Price: **2,728.78 zł** gross / 2,218.52 zł net

Manufacturer: UBIQUITI

Referention number: DNXXGLMPFRMMKL

Product features

Regulatory Approvals	FCC, IC, CE
Product type	Network bridge
Height	166.2 mm
Antenna type	Internal
LED indicators	GPS
Modulation	1024-QAM
Width	424.4 mm
Depth	424.4 mm
Connectivity technology	Wired & Wireless
Security algorithms	WPA2-PSK
RAM type	DDR3L
Network Time Protocol (NTP) client	Yes
Maximum data transfer rate	5400 Mb/s
Power consumption (max)	26 W
Humidity measurement range	5 - 95%
Operating temperature (T-T)	-40 - 140 °F
Networking standards	IEEE 802.11ax
Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	46 gain
Power LED	Yes
Processor family	ARM Cortex
DC input voltage	44 V

DC-in jack	Yes
Material	Aluminium
Operating temperature (T-T)	-40 - 60 °C
Quick installation guide	Yes
Frequency band	57 GHz
Reset button	Yes
Processor frequency	1400 MHz
DC output voltage	48 V
International Protection (IP) code	IPX6
Mounting bracket(s) included	Yes
Ethernet LAN data rates	2500 Mb/s
Power over Ethernet (PoE)	Yes
Internal memory	512 MB
Wi-Fi band	Single-band (5 GHz)
Wi-Fi	Yes
Ethernet LAN	Yes
Top Wi-Fi standard	Wi-Fi 6 (802.11ax)
Processor model	ARM Cortex-A53
Processor manufacturer	ARM
Power source type	DC
Antenna design	Internal
Product colour	White
Maximum transfer distance	15000 m
Mounting hardware type	Pole
Product weight	2800 g

Full product description

Meet the Ubiquiti Wave-Pro - a professional CPE station from Ubiquiti that will provide your network with unprecedented throughput and stability.

Equipped with cutting-edge technology, this access point is the ideal solution for the most demanding users, guaranteeing fast data transfer and wide coverage. With the Ubiquiti Wave-Pro, your network will become more efficient and reliable.

Amazing throughput and range

The Ubiquiti Wave-Pro offers a throughput of up to 5.4 Gbps, allowing for **fast transmission of large amounts of data**. The range of this device is up to 15 km in PtP mode and up to 8 km in PtMP mode, making it ideal for large area applications. So you can enjoy a reliable connection even over long distances.

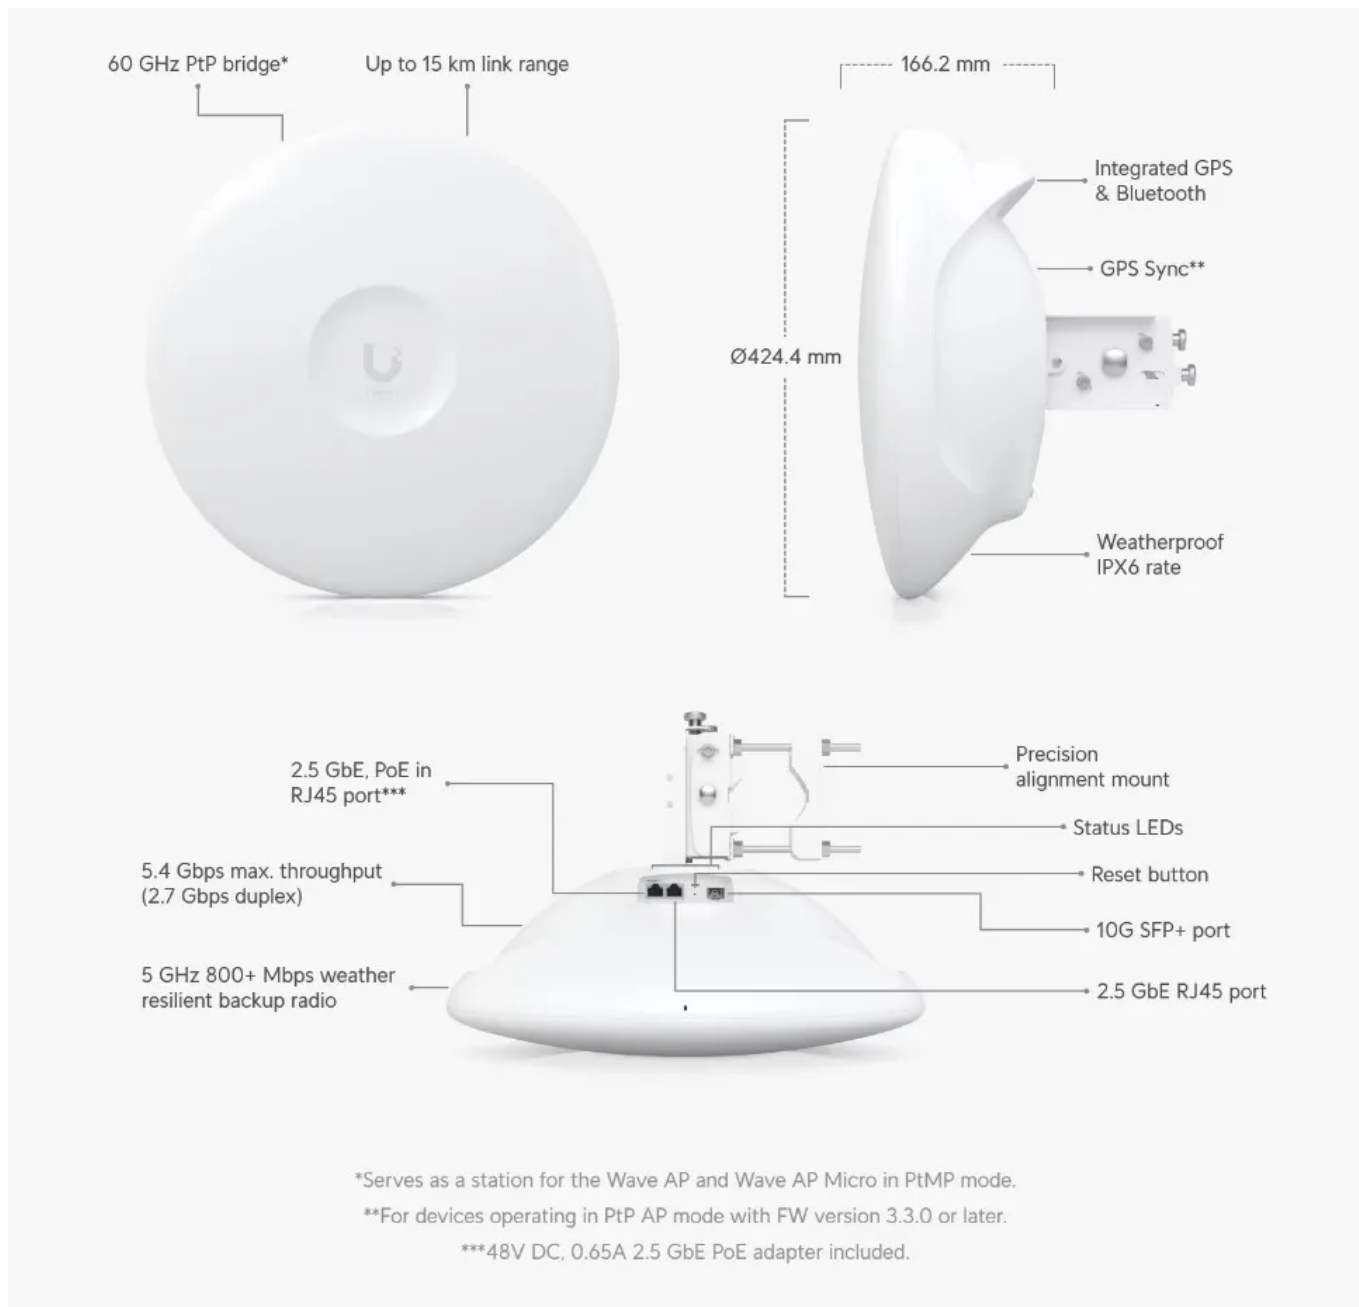

Advanced networking features

This access point is equipped with two 2.5 GbE RJ45 ports and one 10G SFP port , providing **flexibility in network management**. Dual band 60 GHz and 5 GHz support with WiFi 6 technology guarantees stable connection across bands, reducing interference and increasing performance. The Ubiquiti Wave-Pro is also equipped with GPS, allowing you to accurately locate and synchronize devices on your network.

Durability and resistance to external conditions

Designed to operate in harsh environments, the Ubiquiti Wave-Pro features an aluminum and stabilized plastic housing for **durability and UV resistance**. The device is **waterproof (IPX6)** and can operate in extreme **temperatures from -40 to 60° C**. As a result, you can rely on its reliability, regardless of weather conditions.

Support and ease of use

The Ubiquiti Wave-Pro supports advanced network management features through the UISP system, offering tools for antenna alignment, speed tests and ping. With built-in Bluetooth and intuitive configuration, **managing and monitoring** your network becomes **simple and efficient**. In addition, the device supports passive PoE, making it easy to power and install.
