Manufacturer: WANBO

Referention number: DNXGJOKPERMMLL

Information:

Wanbo X5 Pro New is a modern projector with Google TV that combines Full HD 1080p image quality with 1100 ANSI lumens of brightness, HDR10 support and a 3000:1 contrast ratio, delivering a clear, detailed picture even in brighter rooms. ASA3.0 technology automatically adjusts focus, keystone correction and image alignment, making setup quick and hassle-free. Google TV provides access to over 10,000 apps, including popular VOD services, while the built-in Chromecast, 5 GHz Wi-Fi and Bluetooth 5.0 make connectivity easy. Dual HiFi speakers with DSP deliver immersive sound, and quiet operation below 26 dB enhances viewing comfort.

Full product description

Projector with Google TV

Discover the world of home entertainment with the refreshed **Wanbo X5 Pro New** projector. This device combines the high **brightness of 1100 ANSI** lumens with the intelligence of the **Google TV** system, offering access to more than 10,000 apps. Innovative **ASA3.0 technology** takes care of automatic image calibration, so you can enjoy your screening without any unnecessary setup. It's a complete media center in your living room that will turn any evening into a cinematic experience.

Advantages of Wanbo X5 Pro New Projector

- **Clear images in all conditions:** With 1100 ANSI lumens brightness and HDR support, the image is vivid and detailed, even in brighter environments.
- **Automation and convenience:** ASA3.0 technology adjusts the focus and shape of the picture by itself, saving you time and effort.
- **Unlimited entertainment:** The Google TV system offers access to thousands of apps and movies, including Netflix in 1080p quality.
- **Immersive stereo sound:** Dual HiFi speakers with DSP technology create a rich, spacious soundstage.
- **Versatile connectivity:** Dual-band Wi-Fi, Bluetooth 5.0 and built-in Chromecast make it easy to connect any device.
- **Quiet operation:** A sub-26 dB cooling system ensures that nothing disturbs your screening.

A picture full of life

Brightness of **1,100 ANSI lumens** combined with native **1080p FHD** resolution (with **4K** support) and 3000:1 contrast ratio makes every scene crisp and full of detail. **HDR10** technology takes care of a wide range of colors, from deep blacks to brilliant whites. This allows for a realistic image regardless of the time of day. A lamp life of more than **20,000 hours** means years of trouble-free viewing.

Ultra-high 1100 ANSI Day or Night Still Bright

High brightness 1100 ANSI delivers vivid, lifelike picture, exposing every detail from deep blacks to brilliant highlights

A world of entertainment with Google TV

The built-in **Google TV** system opens up access to more than 10,000 apps, including popular streaming services like YouTube, Prime Video and Disney . Importantly, the X5 Pro projector allows you to watch **Netflix in 1080p**. The built-in **Google Assistant** allows for voice control, and support for multiple user accounts makes it easy to personalize content for each member of the family.

Sound that will surround you

The projector is equipped with **dual HiFi speakers with a total output of 10W**. Combined with digital signal processing (DSP) technology and **a large sealed sound chamber**, the audio system creates an immersive, surround sound stage. The sound is clear and dynamic, enhancing the experience when watching action movies or concerts, giving the feeling of being in the center of the action.

Smooth operation and connectivity

The **2GB RAM and 16GB ROM** combined with dual-band **Wi-Fi (2.4GHz/5GHz)** takes care of smooth system operation and fast content loading. **The built-in Chromecast** allows you to seamlessly stream video from your phone or laptop. Numerous ports, including **HDMI 2.0**, 2x USB and audio output, offer ample possibilities for connecting external devices such as game consoles or sound systems.

An elegant interior element

The Wanbo X5 Pro projector is not only an appliance, but also a stylish addition to your home. **The dark blue casing with gold accents** fits in with current interior design trends. The finish of the high-strength crystal panel with metallic texture gives it character and makes it a highlight of any room.

Comfortable movie screenings

The quiet cooling system, which has a noise level of less than **26 dB**, allows you to fully immerse yourself in the movie you are watching without distracting sounds. You can enjoy every whisper and detail of the soundtrack, which is crucial for a truly cinematic experience at home.

The Wanbo X5 Pro New multimedia projector is an excellent choice for:

- Movie lovers who want to create a cinema room with a big screen at home.
- Families looking for a home entertainment center for all household members.
- Those who value convenience, thanks to ASA3.0's automatic image setup.
- Series fans who want to watch Netflix and other VOD services in high definition.
- Users who want to easily stream content from mobile devices.
- Individuals for whom aesthetics and device design matter.
