### Product features

|                             |                               |
|-----------------------------|-------------------------------|
| Regulatory Approvals        | FCC, IC, CE                   |
| Height                      | 38 mm                         |
| Input voltage               | 37 V                          |
| Output voltage              | 5 V                           |
| Wall mountable              | Yes                           |
| Width                       | 70 mm                         |
| Depth                       | 140 mm                        |
| Connectivity technology     | Wired                         |
| Mounting kit                | Yes                           |
| Power consumption (max)     | 12.5 W                        |
| Humidity measurement range  | 10 - 90%                      |
| Compatibility               | AI Theta Lens, AI Theta Audio |
| Video compression formats   | H.264                         |
| Operating temperature (T-T) | -20 - 40 °C                   |
| Quick installation guide    | Yes                           |
| Reset button                | Yes                           |
| Brand compatibility         | Ubiquiti Networks             |
| Display diagonal            | 0.96 "                        |
| Output current              | 1 A                           |
| Ethernet LAN data rates     | 1000 Mb/s                     |
| Display type                | LCM                           |
| Ethernet LAN                | Yes                           |

|                     |            |
|---------------------|------------|
| Processor model     | Cortex-A53 |
| Power source type   | PoE        |
| Built-in processor  | Yes        |
| Product colour      | White      |
| Built-in display    | Yes        |
| Watch case material | Aluminium  |
| Type                | Hub        |
| Designation         | Indoor     |
| Product weight      | 330 g      |

### Full product description

## Ubiquiti UVC-AI-Theta-Hub - Advanced Solution for Your Security

The Ubiquiti UVC-AI-Theta-Hub offers support for a camera and audio module to provide a complete picture of the situation. This allows users to **monitor and manage their security system from anywhere**. Integrated connections for the camera and audio module make installation and operation easy, making the product convenient for both businesses and home users.

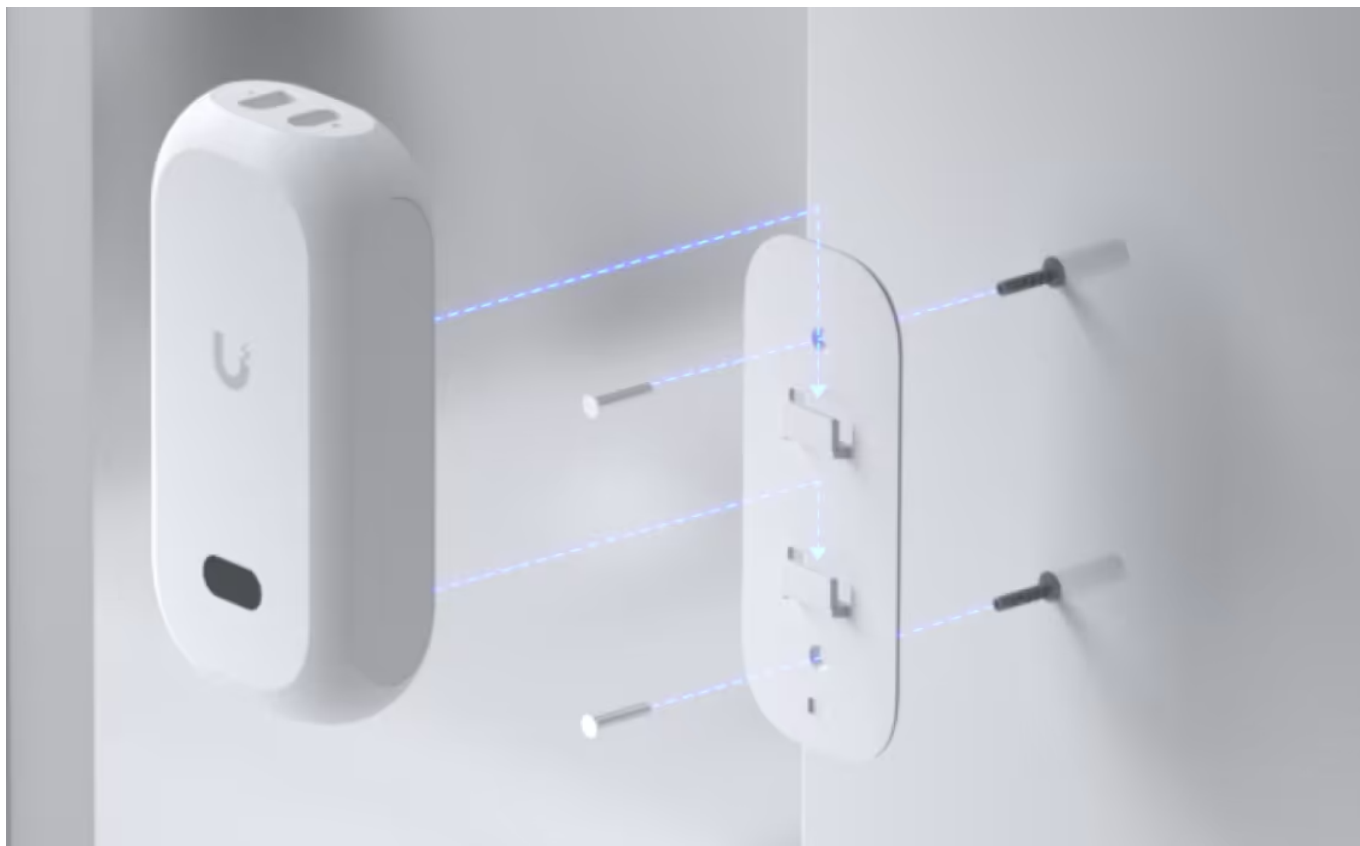

### Advanced AI Technology

The UVC-AI-Theta-Hub supports advanced AI technology **for person detection, license plate reading and other analytical functions**. This

provides the user with a tool for effective monitoring and data analysis, which significantly improves security. Ubiquiti Networks has made sure that this product is equipped with the latest technologies, making it one of the best solutions on the market.

## Easy installation and PoE power supply

The Ubiquiti UVC-AI-Theta-Hub supports PoE power, which simplifies the installation process and eliminates the need for additional power cables. As a result, the product can be easily mounted in a variety of locations, either on the wall or on the ceiling, adding to its versatility. In addition, the PoE power supply ensures a stable and secure connection, which is crucial for reliable operation of the monitoring system.

When you choose the Ubiquiti U-Rack-6U-TL, you are investing in **a top-quality product** that will keep your network safe and tidy. With its compact size and robust design, this mobile rack is sure to meet all your expectations.
