Full product description

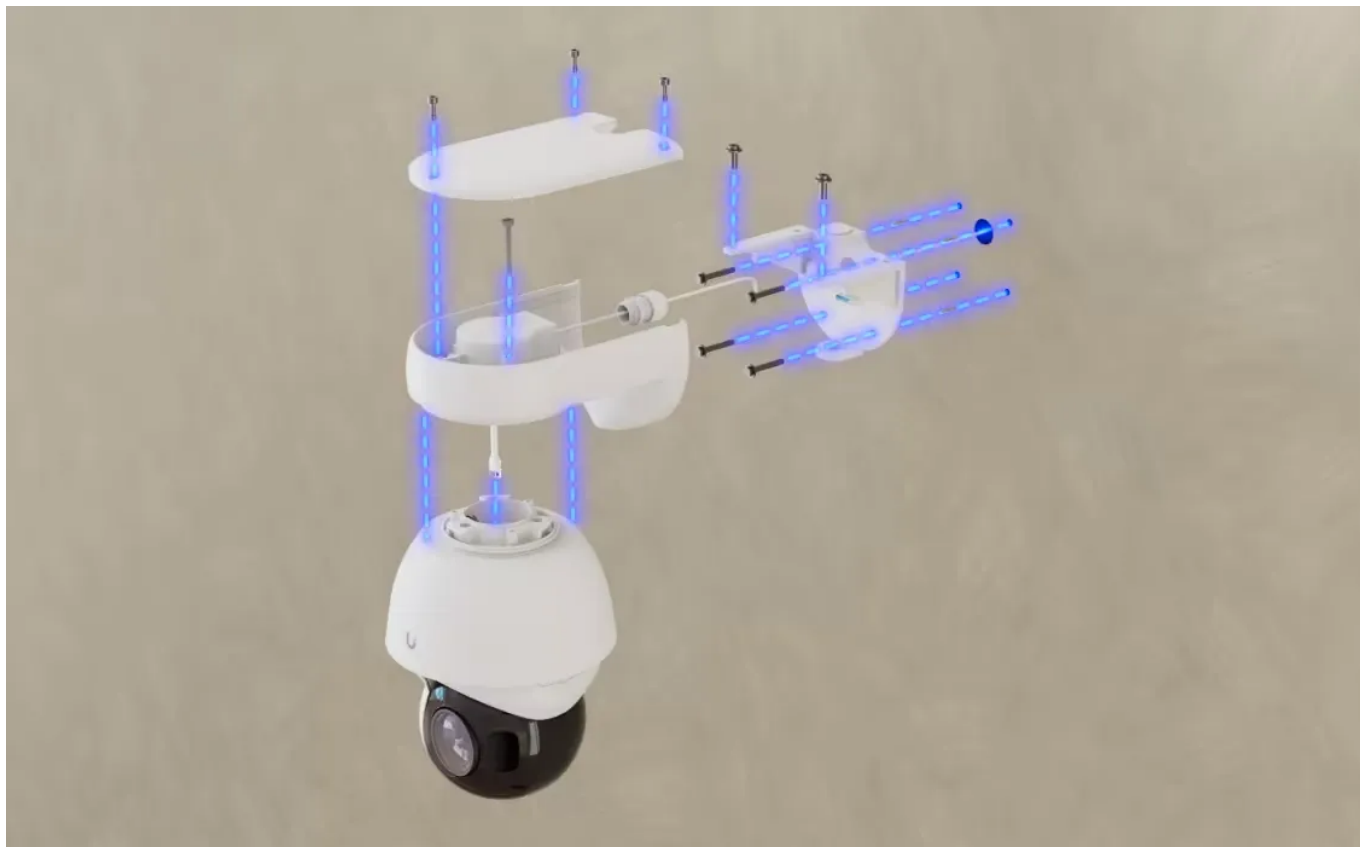

Ubiquiti advanced IP camera with AI for 4K surveillance

The **Ubiquiti UVC-AI-PTZ-Precision-W** IP camera is a unique surveillance solution based on the latest technologies. With **4K resolution and 31x optical zoom**, it offers high image quality and precise zoom on objects at long distances. **PoE and IP66** guarantee reliability in various weather conditions and ease of installation.

Exceptional 4K image quality

The camera provides **4K** (3840x2160) **resolution** to capture the most detailed images in any situation. With **an 8MP** sensor, you get sharp and clear video that is perfect for analyzing even the smallest details. With **4K resolution**, video becomes more detailed, which is crucial in surveillance systems.

AI function and intelligent detection

The camera supports **AI** functions such as **face recognition**, **license plate recognition** and **intelligent detection of people, vehicles and animals**. Thanks to **AI algorithms**, the camera can effectively distinguish between different objects, which increases the accuracy of monitoring. **AI functions** allow the camera to react faster to situations that require attention.

Weather resistance

The camera is **IP66-rated**, which means it is dust and rainproof, making it ideal for outdoor installations. **IP66** guarantees full protection from the weather, ensuring the device's reliability all year round. **The Ubiquiti UVC-AI-PTZ** is a reliable camera that works in harsh conditions.
