Convenient preparation of meat and vegetables

The Xiaomi fryer allows you to prepare grilled chicken, vegetables, chips, fish, snacks and baked goods without the need to use a large amount of oil. Hot air surrounds the ingredients, so dishes can be crispy on the outside and soft on the inside.

Snacks for gatherings and evenings at home

The 6.5 l model is ideal for an evening film, a get-together with friends or a family dinner. The spacious basket helps prepare a larger portion of chips, wings, nuggets or other snacks without heating up the oven and waiting a long time.

Help with preparing lighter meals

Xiaomi Air Fryer 6.5L White EU helps prepare fish, vegetables and meat dishes in a simple way, so it is well suited to the kitchens of people who want to reduce deep frying. Salmon, asparagus, chicken or potatoes can be prepared conveniently, while retaining an appetising texture.

Large capacity for the family

The 6.5 l capacity makes the fryer well suited to preparing larger portions. You can use it for roast chicken, vegetables, potatoes or ready-made snacks, which helps make meal planning throughout the day more convenient.

White casing to suit the kitchen

The appliance's light, minimalist design blends well with many kitchen styles. The fryer can stand on the worktop and be close at hand when you want to quickly prepare lunch, dinner or a hot snack without using several dishes.

More possibilities than chips

The Xiaomi oil-free fryer offers a wide range of uses in everyday cooking. In addition to classic chips, you can prepare mini pizzas, roasted vegetables, meat, fish, toast and other snacks that work well for shared meals.

Also for sweet bakes
