Full product description

Xiaomi Dust Mite Vacuum Cleaner Pro - an indispensable tool for fighting allergens

The Xiaomi Dust Mite Vacuum Cleaner Pro is the perfect solution for anyone who wants to keep their surroundings spotlessly clean. With advanced technology, this cordless vacuum cleaner not only effectively removes dirt, but also eliminates dust mites and other microscopic particles, providing you with healthier and cleaner air in your home.

Effectiveness against mites

This vacuum cleaner is designed to effectively remove dust mites and fine dust particles from a variety of surfaces such as mattresses, upholstered furniture and carpets. The powerful **400W motor** produces strong suction, making any cleaning quick and efficient.

Quiet operation and comfort

With a noise level of less than 78dB(A), cleaning becomes much less strenuous, even during evening hours. The small weight of the device, **only 2.06 kg**, makes the vacuum cleaner extremely handy and easy to carry. With its help, you can take care of every corner of your home, and its convenient use and ergonomic design will increase your comfort during cleaning.

Wireless freedom and long-lasting performance

Xiaomi Dust Mite Vacuum Cleaner Pro is a **cordless vacuum** cleaner that gives you full freedom of movement without the need for wires. Thanks to the **smart power management** system, you can use the charging time efficiently, and the battery provides long-lasting use without the need for frequent charging. The performance of this device makes it ideal for everyday cleaning.

Advanced filtration technology

Xiaomi Dust Mite Vacuum Cleaner Pro features an advanced filtration system that effectively traps **microscopic dust particles and allergens**. It's ideal for allergy sufferers and anyone who wants to improve the air quality in their environment.
