Price: **887.40 zł** gross / 721.46 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGHINJKRMMJM

Information:

Ubiquiti UX7-EU is a high-performance Mesh WiFi 7 system with UniFi Gateway, designed for a stable and fast network for up to 300 simultaneous users. It supports 6, 5 and 2.4 GHz bands, MU-MIMO 2x2 technology and Beamforming, ensuring low latency and a reliable connection. It offers advanced security features such as a layer 7 firewall, VPN, SD-WAN and VLAN, as well as management of up to 30 devices in UniFi Application Suite. Thanks to the 10 GbE WAN port, 2.5 GbE LAN, PoE and USB-C support, and plug & play configuration, installation and operation are quick and easy.

Product features

Height	42.5 mm
Input voltage	100 V
Antenna type	Internal
LED indicators	Status
WAN connection	Ethernet (RJ-45)
Data transfer rate	5.7 Gb/s
Routing protocols	OSPF
Wireless connection	Yes
Firewall security	Yes
Width	117 mm
Depth	117 mm
Security algorithms	802.1x RADIUS
Electromagnetic (EMP) protection (contact)	4 kV
Electromagnetic (EMP) protection (air)	8 kV
Electromagnetic (EMP) protection	Yes
Input current	5 A

Cables included	LAN (RJ-45)
Compliance certificates	CE
Power consumption (max)	22 W
Load balancing	Yes
Humidity measurement range	5 - 95%
Networking standards	IEEE 802.1Q
Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	6 gain
Processor family	ARM Cortex
Operating temperature (T-T)	-10 - 40 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Processor frequency	1500 MHz
Display diagonal	0.96 "
Internal memory	3000 MB
Wi-Fi	Yes
Bluetooth	Yes
Display type	LCM
Number of processors installed	1
Processor model	Cortex-A53
Processor manufacturer	ARM
Built-in processor	Yes
Antennas quantity	4
Product colour	White
Multicast support	Yes
DHCP server	Yes
Watch case material	Polycarbonate (PC)
Control panel	Yes
Product weight	422 g

Full product description

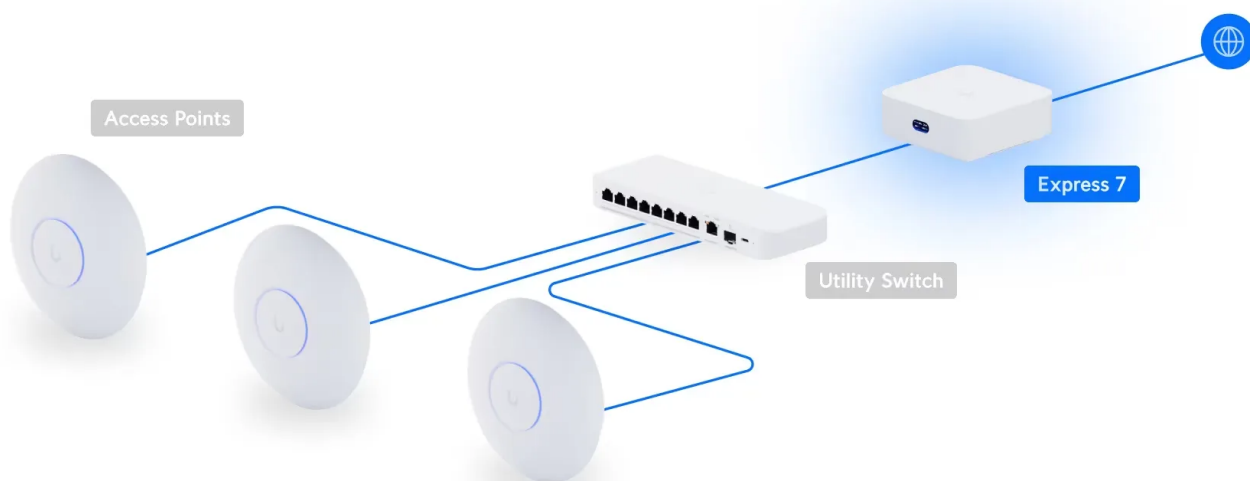

Ubiquiti UX7-EU - Mesh WiFi 7 system with UniFi Gateway

Build an efficient and stable wireless network with the **Ubiquiti UX7-EU**, which **combines WiFi 7 technology** with **UniFi Gateway**. This advanced device provides a fast and stable connection for hundreds of users, supporting **up to 300 simultaneous connections**. With **plug**

Advanced WiFi technology 7

The **Ubiquiti UX7-EU** uses **WiFi 7** technology, offering high transmission speeds and low latency. It supports 6 GHz, 5 GHz and 2.4 GHz bands for optimal performance in any environment. With **MU-MIMO 2x2** and **Beamforming**, the connection remains stable, even with a large number of connected devices.

UniFi Gateway and network management

The device acts as a **UniFi Gateway**, offering **advanced security features** such as Layer 7 firewall, VPN and traffic control. With UniFi Application Suite, you can manage up to 30 devices and monitor connection quality. **SD-WAN** support and **VLAN** segmentation enhance network flexibility and security.

High-speed wired connection

The UX7-EU is equipped with a **10 GbE WAN port** and a **2.5 GbE LAN port** for fast connection to a wired network. With **PoE and USB-C** support, the device can be **powered directly via a network cable** or a standard adapter. This solution allows for easy installation in a variety of environments.

Plug

Thanks to **automatic configuration** and **UniFi Cloud**, the UX7-EU is ready to go almost as soon as you plug it in. An intuitive user interface allows you to **monitor the device in real time**. Support for **Bluetooth** and **the UniFi app** allows remote management from a smartphone.
