More Perspectives

The Wanbo Mozart Series Projector Gimbal Stand allows **150° of angle adjustment**, which contributes to a **wider working range**. The integrated design makes setting the appropriate angles intuitive and quick. So you can easily adjust the projection to your needs, whether

you're watching a movie, presenting content or playing a game.

150°Adjustable Angle Casting Your Screen Anywhere

Setting suitable viewing angles. Switching your screen from the wall onto the ceiling with ease

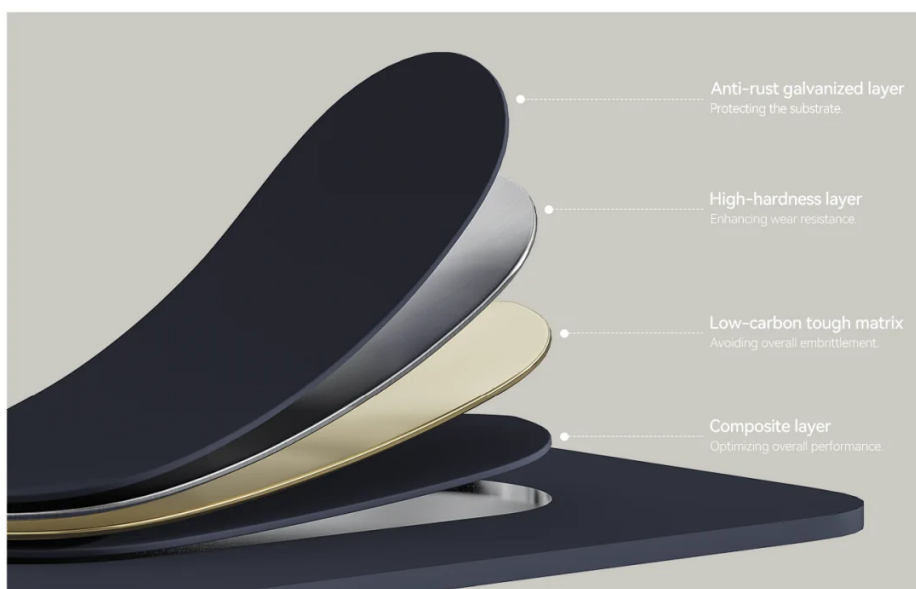

Please note that the projector is not included.

Durable Construction

Made of **durable metal material**, the Wanbo Mozart Series Gimbal Stand offers a maximum load of up to **10 kg**, making it a stable support for your projector. It uses **carbon metal (SPCC Cold Rolled Sheet steel material)**, giving it exceptional strength and durability. It is composed of multi-layered materials, including **a galvanized anti-corrosion layer**, **a high hardness layer** to increase wear resistance, **a high strength low carbon matrix** to prevent brittleness, and **a composite layer** to optimize overall performance.

Carbon Steel Metal Material Sturdy and Durable

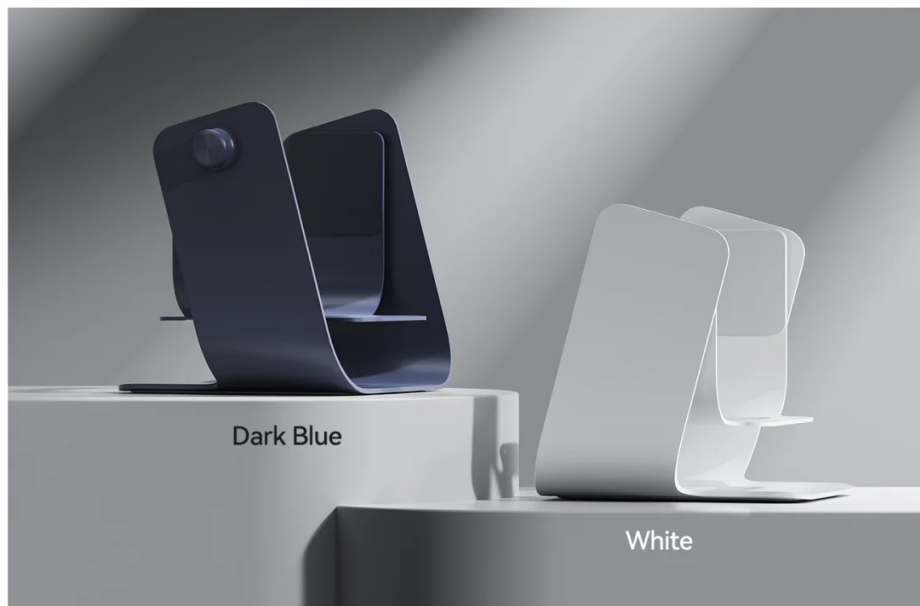

The maximum load-bearing capacity of the bracket is 10Kg, and it is made of multi-layer materials, making it sturdy and durable.

Design and Elegance

The stand features **brushed metal** and an ingenious design, giving it a modern and elegant look. Available in **two colors - dark blue and white** - you can match it to your projector variant. It is an accessory that is not only functional, but also a discreet design element.

Two Colors Available

Simple Operation

Installation of the stand is **easy and convenient**. The integrated design eliminates the need to lift the projector with books or other makeshift solutions. Equipped with **standard 1/4-inch screws** and the included tool, the stand allows for quick and hassle-free installation.

Standard 1/4" Screws

Equipped with 4*1/4" standard screws and a wrench tool, installation is simple and convenient

Device Protection

The stand takes care of the safety of your projector. Two sides of the bracket are equipped with **non-slip silicone pads** that effectively prevent scratches and friction on the surface of the projector. This contributes to the long-term maintenance of the aesthetics and functionality of your equipment.

Anti-slip Silicone Pad Protecting the Projector

The two sides of the bracket are made of anti-slip silicone pads to effectively prevent scratches and friction on the projector

Compact Dimensions

With dimensions of 190 mm in height, 213.6 mm in width and 178.8 mm in depth, and weighing **2.1 kg**, the stand is compact and easy to carry, helping you arrange your projection space with ease.

Easy Installation Creating a Private Cinema

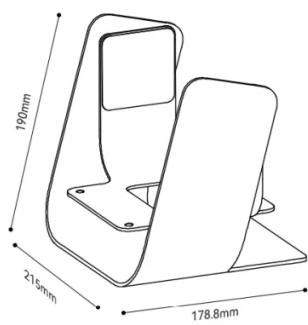

The stand is integrated with the machine, and there is no need to raise it with books, etc. It is sturdy and easy to use

The Wanbo Mozart Series stand is the perfect solution for:

- Users of [Wanbo Mozart 1 Pro New](#) projectors looking for dedicated support.
- Those who value flexibility and freedom in adjusting image projection angles.
- Anyone who wants to create a personalized home theater with an optimal view.
- Those looking for a stable, durable and aesthetically pleasing mounting solution for the Mozart projector.
