Full product description

Xiaomi Power Bank - is a powerful device that provides long-lasting power to your devices

With a **massive 30000mAh capacity**, you can charge your smartphone, tablet or laptop multiple times without worrying about running out of power. This power bank also supports **18W fast charging**, which means your devices will be powered up at record speed.

Three output ports for added convenience

With three output ports - **2 USB-A and 1 USB-C**, you can charge several devices simultaneously. This is ideal for people who use several devices on a daily basis, such as a smartphone, tablet or laptop. In addition, the USB-C port also supports bi-directional fast charging, making the power bank not only versatile, but also very convenient to use.

18W fast charging

The Xiaomi Power Bank 30000mAh supports 18W fast charging, allowing you to charge your devices much faster compared to standard power banks. With bi-directional fast charging, both your power bank and connected devices will be charged in less time, which is especially useful when time is of the essence. This is ideal when you need to charge your phone or other device quickly.
