.14 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHJMJRMMIJ

Product features

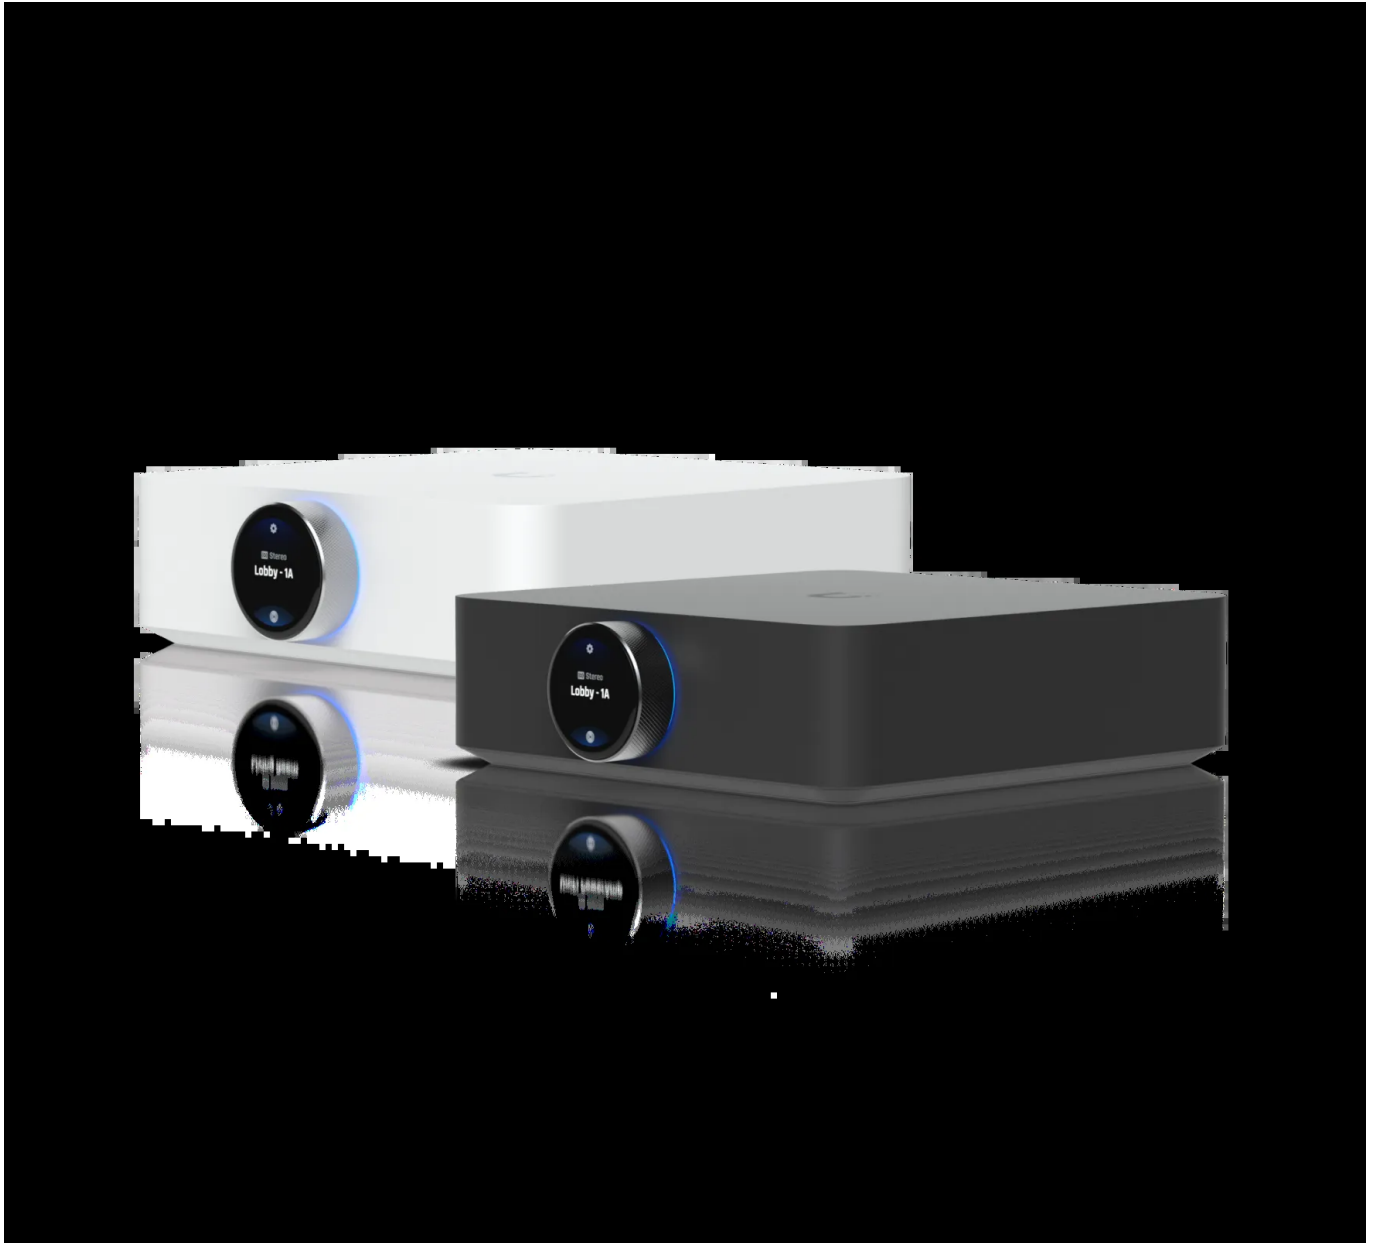

Height	63.7 mm
LED indicators	Yes
Width	217 mm
Depth	236.8 mm
Connectivity technology	Wired & Wireless
Cables included	AC
Compliance certificates	CE
Power consumption (typical)	17 W
Humidity measurement range	5 - 90%
Quick start guide	Yes
Ethernet LAN (RJ-45) ports	2
Total Harmonic Distortion (THD)	0.05 %
Line outputs (RCA)	1
Material	Plastic
Operating temperature (T-T)	-5 - 40 °C
Line inputs (RCA)	2
RMS power output per channel (4 Ohm)	260 W
Input impedance	8 Ω
Audio decoders	Dolby Atmos
Ethernet LAN data rates	1000 Mb/s
RMS power output per channel (8 Ohm)	130 W
Amplifier class	D

Wi-Fi standards	802.11a
Wi-Fi	Yes
AC input frequency	50 Hz
AC input voltage	100 V
Power source type	AC
Speakers connectivity type	Banana connector
Product colour	White
AC (power) in	Yes
AirPlay	Yes
Built-in display	Yes
Designation	Home
Maximum spike current	2.5 A
Product weight	2400 g

Full product description

Ubiquiti UPL-Amp White - professional audio amplifier for your system

The Ubiquiti PowerAmp is an advanced audio amplifier that provides high quality sound and full integration with the UniFi Play ecosystem. With support for AirPlay2, Spotify Connect and Soundtrack Your Brand, you can enjoy seamless music streaming in any room. With 130 watts per channel, Dolby Atmos support and the ability to group up to 32 PowerAmps, this product is a great choice for discerning users. The white design fits into any modern space, and the smart touchscreen knob control gives you full control over the sound.

High power and crystal sound quality

The Ubiquiti UPL-Amp-W offers **130 watts per channel at 8 ohms** and **260 watts at 4 ohms** for deep bass and clear highs. The amplifier's **Class D design** allows for efficient and energy-saving operation, reducing power loss while maintaining clear sound. The product supports **Dolby Atmos, Dolby TrueHD and other surround sound formats**, making it ideal for home theater or multi-room audio systems.

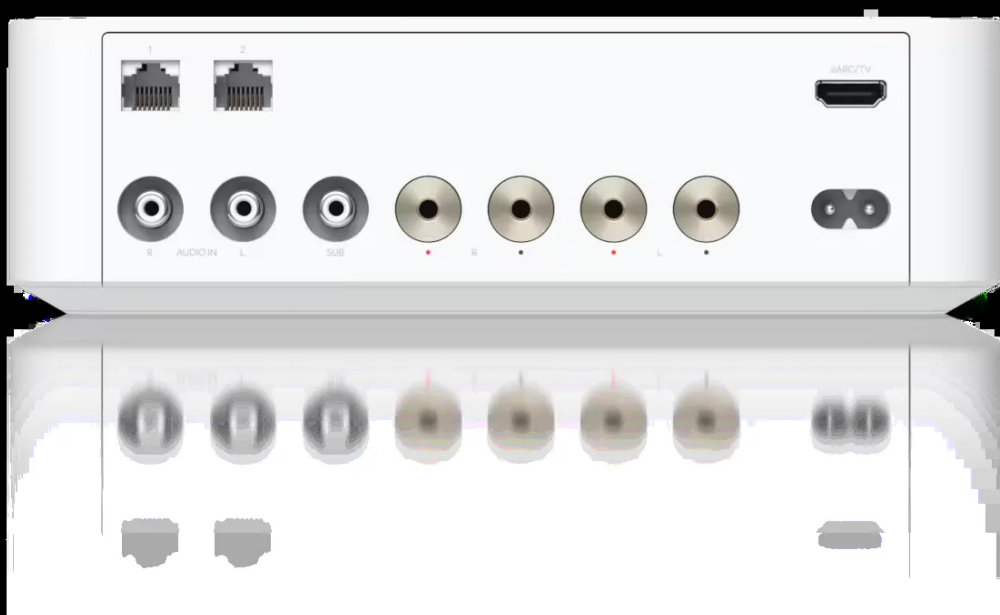

Full compatibility with UniFi Play and popular streaming services

With integration with **UniFi Play**, **AirPlay2** and **Spotify Connect**, the amplifier makes it **easy to play music** from mobile devices. A wireless WiFi connection in the 2.4 GHz and 5 GHz bands ensures stable performance, while support for **HDMI eARC** and **RCA analog inputs** allows you to connect a variety of audio sources.

Grouping of up to 32 devices - full synchronization throughout the house

The system allows **up to 32 PowerAmps to be grouped together** to synchronize sound throughout a building. This is a great solution for restaurants, offices, hotels or large homes where consistent and high-quality sound in multiple rooms is important.

Modern design and intuitive operation

The **white Ubiquiti UPL-Amp-W** looks aesthetically pleasing and fits in with modern interiors. **A rotary knob with LCD touchscreen** (1.43 inches) allows quick adjustment of settings. The amplifier can act as **a networked amplifier**, connecting to home automation systems and providing full control over the sound on the UniFi Play network.
