Product features

Height	1272 mm
Battery recharge time	9 h
Depth	1194 mm
Maximum load weight	120 kg
Storage temperature (T-T)	-20 - 45 °C
Battery capacity	10.2 Ah
Engine power	400 W
Rechargeable battery	Yes
Maximum motor power	1000 W
IFU / User manual	Yes
Protection features	Water resistant
Operating temperature (T-T)	-10 - 40 °C
Recommended height (min)	1.2 m
Recommended height (max)	2 m
Power protection features	Over current
Front brake system	Drum
Rear brake system	Electric brake
Folded height	583 mm
Folded depth	1194 mm
International Protection (IP) code	IPX5
Front tyre size (imperial)	10 "
Rear tyre size (imperial)	10 "

Maximum tilt angle	22 °
Bluetooth	Yes
Maximum speed	20 km/h
Seat included	No
Traction Control System (TCS)	Yes
Battery charger included	Yes
Rear suspension	Yes
Front suspension	Yes
Product colour	Black
Recommended gender	Any gender
Foldable	Yes
Distance per battery charge (max)	60 km
Built-in display	Yes
Type	Classic scooter
Battery cell capacity	477 Wh
Product weight	22300 g

Full product description

Xiaomi Electric Scooter 5 Max EU - comfort and performance in urban style

Xiaomi Electric **Scooter 5 Max** is a great choice for those who appreciate convenience, time saving and modern technology. With **a range of up to 60 km and a top speed of 20 km/h**, you can move efficiently without worrying about frequent battery charging.

Smooth ride on any surface

The Xiaomi scooter is equipped with **10-inch tubeless tires**, which perfectly dampen bumps and improve comfort. **The cushioning and firm suspension** make taking urban routes smoother, even on more demanding surfaces. This solution increases stability, which any user will appreciate.

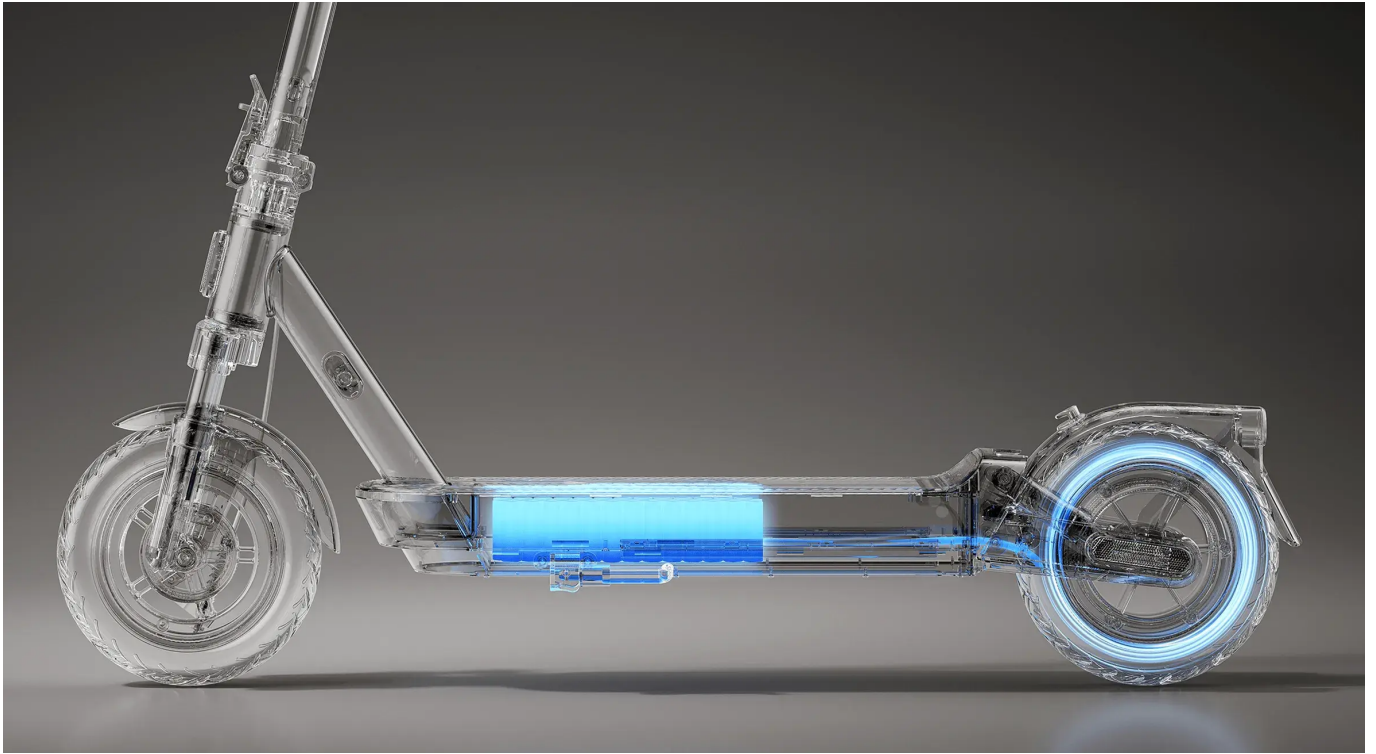

Powerful engine - efficiency in all conditions

The **Xiaomi Electric Scooter 5 Max** has a **motor power of 400W**, which allows for smooth starts and a dynamic ride. **The maximum motor power is 1000W**, which gives an extra reserve for more difficult routes, including uphill **climbs with a gradient of up to 22%**. Thanks to this, the scooter will prove itself not only in the city, but also on more demanding routes.

Long range and capacious battery

With a **10.2Ah/477Wh battery**, the Xiaomi scooter can travel up to **60 km on a single charge**. **The charging time is about 9 hours**, allowing the battery to be charged overnight and ready for the next day. It's a solution for people who want more freedom to use an electric vehicle.

Safe braking and robust design

The **Xiaomi Electric Scooter 5 Max** is equipped with **drum brakes and the E-ABS system** for effective braking. **The maximum load of the scooter is 120 kg**, which makes it suitable for both younger and older users. As an added bonus, the scooter is **IPX5 waterproof**, which protects the scooter from moisture and splashes.
