Full product description

Software

The **UniFi Video** mobile app allows you to easily manage the camera and watch live transmissions on your mobile phone, or tablet with iOS or Android.

Elegant, integrated design

The versatile **UniFi Video Dome** camera fits any ceiling or wall surface. It is designed for **indoor** use.

HD image quality

With a wide-angle lens for an excellent field of view, the UniFi Video Camera G3 Dome delivers a resolution of **HD 1080p at 30 frames per second**.

Unlimited free access and remote access

Hybrid Cloud Technology combines the best of local and cloud management: secure local storage and convenient remote access with no license or maintenance fees. UNIFI Video cameras do their own **motion detection**, this mitigates server load and ensures that compression and noise will not affect motion detection.

Software features

The user interface accessible from the UniFi Video web browser has been designed to be **easy to use**, yet full of advanced features. The UniFi Video interface is extremely intuitive and allows **access to advanced functions** such as detailed statistical reports, multiple views, comprehensive camera settings, advanced analytics and a configurable recording system.
