Full product description

Advanced, efficient and secure USG-PRO-4 network gateway

Ubiquiti UniFi Security Gateway USG-PRO-4 is a network gateway in a casing designed to be mounted in a **rack**, with fiber optic connection and **1GHz dual-core CPU** for maximum performance, with hardware acceleration. The UniFi Security Gateway combines security features with high-performance routing technology at an affordable price. The USG-PRO-4 offers advanced firewall algorithms to protect your network and its data.

Special features of USG-PRO-4

- 2 x 10/ 100/ 1000 RJ45 ports
- 2 x 10/ 100/ 1000 RJ45/ SFP ports
- 1 x RJ45 Serial Console port
- Can be mounted in rack cabinets
- Layer 3 performance
- Forwarding - packet size 64 bytes, 2,400,000 pps
- Forwarding - packet size 512 bytes or more, 4 Gbps (Line Rate)

Optical communication

The UniFi Security Gateway Pro offers two optional SFP ports for fiber optic communication.

Convenient installation in a rack

The UniFi Security Gateway Pro is protected by a robust enclosure designed to be mounted in a rack.

VLAN support

UniFi® Security Gateway Pro can create virtual network segments for security and traffic management.

Build an efficient network and extend it with the whole range of UniFi devices

Start with a few devices and expand your network with additional units without restrictions. Manage all UniFi devices easily with the UniFi OS Console software.
