Full product description

Your pocket cinema at home - Wanbo Mini Pro WPE01

Change the way you watch movies, presentations and photos with **the Wanbo Mini Pro WPE01**. This unique projector combines **250 ANSI lumens of brightness, 720p HD resolution**, and **Android 9.0** to offer rich features in a compact size. With a state-of-the-art optical lens and long lamp life, **the Wanbo Mini Pro** is ideal for everyday use.

Mini size - big possibilities

With its compact dimensions of **165x122x86 mm**, the Wanbo Mini projector is easy to take on the road, use in the office or at home. Weighing just a few hundred grams, it offers image projection **from 40 to 100 inches**, making it a great choice for intimate screenings. **The integrated Android 9.0** provides access to apps such as YouTube and Netflix, allowing you to enjoy your favorite content without additional devices.

Brightness and image quality

A **brightness of 250 ANSI lumens** guarantees a readable image even when the room is partially lit. With **HD 720p resolution** and 1080p decoding support, projections are clear and detailed, ideal for both presentations and movies. The high-transparency clear glass optical lens improves image sharpness and longevity.

Advanced connectivity options

The Wanbo Mini projector features **HDMI, USB** and **AV connections**, so you can easily connect various devices such as laptops, consoles and media players. A built-in full-range **diaphragm speaker** provides good-quality sound, and Bluetooth functionality makes it easy to transfer audio to external audio devices.

Cooling and lamp life

Thanks to its **dual-circulation cooling system**, the Wanbo Mini projector operates quietly and dissipates heat efficiently, extending lamp life up to **20,000 hours**. An ideal choice for those looking for a durable solution for everyday use.
