Price: **1,241.28 zł** gross / 1,009.17 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGINKDRMLOH

Product features

Height	30 mm
Input voltage	100 V
LED indicators	Activity
WAN connection	Ethernet (RJ-45)
Routing protocols	OSPF
Firewall security	Yes
Width	212.8 mm
Depth	127.6 mm
Security algorithms	IPSEC
Electromagnetic (EMP) protection (contact)	4 kV
Electromagnetic (EMP) protection (air)	8 kV
Electromagnetic (EMP) protection	Yes
Input current	1.1 A
Cables included	Power
Compliance certificates	CE
Power consumption (max)	25 W
Load balancing	Yes
Humidity measurement range	5 - 95%
Ethernet LAN (RJ-45) ports	5
SFP+ ports quantity	2
Processor family	ARM Cortex
DC input voltage	54 V

DC-in jack	Yes
Operating temperature (T-T)	0 – 40 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes
VLAN support	Yes
Reset button	Yes
Processor frequency	2200 MHz
Power over Ethernet (PoE)	Yes
Internal memory	2000 MB
Bluetooth	Yes
Number of processors installed	1
Processor manufacturer	ARM
Built-in processor	Yes
Power over Ethernet (PoE) type supported	PoE+
Product colour	White
Multicast support	Yes
Watch case material	Polycarbonate (PC)
Control panel	No
Sustainability compliance	Yes
Product weight	605 g

Full product description

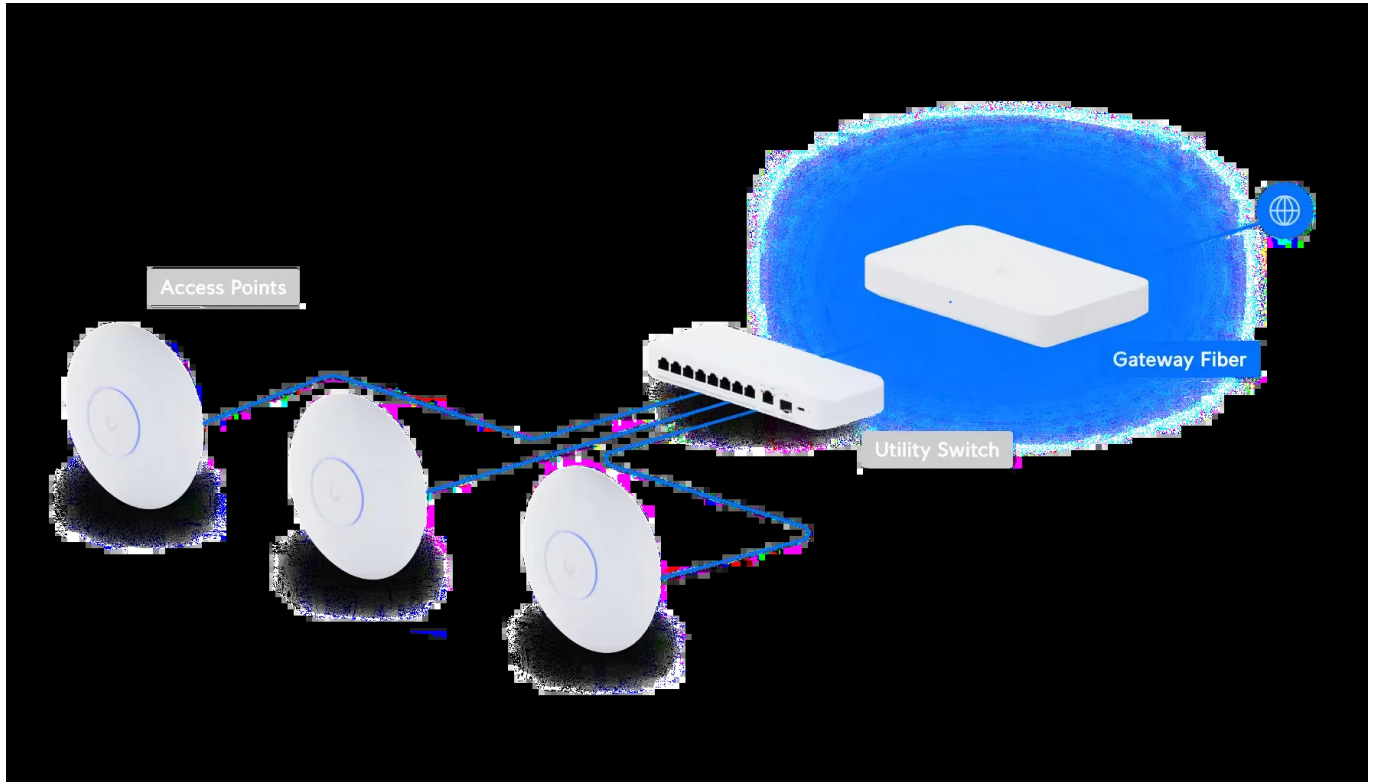

Ubiquiti UXG-Fiber - UniFi Gateway with 4x 2.5GbE and 2x SFP.

Ubiquiti UXG-Fiber is an **advanced networking device** that combines the functions of **UniFi Gateway, controller and switch**. With **four 2.5GbE RJ45 ports** and **two 10GbE SFP ports**, it provides high throughput and network stability. It's a solution that allows flexible configuration and full control of network traffic in businesses and advanced home installations.

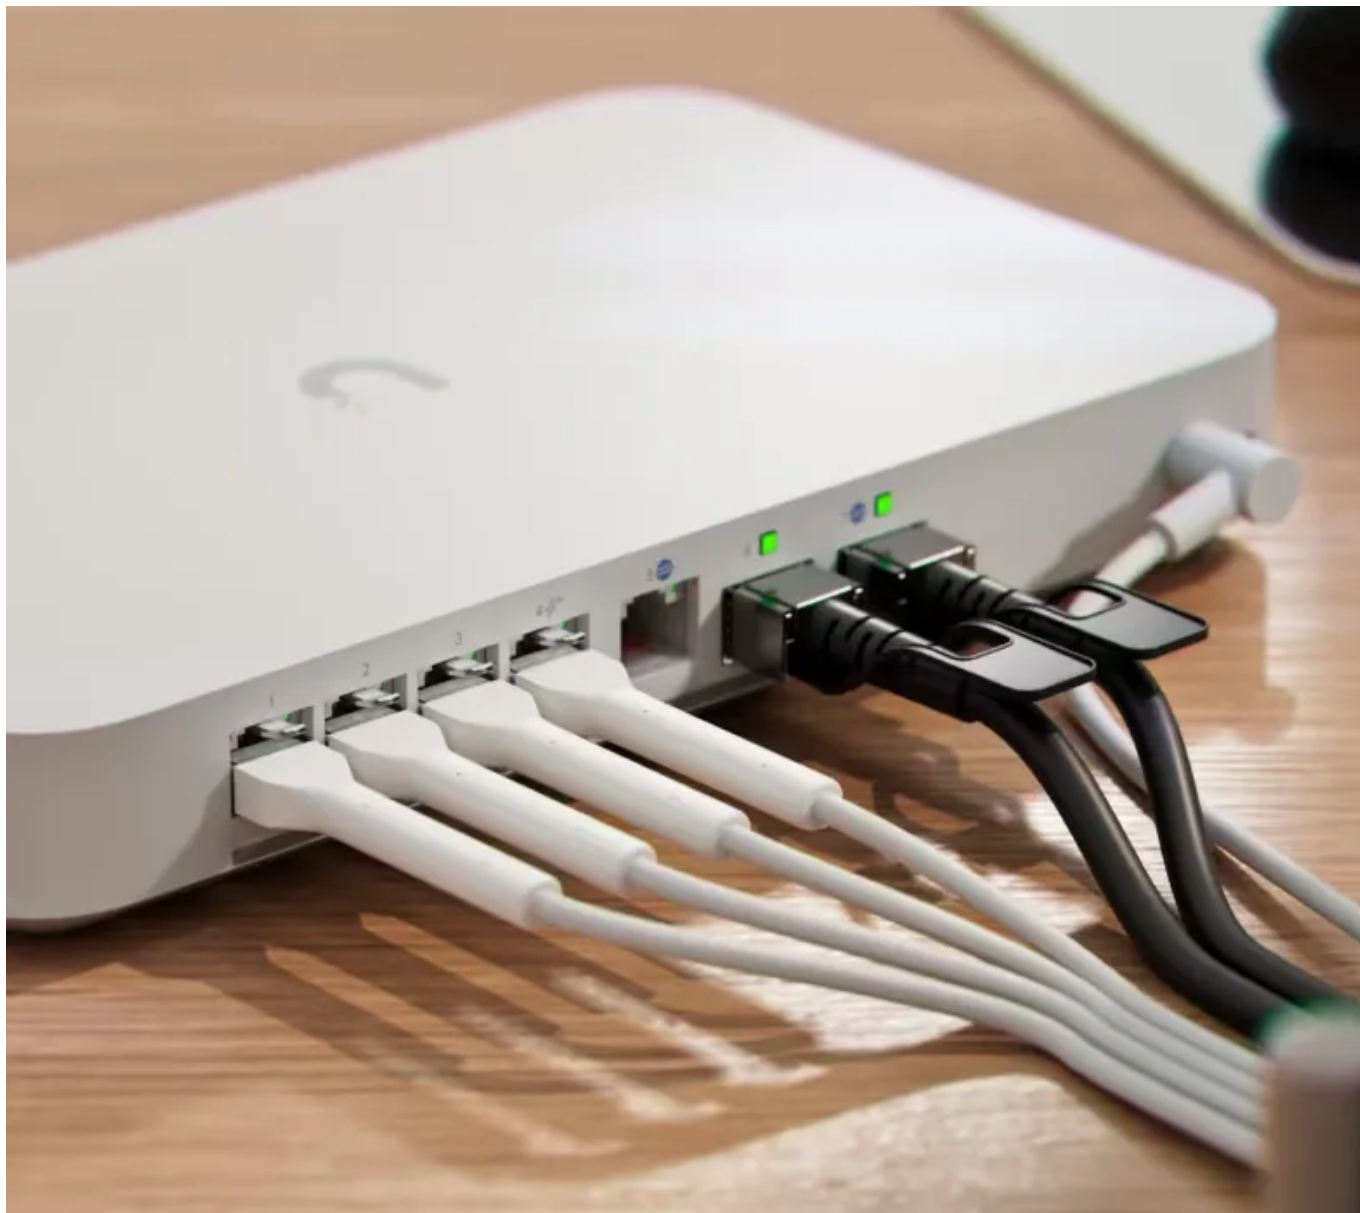

Fast and flexible wired network

The UXG-Fiber offers **4 2.5GbE LAN ports** and **2 10GbE SFP ports** for efficient wired connections. With **VLAN support** and **advanced NAT management**, users can freely configure the network. **PoE support** allows connected devices to be powered without the need for additional adapters.

UniFi Gateway with advanced security

The device acts as a **UniFi Gateway**, offering **built-in Layer 7 firewall**, **IDS/IPS** and **content filtering**. **VPN** and **SD-WAN** support provides secure connections and traffic segmentation. **DPI (Deep Packet Inspection)** allows monitoring and optimization of network traffic.

Support for UniFi Cloud Key and UniFi Controller

The UXG-Fiber is **compatible with UniFi Cloud Key**, which allows you to **centrally manage your network in the cloud**. The ability to monitor multiple devices and manage UniFi networks makes the device ideal for businesses and large installations. Integration with **UniFi Protect, Access and Talk** allows full control of the system.

Powerful components and energy efficiency

The router features a **quad-core ARM Cortex-A73 processor** and **2GB RAM**, ensuring smooth operation even under heavy load. **Low power consumption (max. 25W)** makes the UXG-Fiber a cost-effective and efficient solution. **Multi-WAN support** allows load balancing and automatic switching to a backup link.

Easy setup and management

With **UniFi Network Application**, the UXG-Fiber can be **configured and monitored in an intuitive way**. **Bluetooth** and **UniFi Cloud Key** support allow you to remotely manage and monitor your network. The **Teleport VPN** feature allows you to connect quickly and securely from any location.
