Full product description

The **Extralink ZMI QB826G PowerPack No 20** is an all-in-one portable powerbank **ideal for anyone with multiple USB-C devices**. It quickly charges both an iPhone and laptop of any size, and all devices in between. Offering a capacity of 25,000 mAh, it allows you to better handle multiple devices.

Robust and durable construction

Key features of Extralink ZMI Powerpack 25000 Power bank QB826G

Powerbank

25000mAh

Large
capacity

Award-winning
design:
Red Dot 2021 winner

Functions
as USB hub

Impressive
power output
of 210 watts

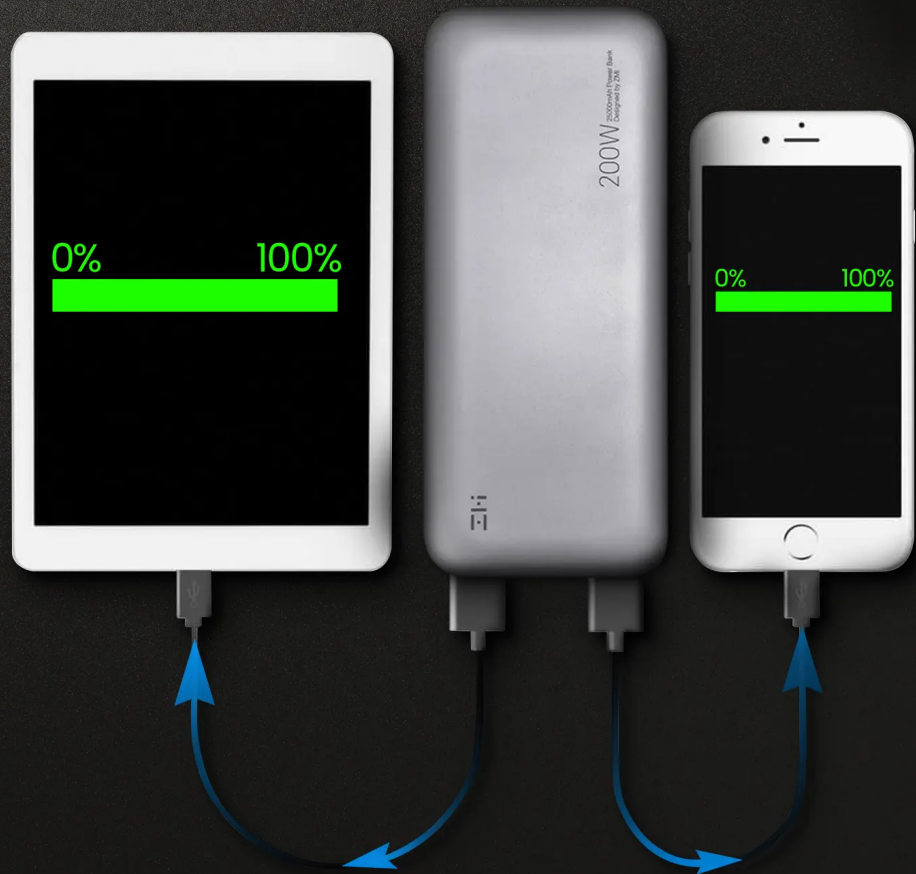

High level
of safety

Impressive 210W output power

The **Extralink ZMI Powerpack 25000mAh QB826G** provides **100 watts of USB PD** output power **through the first USB-C port**. It can charge high-powered laptops such as the **16-inch MacBook Pro**. It can also simultaneously deliver **45 watts of power from the second USB-C port** and **65 watts from the USB-A port**, for a total maximum power output of **210 watts**.

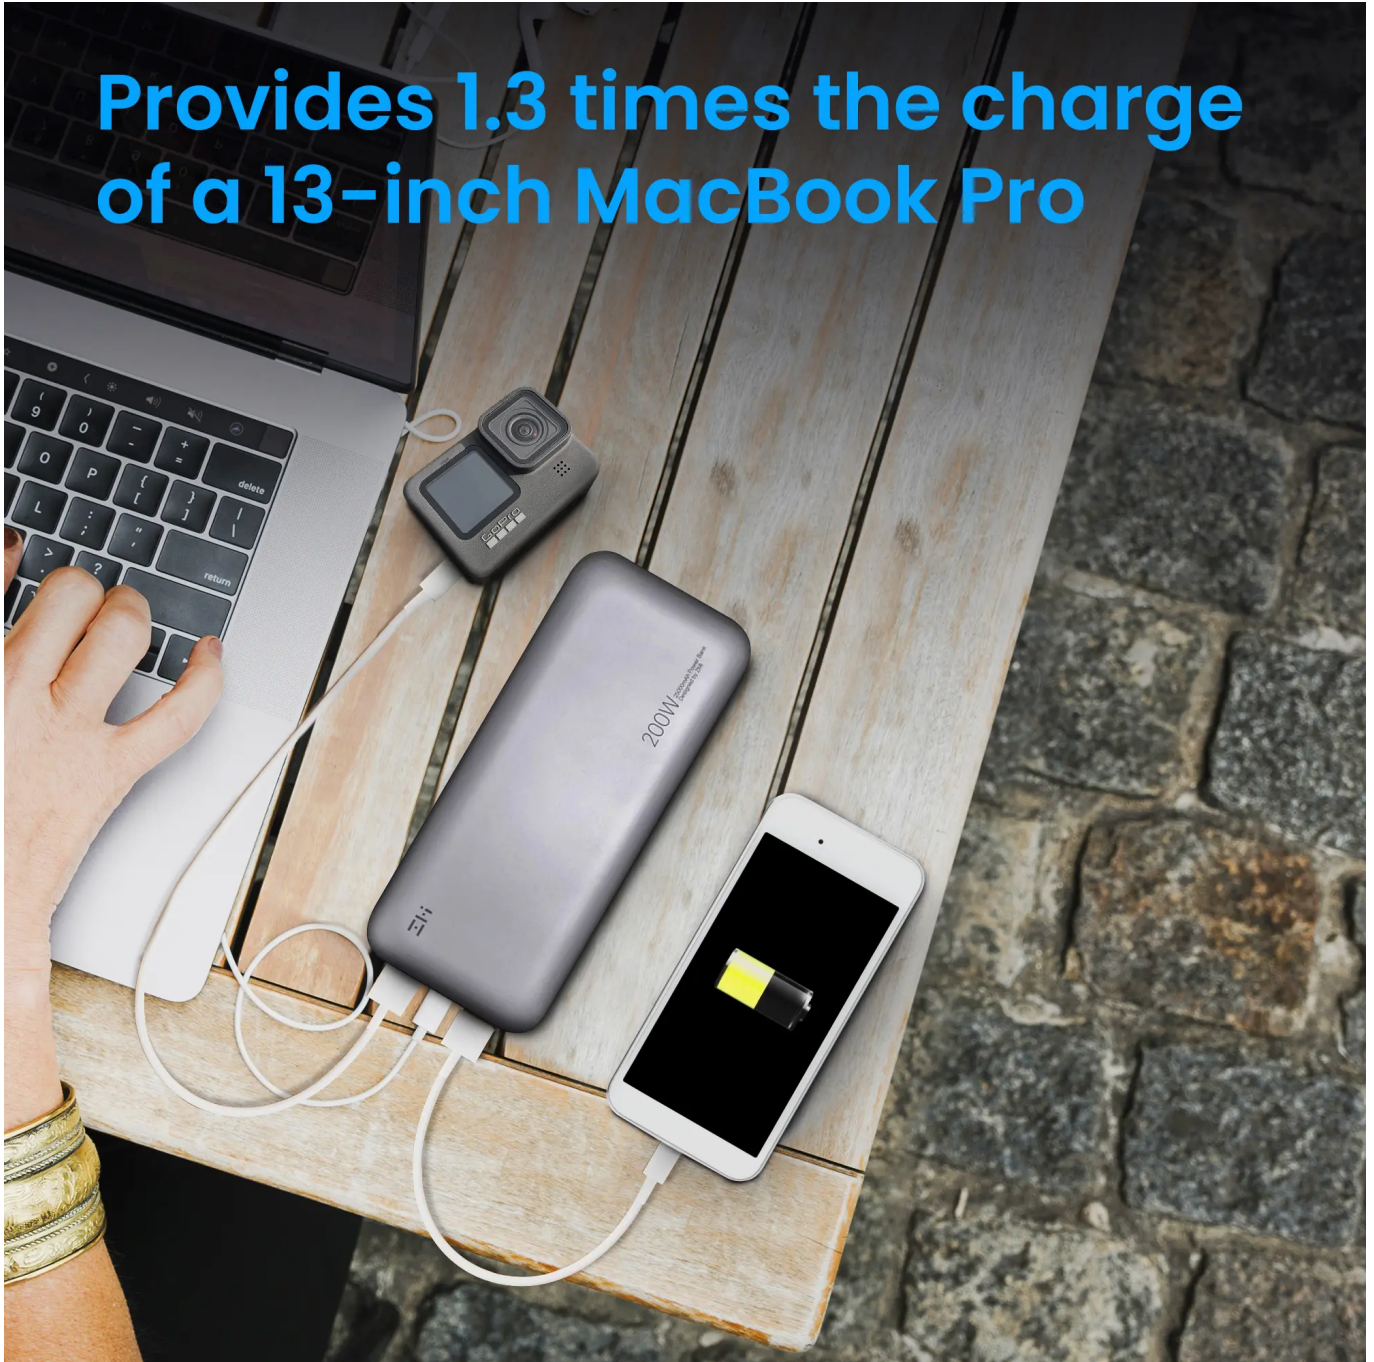

Fast charging 120W

For Black Shark 4.4 Pro,
Xiaomi Mi 10 Ultra/11T Pro

The **25,000 mAh** powerbank can **charge a 13-inch MacBook Pro 1.3 times**, but it's still under the FAA-imposed battery size limit, **so you can bring it on the plane in your carry-on luggage** and use it during the flight.

Provides 1.3 times the charge of a 13-inch MacBook Pro

Pass-Through charging

Pass-Through charging allows the powerbank to **charge both itself and the connected device**. Energy is sent from the Extralink ZMI to the device, and the energy from the wall outlet also goes to the batteries in the powerbank. Pass-through charging is useful when you only have one USB wall charger.

Lightweight and easy to carry

High level of security

The **Extralink QB826G power bank** features advanced overheating protection to maximize cell life. The powerbank is also equipped with overload, overvoltage and short-circuit protection.

Award-winning design: Red Dot Winner 2021
