Full product description

Extralink mini thermal printer set 5 rolls of plain thermal paper

Do **you have a lot of photos on your phone that you want to print** out and decorate a wall, album or gift with? Or do you like to make notes, lists, plans and labels to help you organize and be creative? If so, **this kit is made for you!** It's a small, lightweight and portable printer that connects to your phone or tablet via Bluetooth and allows you to print anything you want, anywhere, anytime. **The kit includes a printer with a total of 6 rolls of paper (1 roll of paper pre-installed in the printer and 5 rolls separately).**

Advantages of the Extralink Mini Thermal Printer

Thermal printing technology

The **Extralink Mini Thermal Printer** is an innovative thermal printer that uses **thermal printing technology**, eliminating the need for ink. It uses the heating of special thermal paper to create images. As a result, you don't have to worry about the need for ink changes or ink smearing. This technology also ensures clear printing and long-lasting images, with 200dpi and a print speed of 10mm/sec.

Connectivity and compatibility

This mini thermal printer is compatible with both **iOS and Android**, allowing you to seamlessly print directly from your smartphone. It supports **Bluetooth wireless connection**, eliminating the need to connect the printer to devices with cables.

Dedicated application

The printer works with a dedicated **app available for Android and iOS**. The app offers many features, such as a drawing creator, text editor, labels and banners. In addition, it includes a database of ready-to-print icons and drawings.

Practicality and multifunctionality

The **mini thermal printer** is a **practical and functional gift for any occasion**, especially for the little ones. It is ideal for personalizing gifts, creating scrapbooks, decorating notebooks, printing company logos or creating labels and receipts. It prints photos in black and white.

Handiness and convenience

With its small size and lightweight design, the printer is ideal for carrying on the go or to various events. It can be easily placed in a purse or backpack, allowing you to print photos anytime, anywhere.

Speed and discreet operation

The **Extralink Mini Thermal Printer** offers a fast and quiet printing process. Photos are printed in a short time, so you don't have to wait long for the results. In addition, **the printer does not generate a lot of noise**, allowing it to work discreetly and quietly in various situations.
