Price: **129.99 zł** gross / 105.68 zł net

Manufacturer: EXTRALINK

Referention number: DNxEEIJUEKKO

Product features

Product type	Optical power meter
Cartridge type	AA
Sensor type	InGaAs (Indium Gallium Arsenide) sensor
Easy to apply	Yes
Display type	LCD
Number of batteries supported	3
Product colour	Blue
Supported connectors	BNC
Built-in display	Yes

Full product description

Extralink precision optical power meter WT-3053

The **optical power meter WT-3053** is the latest test device for absolute power measurement and relative loss measurement of optical fibre. It is characterized by a modern design, **large LCD display**, optional automatic switch-off function, **wide power measurement range, high measurement precision**, automatic calibration function and universal adapters. It is an ideal test device for self-testing of optical power and fiber optic attenuation. WT-3053 is an indispensable equipment for every installer.

Special features

- Measurement of high resolution at wavelengths 850/980/1300/1310/1490/1550 nm
- InGaAs detector
- Possibility to measure relative or absolute power level
- Large LCD display
- Automatic shutdown function
- Automatic calibration function
