Price: **227.28 zł** gross / 184.78 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGGOJQKRMMPL

Product features

Regulatory Approvals	CE, FCC, IC
Power source	AC/DC/PoE
Height	21.2 mm
LED indicators	Activity
Width	117.1 mm
Depth	90 mm
Power plug type	Type A
Input current	1 A
Compliance certificates	CE
Power consumption (max)	5 W
Rate limiting	Yes
Humidity measurement range	10 - 90%
Networking features	STP / RSTP with priorities and port-level disable, Egress rate limit
Switching capacity	25 Gb/s
Switch type	Managed
10G support	No
DC input voltage	5 V
Broadcast storm control	Yes
USB Type-C ports quantity	1
Performance	12.5 Gb/s
Operating temperature (T-T)	-20 - 45 °C

AC adapter included	Yes
Reset button	Yes
Minimum system requirements	UniFi Network Version 8.4.62 and later
Flow control support	Yes
Port mirroring	Yes
Jumbo frames support	Yes
Power supply included	Yes
Power over Ethernet (PoE)	Yes
Power over Ethernet (PoE) power per port	6.4 W
Power over Ethernet (PoE) voltage	57 V
Copper ethernet cabling technology	2.5GBASE-T
2.5G Ethernet (copper) ports quantity	5
Product colour	White
Power connector	USB
Multicast support	Yes
Basic switching RJ-45 Ethernet ports type	2.5G Ethernet (100/1000/2500)
Watch case material	Polycarbonate (PC)
Basic switching RJ-45 Ethernet ports quantity	5
Product weight	206 g

Full product description

Reliable and flexible network solution

The Ubiquiti USW-Flex-2.5G-5 is a compact switch that provides high-speed connectivity in environments ranging from small offices to advanced home installations. With **five 2.5 GbE ports and the ability to be powered by PoE or a USB-C adapter**, the device offers flexibility and simple integration into existing networks. It is the perfect solution for those who need a stable, efficient and compact switch to expand their network.

Performance at the highest level

The USW-Flex-2.5G-5 is equipped with 5 2.5 GbE ports, which enable data transfer rates of up to 12.5 Gbps. Such speed ensures fast and seamless transfer of large files and high-quality streaming, which is crucial in today's dynamic network environments. The switch also supports advanced Layer 2 management features such as STP/RSTP, port isolation and storm control, further enhancing network stability and security.

Flexible power options

The Ubiquiti USW-Flex-2.5G-5 switch offers two ways to power it: via PoE or using the included USB-C 5V 1A adapter. Thanks to this functionality, it can be easily installed in various locations without the need to install additional cabling. The ability to power via PoE allows the device to be used in existing networks or locations where access to electrical outlets is limited.

Network capacity and management

The switch has a switching capacity of up to 25 Gbps, making it ideal for handling even the most demanding network tasks. Features such as flow control and support for large frames (jumbo frames) ensure smooth transmission of large amounts of data. Forwarding rate of 18.6 Mpps makes the USW-Flex-2.5G-5 able to handle network loads, minimizing the risk of congestion.

Easy integration and management

Thanks to its compatibility with [Ubiquiti UniFi PoE switches](#), the USW-Flex-2.5G-5 easily integrates into existing UniFi managed networks. In-band Ethernet management allows easy monitoring and control of the device without the need for a dedicated management port. It's a solution that offers simple configuration and expandability as your needs grow.

Performance and functionality in one device

The Ubiquiti USW-Flex-2.5G-5 is an excellent choice for those looking for a fast and reliable network switch. Thanks to its compact size, high performance and flexible power options, this device will work well in both small offices and advanced home installations. The switch offers not only performance, but also functionality that makes it easy to manage and monitor the network.
