### Product features

|                                          |             |
|------------------------------------------|-------------|
| Regulatory Approvals                     | CE, FCC, IC |
| Power source                             | AC/DC       |
| Height                                   | 43.7 mm     |
| LED indicators                           | System      |
| Width                                    | 442.4 mm    |
| Depth                                    | 325 mm      |
| Rack mounting                            | Yes         |
| Power consumption (max)                  | 50 W        |
| Humidity measurement range               | 10 - 90%    |
| Switching capacity                       | 112 Gb/s    |
| Switch type                              | Managed     |
| 10G support                              | No          |
| IFU / User manual                        | Yes         |
| Performance                              | 56 Gb/s     |
| Operating temperature (T-T)              | -5 - 40 °C  |
| VLAN support                             | Yes         |
| Total Power over Ethernet (PoE) budget   | 400 W       |
| Reset button                             | Yes         |
| SFP+ module slots quantity               | 2           |
| Power supply included                    | Yes         |
| Power over Ethernet (PoE) ports quantity | 8           |
| Power over Ethernet (PoE)                | Yes         |

|                                                   |                                |
|---------------------------------------------------|--------------------------------|
| AC input frequency                                | 50 Hz                          |
| AC input voltage                                  | 100 V                          |
| Gigabit Ethernet (copper) ports quantity          | 16                             |
| Power over Ethernet 4PPoE (PoE++ ) ports quantity | 16                             |
| 2.5G Ethernet (copper) ports quantity             | 8                              |
| Product colour                                    | Grey                           |
| Power connector                                   | AC-in jack                     |
| Switch layer                                      | L3+                            |
| Basic switching RJ-45 Ethernet ports type         | Gigabit Ethernet (10/100/1000) |
| Watch case material                               | Steel                          |
| Basic switching RJ-45 Ethernet ports quantity     | 24                             |
| Redundant power supply (RPS) support              | Yes                            |
| Product weight                                    | 5100 g                         |

## Full product description

## Ubiquiti UniFi Switch Pro Max 24 PoE: Advanced Networking Solution for Modern Enterprises.

The **Ubiquiti UniFi Switch Pro Max 24 PoE (USW-Pro-Max-24-PoE)** is a **high-performance Layer 3 Etherlighting managed PoE switch** designed to meet the demands of modern networking environments. Equipped with 24 ports, including 16 Gigabit Ethernet PoE /PoE ports and 8 2.5 Gigabit Ethernet PoE ports , it provides the flexibility and reliability you need to handle the most demanding network traffic.

## Advanced Management and Performance Features

The **USW-Pro-Max-24 PoE** offers **24 Gigabit Ethernet RJ45 ports** (10/100/1000 Mbps), including 8 PoE ports and 8 PoE ports , and 8 2.5 Gigabit Ethernet RJ45 ports (1/2.5 Gbps), all with PoE support . In addition, the switch has 2 10 Gbps SFP slots for uplink connection to the corporate network. With **Etherlighting** technology, identifying port location, link speed and native VLAN/network is quick and easy.

## Reliable Power and PoE Support

The **USW-Pro-Max-24 PoE switch** powers demanding devices such as access points, IP cameras and VoIP phones with up to 60W of PoE per port, for a total PoE power budget of an impressive 400W. **DC backup power** ensures uninterrupted operation even during power outages, and **UniFi SmartPower RPS DC** support enables backup in case of internal power supply failure.

## Easy Setup and Management

The **USW-Pro-Max-24 PoE** is managed and configured using **the UniFi Network Controller**, which supports UniFi mobile apps. **UniFi Network Controller** allows you to share UniFi devices, map your network and manage traffic from anywhere. The switch has a 1.3-inch LCM touchscreen display that provides connection status information and facilitates monitoring and quick troubleshooting.

## Advanced Layer 2 and 3 Features

The **USW-Pro-Max-24 PoE** switch offers a set of advanced Layer 2 switching protocols and features, including modes of operation (switching, mirroring or aggregation) per port. In addition, Layer 3 features such as **inter-VLAN routing**, static routing and DHCP server functionality provide advanced network traffic management capabilities.

## Compact Design and Easy Assembly

The **USW-Pro-Max-24 PoE** features a compact size and fanless design, making it ideal for installation in a 19" 1U rack. The kit also includes mounting brackets for easy installation in a variety of network environments.
