Price: **1,403.63 zł** gross / 1,141.16 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGLPMHRMLQ

Product features

Regulatory Approvals	FCC, IC, CE
Height	58.9 mm
Sensor type	CMOS
Connectivity technology	Wired
Maximum resolution	2160 pixels
Packaging content	AI Theta Hub
Mounting kit	Yes
Frame rate	24 frames per second
Noise reduction	Yes
Power consumption (max)	12.5 W
Night mode	No
Humidity measurement range	10 - 90%
Cable length	1 m
Ethernet LAN (RJ-45) ports	1
DC output voltage	37
Video compression formats	H.264
Number of cameras	1
Number of lenses	1
IFU / User manual	Yes

Image quality adjustment	Brightness
Operating temperature (T-T)	-20 - 40 °C
Ethernet interface type	Gigabit Ethernet
Reset button	Yes
Lens viewing angle, diagonal	180 °
Total megapixels	4 MP
Lens viewing angle, vertical	180 °
Noise reducing technology	2D noise reduction
Lens viewing angle, horizontal	180 °
Wi-Fi	No
Bluetooth	No
Ethernet LAN	Yes
Built-in HDD	No
Processor model	ARM Cortex-A53
Power source type	PoE
Built-in processor	Yes
Product colour	White
Mounting hardware type	Ceiling/Wall
Type	IP security camera
Diameter	36.6 mm
Designation	Indoor
Product weight	58 g

Full product description

UVC-AI-Theta-Pro: A Comprehensive Solution for Modern Monitoring

The **UVC-AI-Theta-Pro kit** (includes AI Theta Hub, Pro 360 Lens camera, Standard Flush Mount and Pro Flush Mount) is an innovative surveillance solution that delivers unparalleled image quality with **4K (8MP) resolution**. Regardless of lighting conditions, the camera delivers **extremely detailed and clear images**, thanks to its excellent low-light performance and extended dynamic range. With exceptional image quality, full **360° coverage**, advanced **AI features**, and discreet and aesthetically pleasing installation, this set is the ideal choice for providing security in large and busy spaces.

Full 360° Coverage

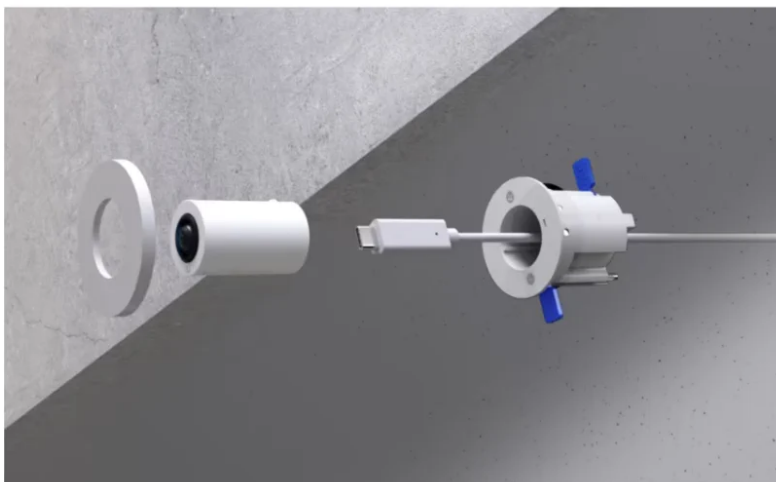

One of the key strengths of the UVC-AI-Theta-Pro is its **ultra-wide 360° lens**, which allows you to monitor your entire surroundings without blind spots. This gives you peace of mind that no part of the monitored area will be missed, which is crucial in providing security in high-traffic areas.

Advanced AI Features

The kit is equipped with **advanced artificial intelligence features** that include person detection and more. These features make the UVC-AI-Theta-Pro not only capture images, but also actively analyze them in real time, increasing the effectiveness of monitoring and enabling quick response to potential threats.

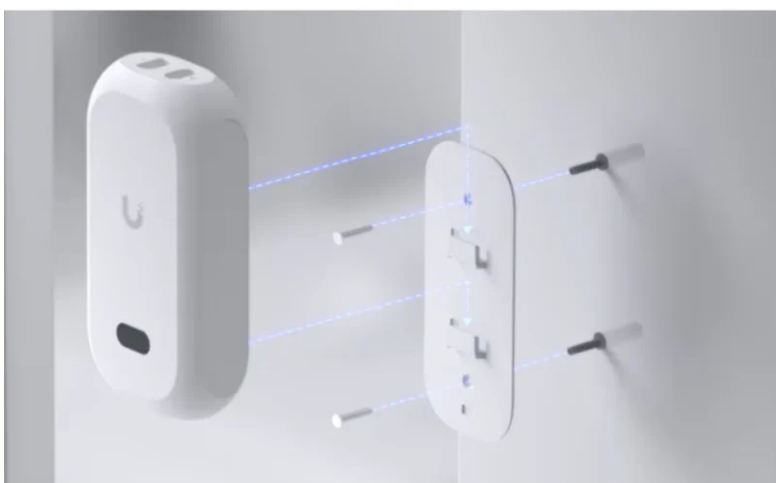

Discreet and Aesthetic Installation

Designed with discretion in mind, the UVC-AI-Theta-Pro has a minimal visual footprint thanks to **a lens separate from the main housing**. The kit includes **standard and professional flush mount brackets (Standard Flush Mount, Pro Flush Mount)**, allowing for easy installation without having to access the back of the ceiling or wall. This solution is not only practical, but also aesthetically pleasing, blending perfectly into any interior.

Easy Installation and PoE Power Supply

The AI Theta hub, which is the centerpiece of the kit, is powered by **PoE (Power over Ethernet)**, which simplifies installation and eliminates the need for additional power sources. This solution provides a reliable connection and power supply, which is crucial for continuous monitoring.

Optional Audio Module for Two-Way Communication

The optionally available AI Theta audio module allows two-way communication, which further enhances the functionality of the set. This allows not only monitoring, but also direct interaction with people in the monitored area.
