Product features

Height	1275 mm
Width	569 mm
Depth	1142 mm
Maximum load weight	120 kg
Battery capacity	10.2 Ah
Engine power	350 W
Maximum motor power	700 W
Front tyre size (imperial)	10 "
Rear tyre size (imperial)	10 "
Maximum tilt angle	18 °
Maximum speed	20 km/h
Distance per battery charge (max)	60 km
Battery cell capacity	477 Wh
Product weight	20100 g

Full product description

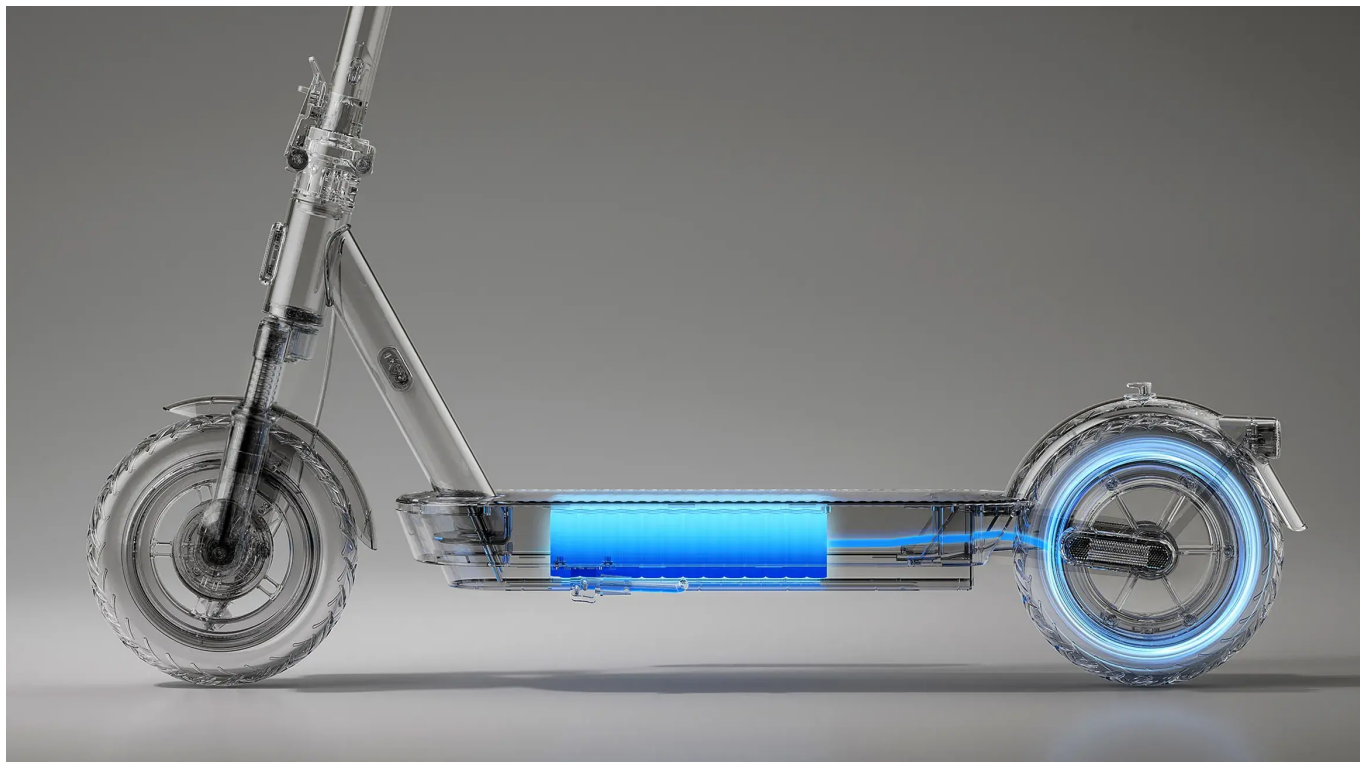

Xiaomi scooter - mobility without compromise

Xiaomi Electric Scooter 5 is an electric scooter that provides a smooth ride and reliable performance. With **its powerful motor and capacious battery**, you can enjoy longer rides on a single charge.

Electric drive - dynamic driving

Xiaomi scooter is equipped with **a 350W motor**, which allows **a maximum speed of 20 km/h**. The maximum power of the motor is **700W**, which allows it to overcome hills with an incline of **up to 18%**. As a result, the ride is smooth and the scooter works well on both flat terrain and uphill climbs.

Range of up to 60 km - greater mobility

With a **477Wh battery capacity**, the Xiaomi electric scooter allows you to travel **up to 60 km on a single charge**. It's a great choice for people who need a reliable vehicle for daily commutes or longer routes. **The charging time is about 9 hours**, which means you can easily charge it overnight.

Safe braking and stable driving

Safety is a priority, so the scooter is equipped with **drum brakes and the E-ABS system** for effective braking. **The 10-inch tubeless tires** improve driving stability and minimize the risk of skidding. This gives you full control of the vehicle regardless of road conditions.

Thoughtful design for user comfort

The cushioning and sturdy handlebars make the ride more comfortable, even on uneven surfaces. The Xiaomi Electric Scooter 5 supports a **maximum load of up to 120 kg**, making it suitable for a variety of users. The built-in display allows you to track the most important parameters of your ride in real time.
