**Information:**

Ubiquiti UVC-AI-Theta-ProLens360 is a discreet 4K 8MP surveillance camera with a panoramic 360° field of view, designed for large and busy spaces. It delivers high image quality, a wide dynamic range, and excellent performance in low light, allowing it to capture details in a variety of conditions. Built-in AI detects people, increasing the effectiveness of surveillance in offices, shopping centres, and public spaces. The camera works with a PoE hub, supports Pro Flush Mount recessed installation, and integrates with UniFi Protect. Compatibility with the AI Theta Audio module enables two-way audio communication. Low power consumption of 2,5 W and a compact design make installation and everyday use easier.

## Full product description

### Unparalleled image quality and versatility with AI Theta Pro 360 Lens

The Ubiquiti UVC-AI-Theta-ProLens360 camera is a unique device designed to provide a **panoramic view** in large, busy spaces. With **4K (8MP) resolution** and an **ultra-wide 360° viewing angle**, the camera guarantees incredible image quality, allowing you to capture every detail. In addition, advanced dynamic range technology and excellent low-light performance make the UVC-AI-Theta-ProLens360 perform well in all conditions. With innovative features and advanced technology, the Ubiquiti UVC-AI-Theta-ProLens360 camera is a reliable choice for anyone looking for a professional surveillance system with a wide field of view and high image quality.

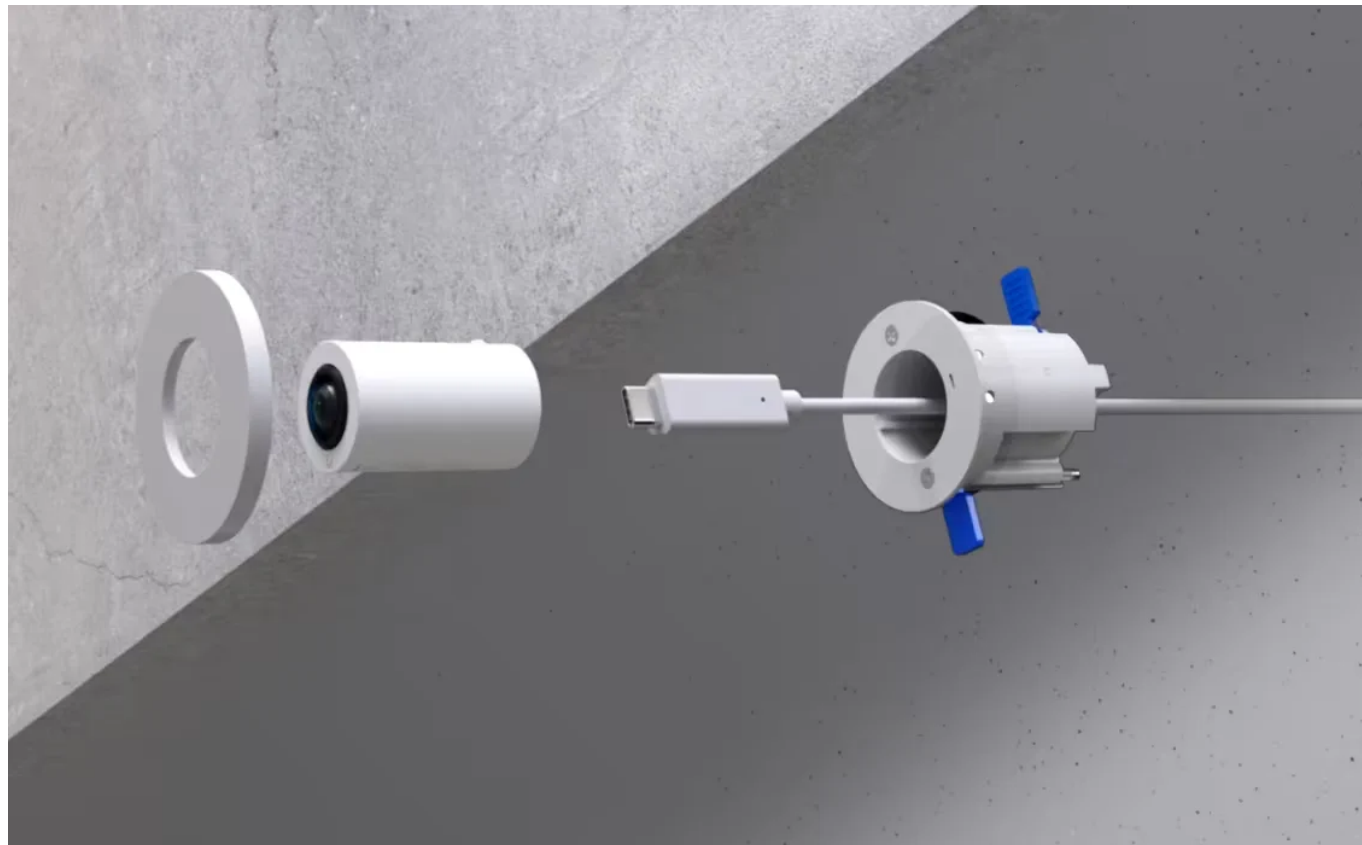

## Advanced AI features

The UVC-AI-Theta-ProLens360 surveillance camera is equipped with **advanced artificial intelligence algorithms** to detect people. This makes it ideal for applications in places that require a high level of security and precise monitoring, such as shopping malls, offices, and public spaces.

## Simple installation and discreet design

Designed to have minimal impact on interior aesthetics, the UVC-AI-Theta-ProLens360 camera has a small size and discreet appearance. The camera works with a **PoE hub (sold separately)** that connects to the lens via a cable, and the **Pro Flush Mount** system allows for easy recessed installation.

## Compatibility and flexibility

The camera is compatible with the **AI Theta Audio module**, which enables two-way audio communication, further enhancing the functionality of the monitoring system. The Ubiquiti UVC-AI-Theta-ProLens360 supports the **UniFi Protect app**, which provides full control and management of the system from **iOS™ and Android™** mobile devices.

## Technical specifications

The camera has an **8MP CMOS sensor** with fixed focal length and **180°** horizontal, vertical and diagonal **viewing angles**. Maximum video resolution is **2160 x 2160 pixels at 24 frames per second**. The device is **powered by PoE** and consumes a maximum of 2.5W of power, making it an energy-efficient solution for continuous monitoring.
