Full product description

You no longer have to worry about mounting your projector securely.

Wanbo WBCA02 - an adapter dedicated to [DaVinci](#) and [Mozart](#) models , is a guarantee of solidity and convenience of use. Thanks to it, your projector will be stably mounted, and you will be able to fully enjoy any projection, without worrying about its safety.

Robust construction

The Wanbo WBCA02 is **made of high quality aluminum**, which guarantees its durability and strength. So you can be sure that your projector is safe during any projection. Aluminum also ensures that the design is lightweight, making the adapter easy to install and transport.

Easy to install

Mounting the Wanbo WBCA02 adapter is quick and easy, thanks to its intuitive design and included instructions. The adapter allows you to mount the projector stably and securely, eliminating the risk of it accidentally falling.
