Full product description

Ubiquiti Switch USW-Flex-XG

UniFi Flex XG is a new high-performance **Layer 2** managed switch **with 4 10 Gigabit RJ45 Ethernet ports**. The **USW-Flex-XG** managed switch offers Layer 2 features and an exceptional **41 Gigabit total** port capacity to significantly increase traffic and reduce network latency.

UniFi Flex XG support speeds up to 10 gigabits per second

By installing the new **UniFi Flex XG** switch when building new networks or upgrading existing ones, small and medium-sized businesses gain significant growth potential with minimal investment. Four of the five ports on the UniFi Flex XG switch support speeds up to 10 gigabits per second, and flexible power delivery allows you to choose between a single **Gigabit 802.3at PoE port** or an external adapter with a standard USB Type-C connector.

High performance in a sleek enclosure

The compact, slim design of the **UniFi Flex XG** makes the new switch a versatile device suitable for any network. Important features of **the USW-Flex-XG** are high performance, compact size and easy operation in the intuitive **UniFi Network** controller interface.
