Manufacturer: UBIQUITI

Referention number: DNXXGLPMDRMMIK

Information:

Ubiquiti UVC-AI-Theta-ProLens110 is an indoor 4K (8 MP) camera with a 110.4° wide-angle lens, delivering exceptionally detailed images, even in low light. Advanced AI analytics enable people detection and licence plate reading, making it well suited to entrances, lobbies and other high-traffic areas. The camera works with the AI Theta Hub, which supports optional audio modules for two-way communication. Its slim design and included mount make ceiling or wall installation easy, while optional angled mounts increase installation flexibility. Durable materials, reliable operation across a wide temperature range and integration with UniFi Protect ensure convenient management and monitoring from the mobile app.

Product features

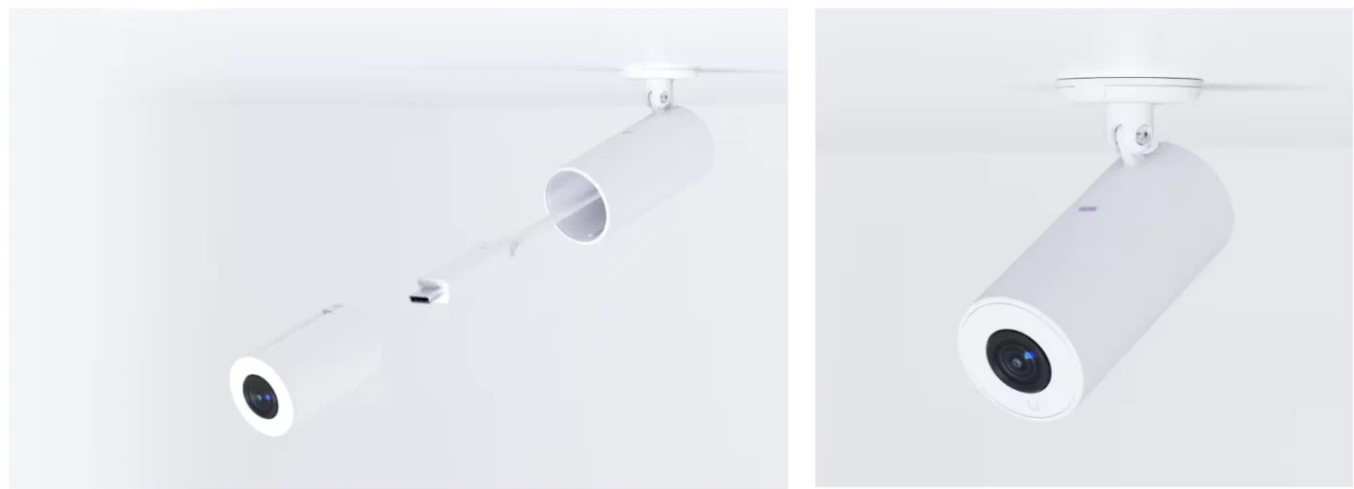

Regulatory Approvals	FCC, IC, CE
Input voltage	5 V
Wall mountable	Yes
Image sensor size	1 "
Depth	58.9 mm
Connectivity technology	Wired
Mounting kit	Yes
Power consumption (max)	2.5 W
Humidity measurement range	10 - 90%
Video compression formats	H.264
Operating temperature (T-T)	0 - 40 °C
Quick installation guide	Yes
Brand compatibility	Ubiquiti Networks
Viewing angle, diagonal	126.6 °
Megapixel (approx.)	8 MP

Product colour	White
Viewing angle, vertical	62.1 °
Viewing angle, horizontal	110.4 °
Watch case material	Aluminium
Type	Lens
Diameter	36.6 mm
Designation	Indoor
Product weight	50 g

Full product description

Exceptional Image Quality with the Ubiquiti UVC-AI-Theta-ProLens110

The Ubiquiti UVC-AI-Theta-ProLens110 camera is designed to deliver unparalleled image quality with its **4K (8MP) resolution**. This **wide-angle lens** offers a horizontal viewing angle of **110.4°**, allowing it to capture more details of its surroundings. It **also excels in low-light conditions**, providing better performance and dynamic range to ensure clear and sharp images even in challenging lighting conditions.

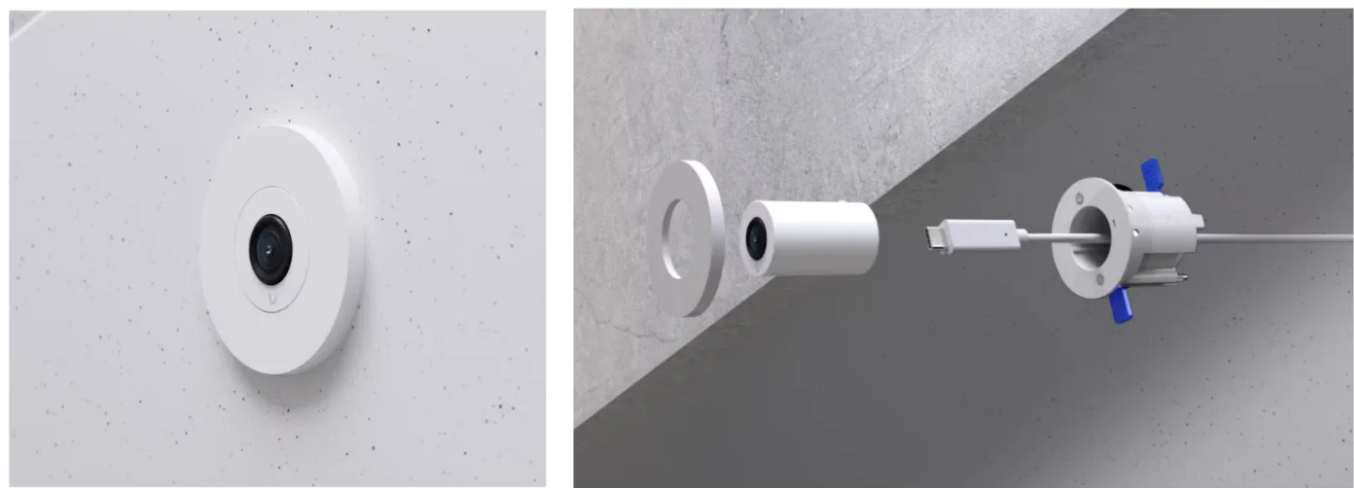

Advanced AI Features

This camera is not only a high-resolution image; it also integrates **advanced AI features** that take surveillance to the next level. **It can detect people and read license plates** with precision, making it an ideal choice for high-traffic areas such as entrances and lobbies. The AI Theta Hub (sold separately), which connects to the ProLens110, supports optional audio modules for two-way communication, adding an extra layer of security and interaction.

Versatile Mounting Options

Designed with aesthetics and functionality in mind, the **UVC-AI-Theta-ProLens110 includes a standard mount for mounting on flat ceilings or walls**. For those who need more flexibility, optional angle mounts are available, allowing the camera to be perfectly positioned to cover the desired area. Its slim design makes it blend into any environment without attracting undue attention.

Solid and Reliable

Made of durable materials such as **aluminum alloy and polycarbonate**, the UVC-AI-Theta-ProLens110 is built to last for years. Although it is designed for indoor use, its robust construction ensures reliability in a variety of indoor conditions. The camera operates effectively in a temperature range of 0 to 40°C and can operate in humidity from 10 to 90% without condensation, making it suitable for a variety of indoor environments.

Easy Integration and Control

The UVC-AI-Theta-ProLens110 security camera is part of the **UniFi Protect** ecosystem, which offers a unified and intuitive interface for managing all security devices. With the UniFi Protect app available for **iOS and Android**, you can monitor and control the camera from anywhere, providing peace of mind with real-time updates and alerts.
