Price: **1,657.40 zł** gross / 1,347.48 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGJOQMJRMNHO

Information:

Ubiquiti UVC-AI-Turret-B is an advanced 4K surveillance camera with a wide viewing angle, delivering exceptionally detailed images both day and night thanks to the built-in IR. Intelligent AI functions enable face and licence plate recognition, as well as detection of people, vehicles and animals, helping to reduce false alarms and improve surveillance effectiveness. The IP66 housing guarantees resistance to dust and water, making the camera suitable for both indoor and outdoor use. Support for PoE+ makes installation easier, while the Gigabit Ethernet port ensures fast and stable data transfer.

Product features

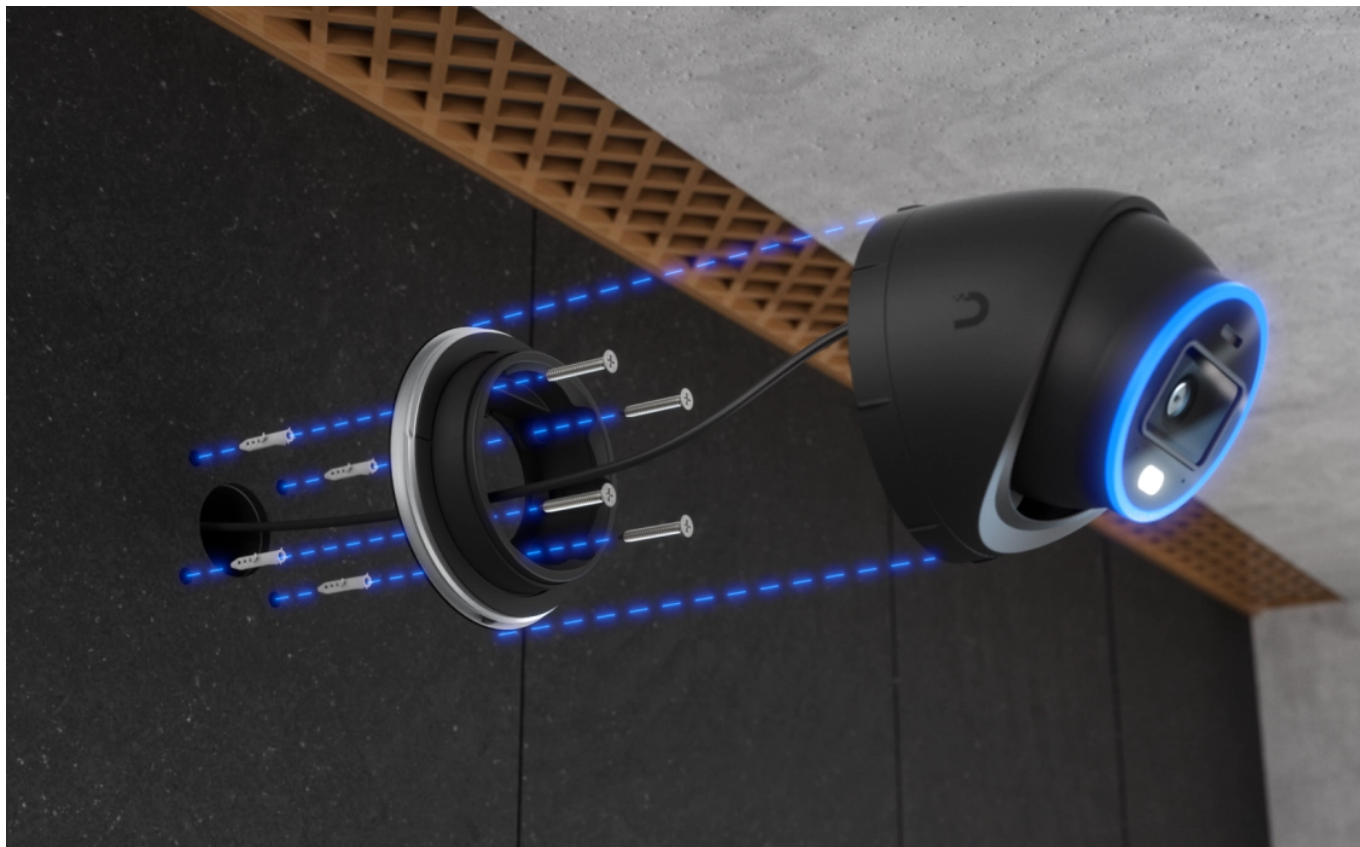

Regulatory Approvals	FCC, IC, CE
Height	111 mm
Connectivity technology	Wired
Maximum resolution	3840 pixels
Mounting kit	Yes
Audio system	2-way
Frame rate	30 frames per second
Noise reduction	Yes
Power consumption (max)	20 W
Night mode	Yes
Humidity measurement range	10 - 90%
Ethernet LAN (RJ-45) ports	1
IK code	IK08
Number of cameras	1
Fixed focus	Yes

IFU / User manual	Yes
Weatherproof	Yes
Protection features	Vandal proof
Operating temperature (T-T)	-30 - 50 °C
LED type	IR
Ethernet interface type	Gigabit Ethernet
Reset button	Yes
Cloud-managed	No
Card reader integrated	Yes
Built-in microphone	Yes
Web-based management	Yes
Total megapixels	8 MP
Noise reducing technology	2D noise reduction
Compatible memory cards	MicroSD (TransFlash)
International Protection (IP) code	IP66
Infrared (IR) cut-off filter	Yes
Wi-Fi	No
Bluetooth	No
Ethernet LAN	Yes
Built-in speaker(s)	Yes
Mobile operating systems supported	Android
Built-in HDD	No
Processor model	ARM Cortex-A53
Power source type	PoE
Built-in processor	Yes
Night vision distance	40 m
Camera tilt control	Yes
Camera pan control	Yes
Product colour	Black
Mounting hardware type	Ceiling/Wall
Watch case material	Aluminium
Type	IP security camera
Diameter	118 mm
Designation	Indoor & outdoor
Product weight	990 g

Full product description

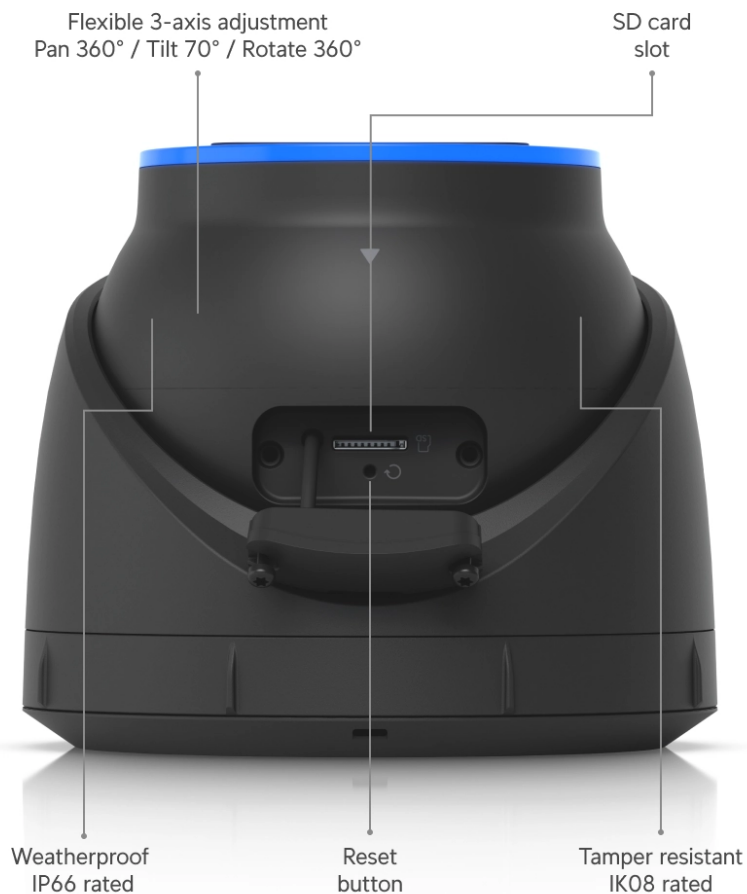

Ubiquiti UVC-AI-Turret-B Camera - Exceptional image quality and smart features for your security

The **Ubiquiti UVC-AI-Turret-B** camera is a solution that provides superior image quality, offering **4K resolution** and **a wide viewing angle**. With **AI** (artificial intelligence) technology, the camera enables advanced facial recognition, license plate recognition and detection of people, vehicles and animals. **The IP66 housing** guarantees weather resistance, allowing the camera to be used both indoors and outdoors. In addition, **support for PoE** (Power over Ethernet) simplifies installation, eliminating the need for additional power cables.

High quality 4K image

The camera offers **4K** (3840 x 2160) **resolution**, providing exceptional image quality day and night. With this resolution, every detailed scene is clearly visible, which is crucial in surveillance systems where precise capture of detail is important. In addition, the built-in **IR** (infrared) allows monitoring in low-light conditions, providing **full HD** images even at night.

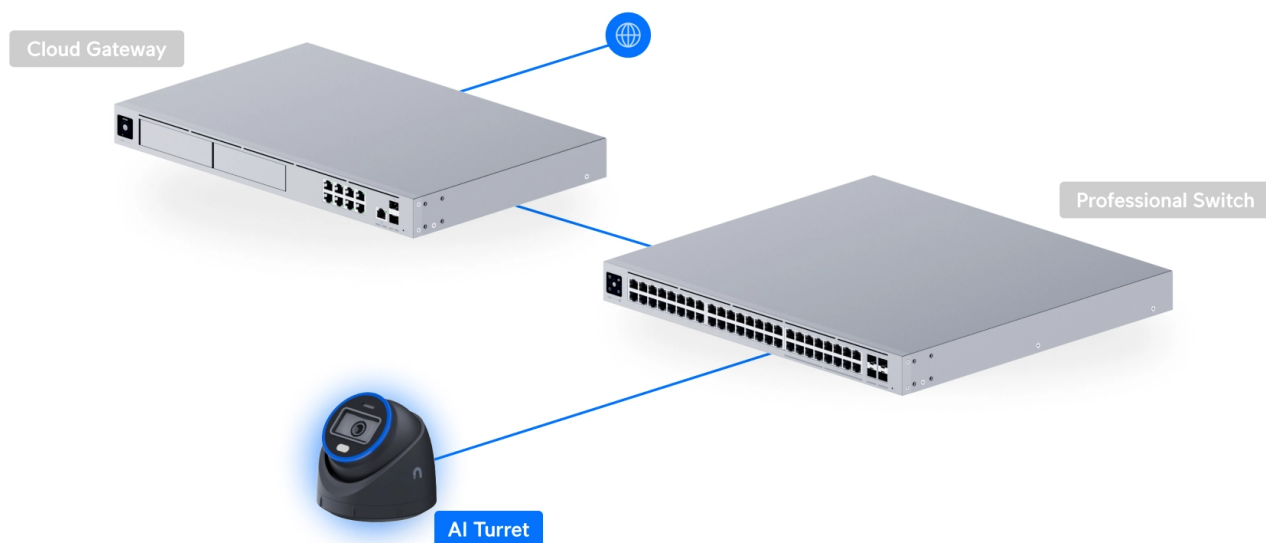

AI features and advanced recognition

The Ubiquiti UVC-AI-Turret-B camera offers **intelligent** object **detection**, face and license plate recognition, which is ideal for security systems. The use of **artificial intelligence** allows for precise filtering and analysis of footage, eliminating false alarms associated with irrelevant movements. With **person, vehicle and animal** detection, the camera enhances security by providing accurate monitoring.

Durable construction and weather resistance

The camera is equipped with **an IP66 housing**, which means that it is **resistant to dust and water**, and its operation in harsh weather conditions - rain, snow or frost - is certain. This is a key feature when it comes to **outdoor cameras** that need to operate in all conditions. Thanks to such resistance, the camera can be successfully used outdoors, providing continuous monitoring in all weather conditions.

PoE support and easy installation

PoE (Power over Ethernet) provides power and data transmission over a single Ethernet cable, greatly simplifying the installation process. With this solution, you don't have to worry about additional power sources, and the installation process becomes faster and more aesthetically pleasing. The camera also supports **Gigabit Ethernet** (GbE RJ45), providing high-speed data transfer without lag.
