Price: **583.07 zł** gross / 474.04 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGLNSGRMMOL

Information:

Ubiquiti UniFi Gateway Lite (UXG-Lite) is a compact, high-performance network gateway providing reliable routing and a high level of security. It offers up to 10 times better performance than the older USG, making it excellent at handling heavy traffic, high-definition streaming and multiple users at the same time. Built-in IPS and IDS functions protect the network against threats in real time, while QoS and intelligent queues allow traffic to be prioritised and bandwidth to be managed efficiently.

Product features

Height	30 mm
Input voltage	5 V
LED indicators	Yes
WAN connection	Ethernet (RJ-45)
Firewall security	Yes
Width	98 mm
Depth	98 mm
Security algorithms	IPSEC
Input current	3 A
Compliance certificates	CE
Power consumption (max)	3.83 W
Humidity measurement range	5 - 95%
Ethernet LAN (RJ-45) ports	2
Operating temperature (T-T)	-10 - 40 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes

VLAN support	Yes
Reset button	Yes
Processor frequency	1000 MHz
Internal memory	1000 MB
Number of processors installed	1
Processor model	Cortex-A53
Processor manufacturer	ARM
Built-in processor	Yes
Product colour	White
Internal memory type	DDR3L
DHCP server	Yes
Watch case material	Polycarbonate (PC)
Control panel	No
Sustainability compliance	Yes
Product weight	320 g

Full product description

Ubiquiti UniFi Gateway Lite - Compact and Powerful Gateway.

Ubiquiti UniFi Gateway Lite (UXG-Lite) is a compact and powerful network gateway. With advanced routing and security features, the **UXG-Lite** guarantees reliability and superior network performance, meeting the expectations of even the most demanding users. It is the ideal solution for those who value performance and security in a compact form factor.

Unmatched Network Performance

The **Ubiquiti Next-Gen Gateway Lite** offers routing performance that is up to **10 times better** than previous models, such as the **Ubiquiti**

UniFi Security Gateway (USG). This device is capable of handling even the most demanding network traffic, whether you're streaming high-definition content, serving multiple users simultaneously, or running bandwidth-intensive applications. With the Next-Gen Gateway Lite, your network will operate with maximum performance and reliability.

Advanced Security Features

The **Ubiquiti Gateway Lite** provides a wide range of advanced security features to protect your network from threats. **IPS (Intrusion Prevention System)** detects and prevents malicious attacks in real time, while **IDS (Intrusion Detection System)** monitors network traffic for suspicious activity, sending alerts on potential threats. With **QoS (Quality of Service)**, network traffic is prioritized based on specific applications or users, and intelligent queues manage bandwidth in real time, ensuring equitable distribution of resources.
