### Full product description

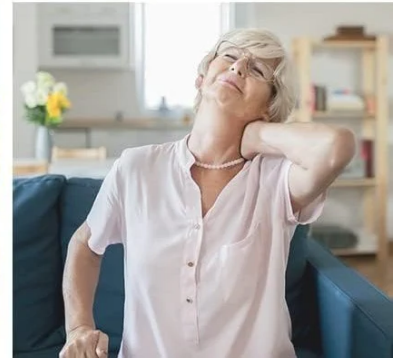

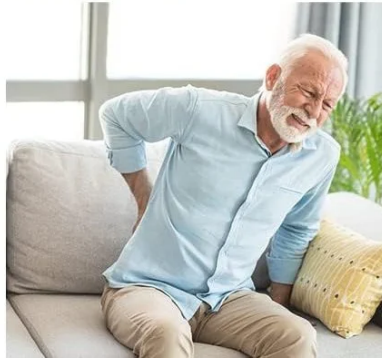

### Discover the modern way to relieve pain! Introducing the Extralink Vital Essential rechargeable TENS/EMS electrical stimulator

Experience a revolutionary way to relieve pain and fatigue with the state-of-the-art TENS/EMS electrical stimulator from Extralink! Equipped with electrodes and a bidirectional muscle stimulation system, this stimulator offers up to 28 different modes to suit your individual needs. With its help, you can effectively relieve neck, shoulder, back, ankle, wrist, elbow pain, as well as joint ailments and sports injuries. The large screen provides comfortable use, and the simple operation makes using it a real pleasure. Check out now why this electric muscle stimulator can become the best partner in your life!

## TENS/EMS muscle stimulation

The innovative pulsed electrical stimulator combines two advanced technologies: EMS (electrical neuromuscular stimulator) and TENS (transcutaneous electrical nerve stimulation). These advanced devices are known for their effectiveness in managing pain, providing massage, inducing relaxation and acting as electrical muscle stimulators. With them, you can enjoy a comprehensive therapeutic experience in a convenient and effective way.

## **28 modes 40 levels of intensity**

The TENS/EMS muscle stimulator offers 28 different pre-programmed TENS and EMS stimulation modes and 40 intensity levels that effectively relieve pain and fatigue, promote blood circulation and metabolism, and stimulate muscles to improve the condition of the head, shoulders, waist, back, and muscle performance of various body parts such as the buttocks and legs.

## Independent mode control

With the ability to set different intensity levels for each channel, the Extralink Vital Essential stimulator allows you to customize it to your needs. The functions operate independently, allowing both one and two people to use the device in different modes. An adjustable timer, allowing you to set a massage time of up to 90 minutes, provides additional flexibility of use. The stimulator not only provides pain relief, but also stimulates muscles and improves their condition. It is perfect for use in the office, car or while traveling, providing relaxation and comfort wherever you are.

## Rechargeable and easy to carry

The Extralink Vital Essential Electric Stimulator allows for 4 to 6 stimulation sessions on a single charge, offering unparalleled convenience and practicality. Its small size, comparable to a cell phone, makes it easy to carry and use anywhere and anytime, ensuring relaxation no matter what the circumstances. Charging is simple and convenient thanks to its ability to connect to a wall charger, power bank or laptop USB port. In addition, the stimulator comes with a practical case for easy storage and transportation, providing complete mobility and flexibility.

## The perfect gift

Extralink Vital Essential is the perfect gift for loved ones, such as family or friends. It is extremely practical and personal fitness equipment, perfectly suited to today's busy lifestyles. Thanks to its compact size, you can easily put it in your bag or backpack, saving space and transportation costs. It's a great way to express your concern and care for the health of your loved ones, offering them the opportunity to relax and exercise anywhere, anytime.
