Referention number: DN XF MHNRHRMMOO

### Full product description

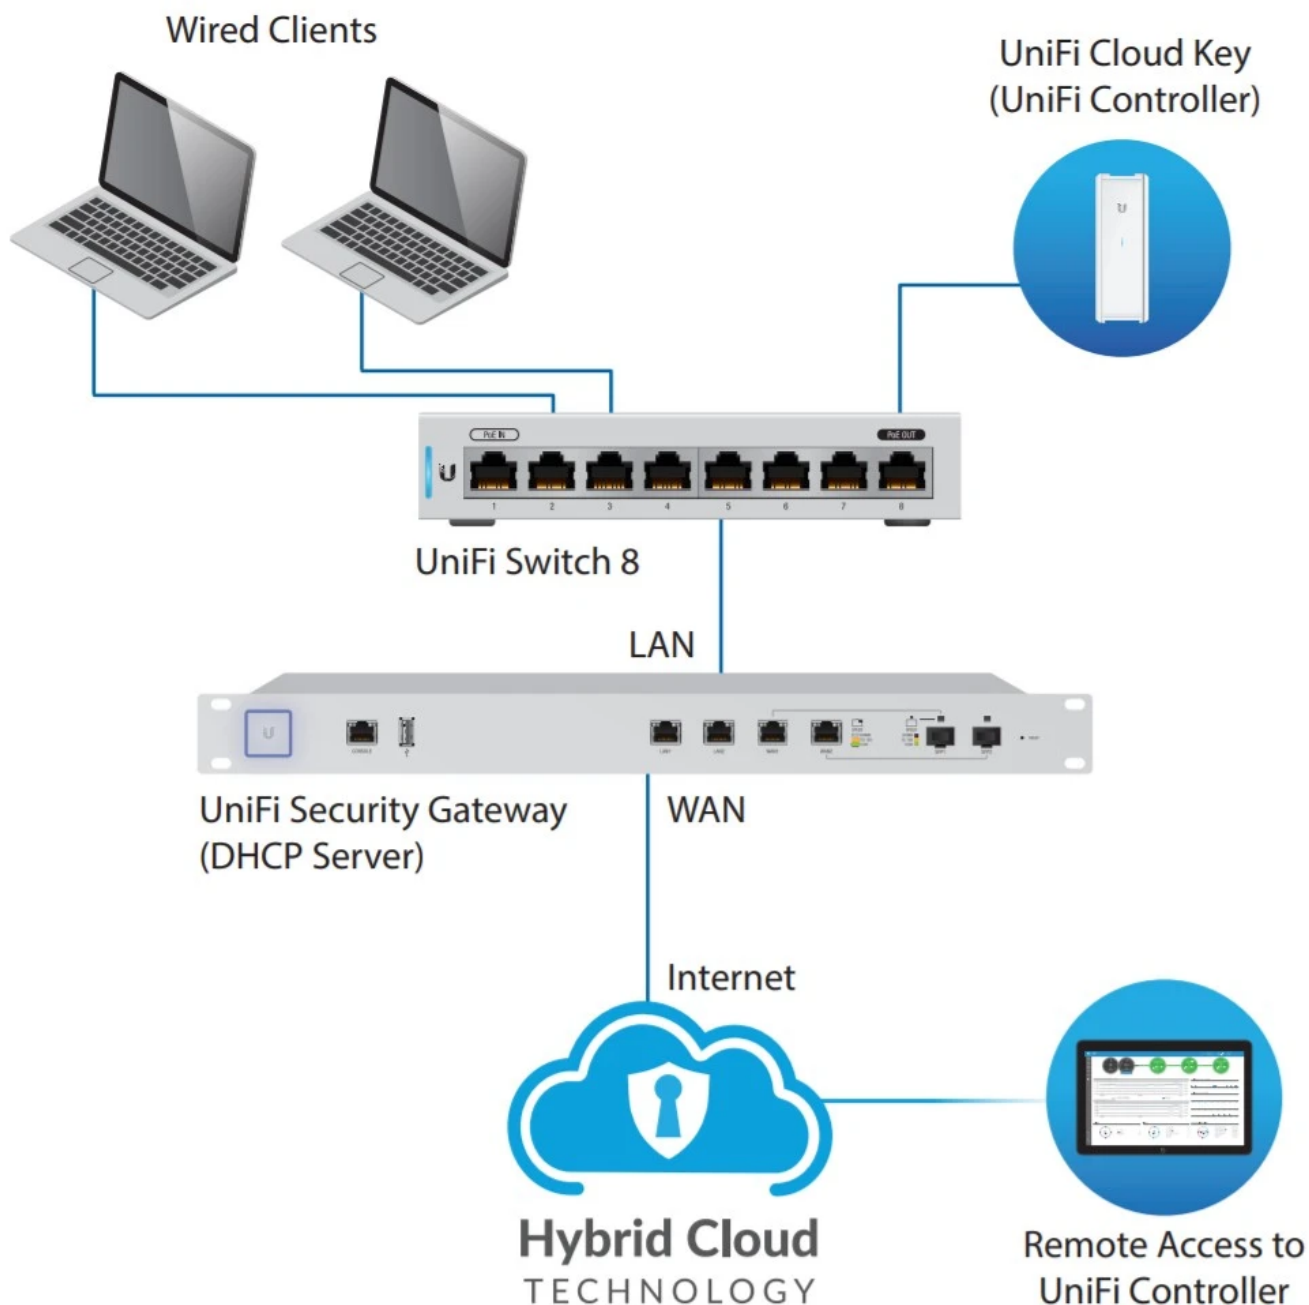

### New managed Gigabit Ethernet switch from Ubiquiti

The **Ubiquiti US-8 Managed Gigabit Switch** is equipped with 8 Gigabit Ethernet ports. It allows you to easily build and expand your network using the **Ubiquiti UniFi® US-8** switch, which is part of the UniFi product line. The switch has a compact design. It is fully manageable, providing high performance and intelligent switching for your network.

## Uncompromising performance of the US-8 switch

The **UniFi US-8 Switch** offers the bandwidth to process traffic on all ports in linear numbers simultaneously without losing packets. In total, without blocking bandwidth, each UniFi switch supports up to 8 Gb/s with a switching capacity of 16 Gb/s.

### Powered by passive PoE and PoE Passthrough support

The US-8 can be powered by passive PoE 48V, 802.3af/at or the included power supply. When the US-8 is powered by 802.3at PoE or the included power supply, port 8 supports 48V (2 pairs) PoE passthrough to deliver up to 12 watts.

### Special features

- 8 RJ45 Gigabit ports
- 1 PoE Passthrough port
- Non-Blocking Capacity: 8 Gbps
- Switching ability: 16 Gbps
- Transmission speed: 11.9 Mpps
- Maximum energy consumption: 12 W
- Power supply via PoE or DC input
- Available in Single-Pack and 5-Pack versions. (The power supply is not included in the 5-Pack)
