Full product description

UniFi Security Gateway - higher level of network security

UniFi® Security Gateway is a solution that will provide economical, reliable routing and advanced network security.

Main features:

- 1 port RJ45 Serial Console
- 3 ports 10/ 100/ 1000 RJ45 (VoIP port is disabled, reserved for future use)
- Quiet work
- Wall-mountable
- Works in layer 3
- Forwarding - pack size 64 bytes, 1,000,000 pps
- Forwarding - package size 512 bytes or more, 3 Gbps (Line Rate)

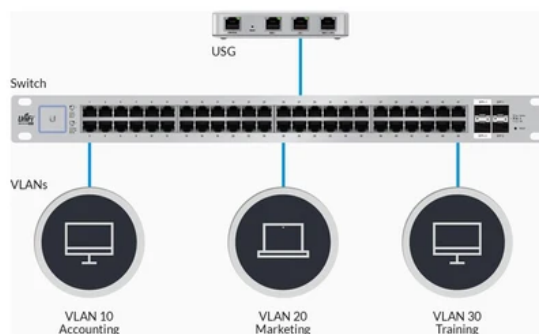

Integration with UniFi OS Console

The UniFi OS Console software allows you to manage the UniFi Security Gateway and other UniFi devices through a single, centralized interface.

Support for virtual VLANs

The UniFi® Security Gateway can create virtual network segments for security and traffic management.

VPN server for secure communication

A site-to-site VPN secures and encrypts private communication of data transmitted over the Internet.
