Price: **6,981.26 zł** gross / 5,675.82 zł net

Manufacturer: UBIQUITI

Referention number: DNXGGKOSERMMMO

Product features

Regulatory Approvals	FCC, IC, CE
Sensor type	CMOS
Connectivity technology	Wired
Maximum resolution	3840 pixels
Mounting kit	Yes
Audio system	2-way
Frame rate	30 frames per second
Noise reduction	Yes
Power consumption (max)	17.77 W
Night mode	No
Humidity measurement range	10 - 90%
Ethernet LAN (RJ-45) ports	1
DC output voltage	37
Video compression formats	H.264
Number of cameras	1
IFU / User manual	Yes
Weatherproof	Yes
Operating temperature (T-T)	-20 - 40 °C
Maximum aperture number	1.2
Ethernet interface type	Gigabit Ethernet
Reset button	Yes
Screws included	Yes

Built-in microphone	Yes
Lens diameter	45 mm
Lens viewing angle, diagonal	27 °
Total megapixels	10 MP
Noise reducing technology	2D noise reduction
Length	153 mm
International Protection (IP) code	IPX5
Wi-Fi	No
Bluetooth	No
Ethernet LAN	Yes
Built-in speaker(s)	Yes
Mobile operating systems supported	Android
Built-in HDD	No
Power source type	PoE
Built-in processor	Yes
Product colour	Black
Mounting hardware type	Ceiling/Wall/Pole
Watch case material	Aluminium
Type	IP security camera
Diameter	80 mm
Designation	Indoor & outdoor
Product weight	820 g

Full product description

Ubiquiti UVC-AI-DSLR-LD - Exceptional IP Camera for Professionals.

Discover a new level of surveillance with **the Ubiquiti UVC-AI-DSLR-LD camera!** With an advanced **M. Zuiko Digital** lens, unmatched **4K resolution and intelligent recognition features**, this camera delivers superior image quality and security. Its **rugged design** and integration with **UniFi Protect** make it ideal for both indoor and outdoor applications.

Exceptional Image Quality With M. Zuiko Digital Lens

The UVC-AI-DSLR-LD security camera is equipped with a **45mm M. Zuiko Digital lens** that provides excellent image quality. With **an aperture of f/1.2**, the camera captures more light than standard IP cameras, ensuring clear and detailed recordings even in difficult lighting conditions. The **viewing angle of 21.6° horizontally and 16.2° vertically (27° diagonal)** enables precise monitoring of specific areas, which is ideal for locations that require special attention.

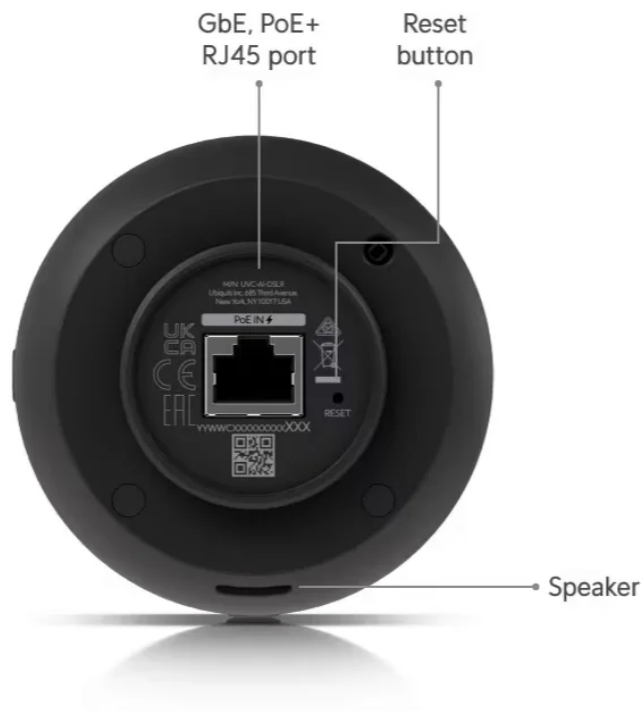

Unparalleled 4K Resolution

With 4K resolution (3840 x 2160 px - 8 Mpix), the UVC-AI-DSLR-LD camera provides crystal clear images. This makes each recording full of detail, which is crucial for person and vehicle identification and incident analysis.

Performance and PoE Power

The surveillance camera has a **gigabit Ethernet port**, which also serves as a **PoE (Power over Ethernet) power input**. It supports the **IEEE 802.3at** standard, which allows for convenient power and data transmission over a single cable. The maximum **power consumption is 17.77 watts**, making it an efficient and economical choice for extensive monitoring systems.

Intelligent Software Features

The **UVC-AI-DSLR-LD camera** is not only hardware, but also advanced software that offers intelligent detection functions. **The camera can recognize people and vehicles and read license plates**, which greatly increases its functionality and applicability in various security scenarios. **A built-in microphone and speaker** enable two-way voice communication, which can be turned off from the software.

Durable Construction and Easy Assembly

Included with the camera is **an additional housing** that, when installed, raises the **device's protection rating to IPX5**, allowing it to be used outdoors. The camera is resistant to water ingress and harsh weather conditions. With the included accessories, the camera can be easily **mounted on a wall or pole**, and the ball joint mount allows smooth tilt adjustment in three planes.

Integration with UniFi Protect

The UVC-AI-DSLR-LD camera is fully compatible with the **UniFi Protect** platform, which enables centralized management of multiple devices. The UniFi Protect platform offers easy access to live viewing, playback of stored recordings and full configuration of connected devices. With **apps for PC and Android/iOS mobile devices**, monitoring management becomes intuitive and convenient.
