Price: **880.82 zł** gross / 716.11 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHILJGRML0M

Product features

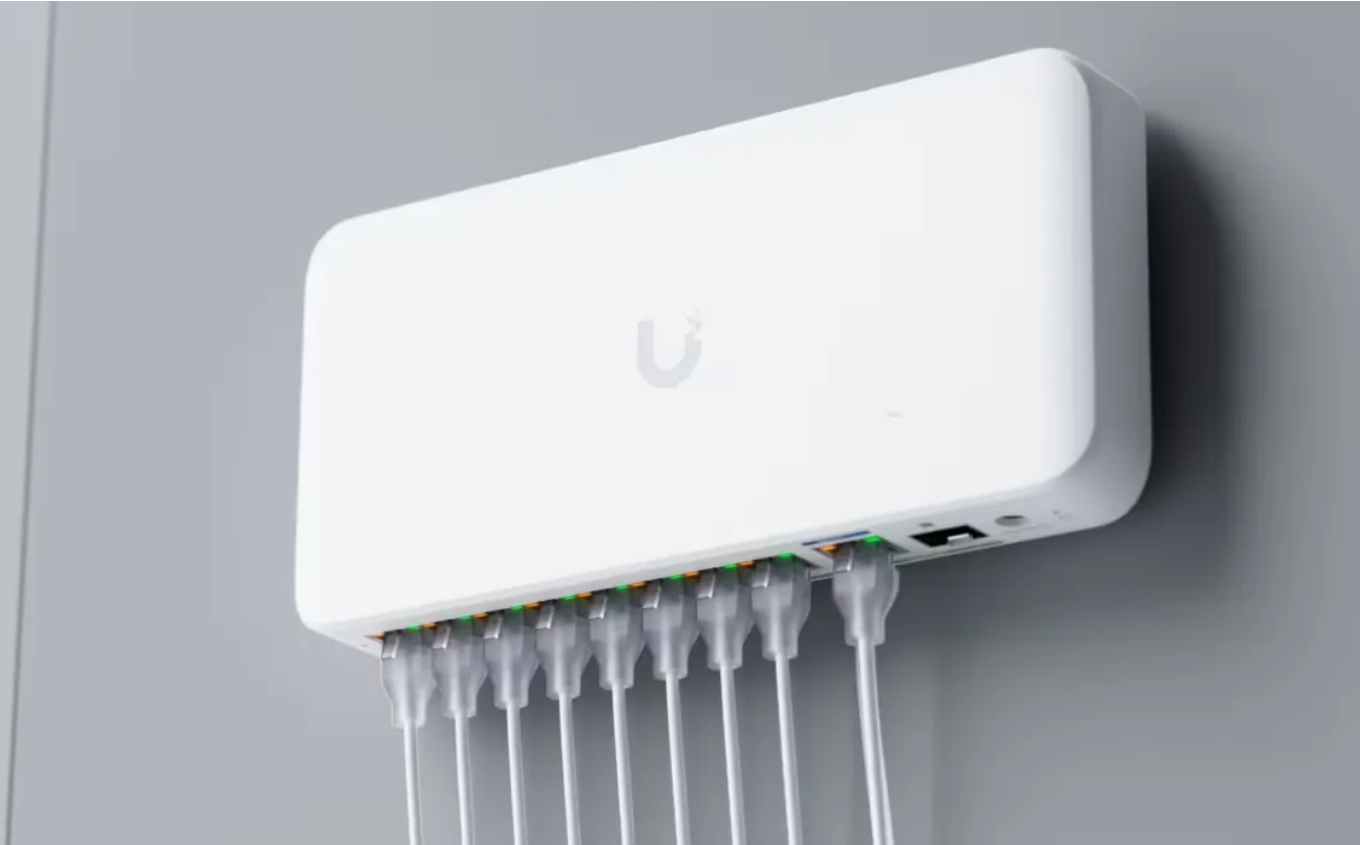

Power source	AC/DC/PoE
Height	33.5 mm
LED indicators	Activity
Wall mountable	Yes
Width	212.9 mm
Depth	99.4 mm
Input current	3.9 A
Compliance certificates	CE
Power consumption (max)	17 W
Rate limiting	Yes
Humidity measurement range	10 - 90%
DIN rail mounting	Yes
Switching capacity	60 Gb/s
Switch type	Managed
10G support	Yes
Loop protection	Yes
DC input voltage	54 V
Broadcast storm control	Yes
Performance	30 Gb/s
Operating temperature (T-T)	-20 - 45 °C
Total Power over Ethernet (PoE) budget	196 W
Reset button	Yes

SFP+ module slots quantity	1
Flow control support	Yes
Port mirroring	Yes
Jumbo frames support	Yes
Power supply included	No
Power over Ethernet (PoE)	Yes
Power over Ethernet (PoE) power per port	15.4 W
Power over Ethernet (PoE) voltage	57 V
Power over Ethernet 4PPoE (PoE++) ports quantity	1
Power over Ethernet plus (PoE+) ports quantity	8
10G Ethernet (copper) ports quantity	1
2.5G Ethernet (copper) ports quantity	8
Product colour	White
Power connector	DC-in jack
Switch layer	L2+
Multicast support	Yes
Basic switching RJ-45 Ethernet ports type	2.5G Ethernet (100/1000/2500)
Watch case material	Polycarbonate (PC)
Basic switching RJ-45 Ethernet ports quantity	8
Product weight	567 g

Full product description

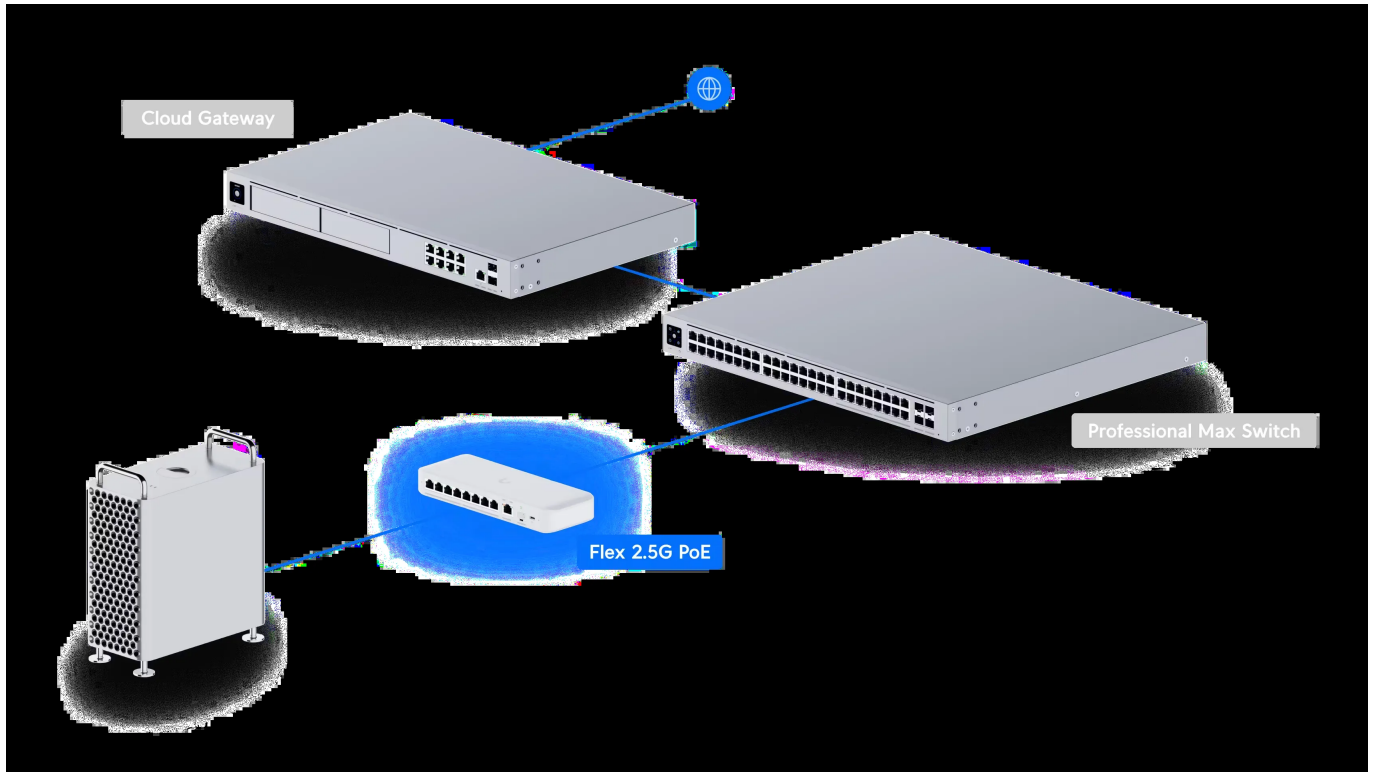

High-performance PoE switch with 10G SFP port

The **Ubiquiti USW-Flex-2.5G-8-PoE** is a network switch that offers exceptional performance and great flexibility in managing network traffic. With **8 2.5GbE RJ45 ports** and **a 10G SFP port**, it enables fast data transfer and easy integration into high-demand systems. **PoE** on each port provides power to devices such as IP cameras and access points, eliminating the need to run separate power cables.

High throughput and fast transmission

The Ubiquiti **USW-Flex-2.5G-8-PoE** offers **8 2.5GbE RJ45 ports** for faster data transfer compared to traditional **Gigabit Ethernet** ports. The switch also supports a 10GbE SFP port , which enables even faster transfers and is ideal for demanding applications such as video data, large file transfers or cloud work. The **non-blocking throughput of 30 Gbps** makes the device seamlessly handle large amounts of network traffic.

PoE support on each port

Each port of the Ubiquiti **USW-Flex-2.5G-8-PoE** supports PoE , allowing devices to be powered over the same Ethernet cable. The **60W power supply per port** allows the switch to power more network devices such as IP cameras, access points, as well as other devices that require **PoE** power. In this way, the switch eliminates the need to install separate power supplies, simplifying the installation process and reducing the number of cables in the system.

Manageability and easy configuration

The device is manageable via the **UniFi Network** app, allowing convenient network monitoring and configuration. With the **Ethernet In-Band** interface, users can easily manage ports, monitor bandwidth, or adjust network settings according to their needs. Features such as **port mirroring, port isolation and loop protection** allow for better control and protection against network failures.

Versatile installation and reliable design

The **Ubiquiti USW-Flex-2.5G-8-PoE** switch is designed for flexible mounting - it can be mounted on a wall or on a **DIN rail** (additional accessory). Its robust **polycarbonate** housing ensures durability and resistance to damage. Thanks to its compact size, the device can be used in a variety of environments, including spaces where space is limited.
