Price: **873.45 zł** gross / 710.12 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHIPPKRMMPO

Information:

Ubiquiti UVC-G6-Bullet is a durable 4K IP camera for outdoor surveillance, compatible with UniFi Protect. It delivers images at a resolution of 3840 × 2160 at 30 FPS, ensuring high detail and better identification of people, vehicles and number plates. PoE power simplifies installation, while Ethernet connectivity guarantees stable operation. The camera enables night viewing up to 30 m, recognises people, animals and vehicles, and supports face recognition. The IP66 housing with IK04 resistance protects against rain, dust and damage, while versatile mounting makes deployment easier in various locations.

Product features

Height	88.8 mm
Connectivity technology	Wired
Maximum resolution	3840 pixels
Mounting kit	Yes
Compliance certificates	CE
Frame rate	30 frames per second
Noise reduction	Yes
Power consumption (max)	9.9 W
Night mode	Yes
Humidity measurement range	0 - 90%
Ethernet LAN (RJ-45) ports	1
IK code	IK04
DC output voltage	37
Number of cameras	1
IFU / User manual	Yes

Weatherproof	Yes
Image quality adjustment	Brightness
Operating temperature (T-T)	-20 - 50 °C
LED type	IR
Ethernet interface type	Fast Ethernet
Reset button	Yes
Text caption overlay	Yes
Screws included	Yes
Built-in microphone	Yes
Total megapixels	8 MP
Noise reducing technology	2D noise reduction
International Protection (IP) code	IP66
Human and vehicle targets classification	Yes
Infrared (IR) cut-off filter	Yes
Wi-Fi	No
Bluetooth	No
Ethernet LAN	Yes
Built-in HDD	No
Processor model	ARM Cortex-A53
Power source type	PoE
Built-in processor	Yes
Night vision distance	30 m
Product colour	White
Mounting hardware type	Ceiling/Wall/Pole
Watch case material	Aluminium
Type	IP security camera
Diameter	82 mm
Designation	Indoor & outdoor
Product weight	587 g

Full product description

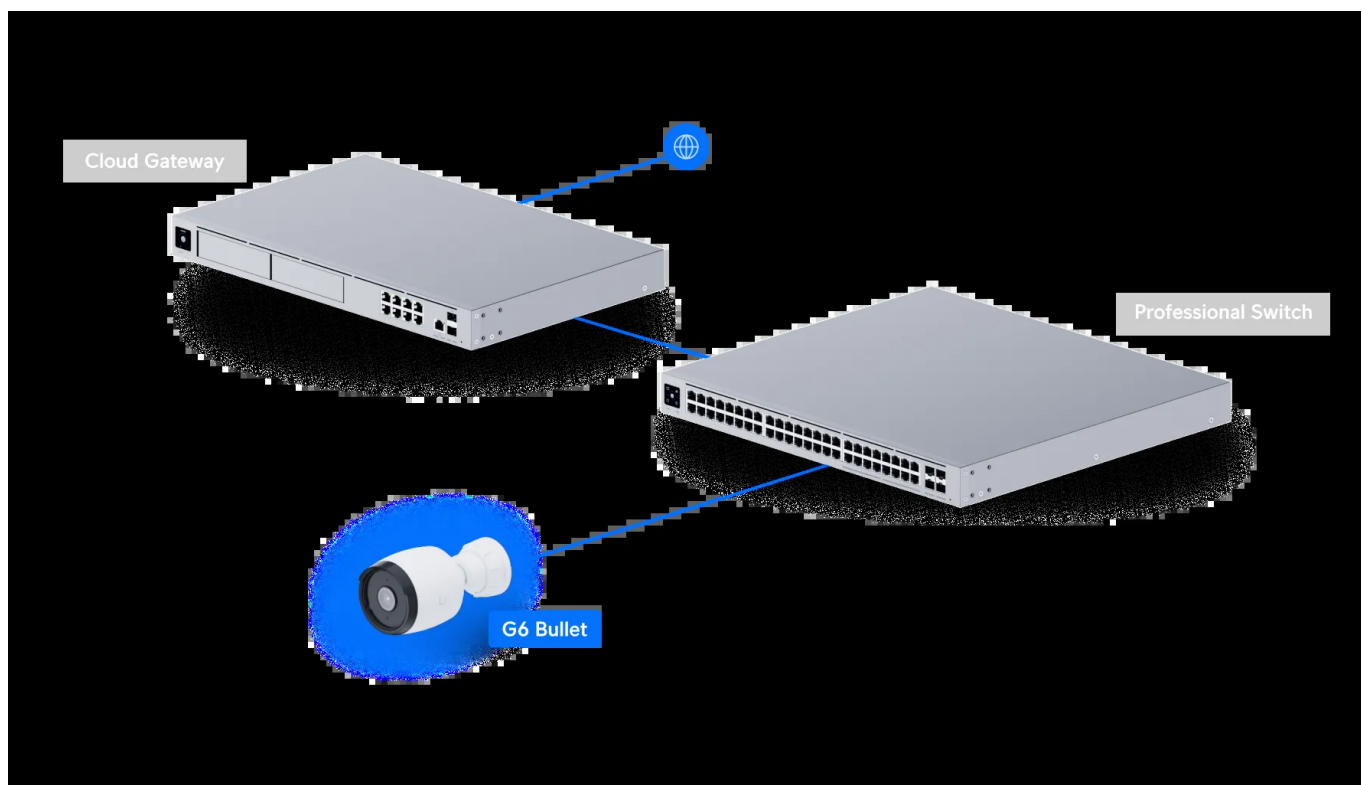

Ubiquiti UVC-G6-Bullet - 4K camera ready for any conditions

Take care of security with a device that **combines high image quality with a durable design**. Ubiquiti UVC-G6-Bullet is a **4K IP camera** designed to operate around the clock in demanding outdoor conditions. It works with the **UniFi Protect** system, making it part of a scalable surveillance system ready to go straight after installation.

Unifi IP camera - High 4K resolution

UVC-G6-Bullet records video in **4K resolution (3840 × 2160)** at **30 FPS**, allowing you to capture more detail than with Full HD cameras. Thanks to the **1/1.8" 8MP CMOS** sensor, the video is sharp, contrasty and clear even in dynamic scenes. Such parameters are particularly important when identifying people, vehicles and **number plates**.

PoE and Power over Ethernet

PoE power supply means that only one cable is needed for data transmission and power, which significantly simplifies **installation**. The camera operates at a voltage of 37 to 57V and draws only 9.9W of power. The **RJ45 10/100 MbE Ethernet connector** ensures stable transmission without the need for Wi-Fi.

24/7 monitoring with IR mode

The built-in **IR LED** and IR filter enable night monitoring up to **30 metres**, ensuring the camera works effectively even in complete darkness. Thanks to intelligent software, the camera recognises **people, animals and vehicles**, and also supports **facial recognition**. This means effective surveillance around the clock – without interruptions.

IP66 housing - ready for tough conditions

The **IP66** aluminium and polycarbonate housing protects the device from rain, dust and extreme temperatures. **IK04 mechanical resistance** protects against vandalism and accidental damage. The camera can be mounted **on a wall, ceiling or pole** - the kit includes all the necessary mounting components.
