Price: **1,760.97 zł** gross / 1,431.68 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGKKNDRLPH

Product features

Regulatory Approvals	FCC, IC, CE
Height	82 mm
LED indicators	Activity
Sensor type	CMOS
Auto focus	Yes
Width	82 mm
Depth	88.3 mm
Connectivity technology	Wired
Maximum resolution	2688 pixels
Field of view (FOV) angle	360 °
Live view	Yes
Frame rate	30 frames per second
Night mode	Yes
Power consumption (typical)	7.68 W
Humidity measurement range	10 - 90%
Ethernet LAN (RJ-45) ports	1
IK code	IK04
DC output voltage	36
Video compression formats	H.264
Number of cameras	1
Smartphone/tablet remote support	Yes
IFU / User manual	Yes

Weatherproof	Yes
Protection features	Vandal proof
Operating temperature (T-T)	-20 - 40 °C
LED type	IR
Weight (with stand)	765 g
Ethernet interface type	100 Gigabit Ethernet
Reset button	Yes
PTZ control	Yes
Built-in microphone	Yes
Web-based management	Yes
Total megapixels	4 MP
Video formats supported	H.264
International Protection (IP) code	IP65
Height (with stand)	82 mm
Remote viewing	Yes
Infrared (IR) cut-off filter	Yes
Depth (with stand)	153 mm
Width (with stand)	82 mm
Ethernet LAN	Yes
Built-in speaker(s)	Yes
Mobile operating systems supported	Android
Power source type	DC
Built-in processor	Yes
Product colour	Black
Mounting hardware type	Ceiling
Watch case material	Aluminium
Type	IP security camera
Designation	Indoor & outdoor
Product weight	628 g

Full product description

The Ubiquiti AI Bullet Camera is a state-of-the-art surveillance camera designed to provide superior image quality and reliability in all conditions.

With advanced optical features and AI intelligence, this camera is the perfect tool for monitoring both indoor and outdoor environments

Advanced optics

The camera is equipped with a **5MP CMOS sensor** and a fixed-focus lens that offers a wide angle of view to effectively monitor vast areas.

Intelligent AI features

With its built-in Quad-core Arm® Cortex®-A53 processor and **advanced artificial intelligence (AI) algorithms**, the Ubiquiti AI Bullet camera is able to analyze images in real time. This enables it to detect and classify objects, such as people, vehicles or animals, significantly increasing the effectiveness of monitoring. The AI algorithms optimize the video flow, adjusting the image quality according to the current lighting and motion conditions. This ensures the best possible image quality while minimizing network bandwidth consumption.

Power supply via PoE

It allows **the camera to be powered via an Ethernet cable**, greatly simplifying installation and eliminating the need for additional power cables.

Weather resistance

IP65 rating and IK04 impact resistance make the camera **ideal for outdoor use**.

Connecting to a phone

The Ubiquiti AI Bullet camera offers full **integration with the UniFi Protect mobile app**, available for iOS™ and Android™. This allows users to monitor real-time video from the camera directly on their smartphones or tablets.
