Manufacturer: XIAOMI

Referention number: DNXXHINKJRMJL

Product features

Height	1271 mm
Width	586 mm
Depth	1192 mm
Maximum load weight	120 kg
Display technology	LED
Battery capacity	10.2 Ah
Engine power	400 W
Rechargeable battery	Yes
Maximum motor power	1000 W
Displayed parameters	Battery status
Power protection features	Over current
Front brake system	Drum
Rear brake system	Electric brake
Water-resistant	Yes
International Protection (IP) code	IPX5
Front tyre size (imperial)	10 "
Rear tyre size (imperial)	10 "
Maximum tilt angle	22 °
Bluetooth	Yes
Mobile operating systems supported	Android
Maximum speed	20 km/h
Seat included	No

Traction Control System (TCS)	Yes
Battery charger included	Yes
Rear suspension	Yes
Front suspension	Yes
Product colour	Black
Recommended gender	Any gender
Foldable	Yes
Distance per battery charge (max)	60 km
Built-in display	Yes
Type	Classic scooter
Battery cell capacity	477 Wh
Product weight	22400 g

Full product description

Xiaomi scooter - mobility and performance

Xiaomi Electric Scooter 5 Pro is an electric vehicle designed for users looking for a smooth ride, power and comfort. With its **capacious battery, sturdy design and intuitive operation**, it will work well for both short distances and longer routes.

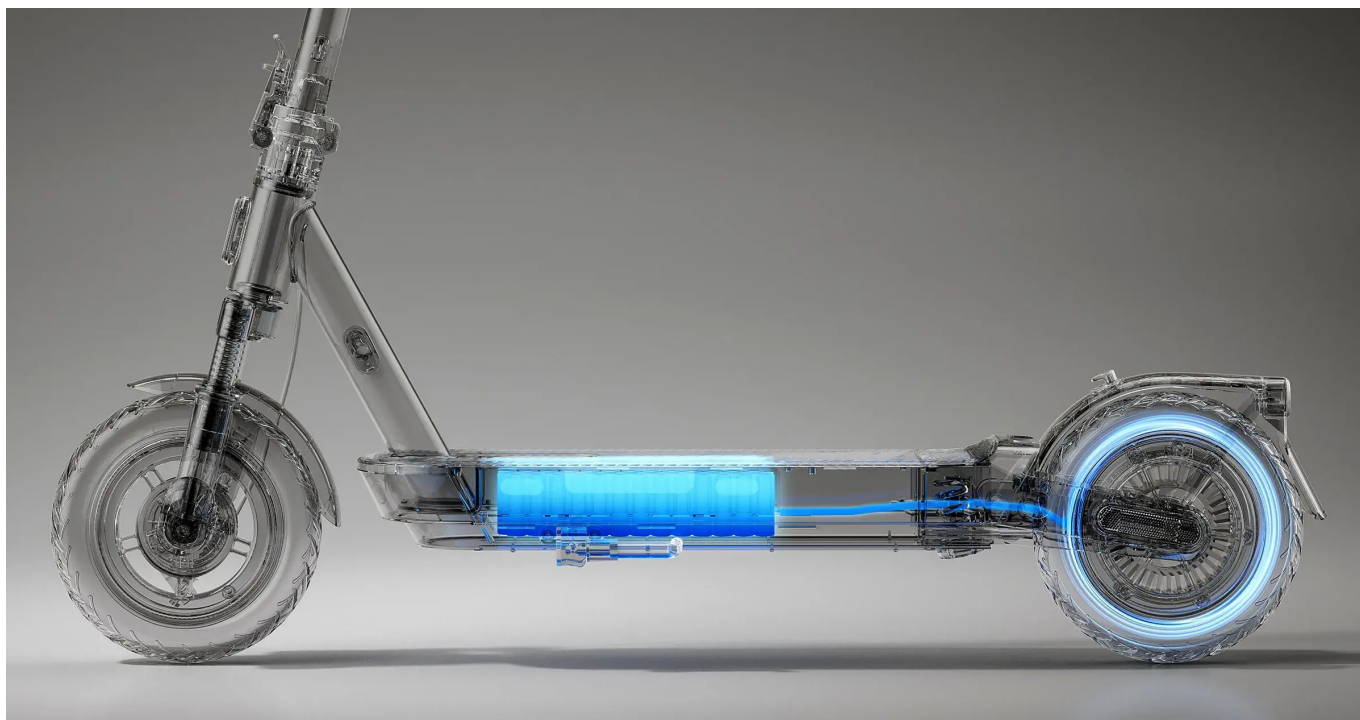

Powerful engine for dynamic driving

The Xiaomi scooter is equipped with a **400W motor**, which allows it to reach a **top speed of 20 km/h**. The maximum **power of the motor is 1000W**, which allows you to overcome hills with **an incline of up to 22%**. As a result, the Xiaomi electric scooter performs well on various surfaces, providing a smooth ride.

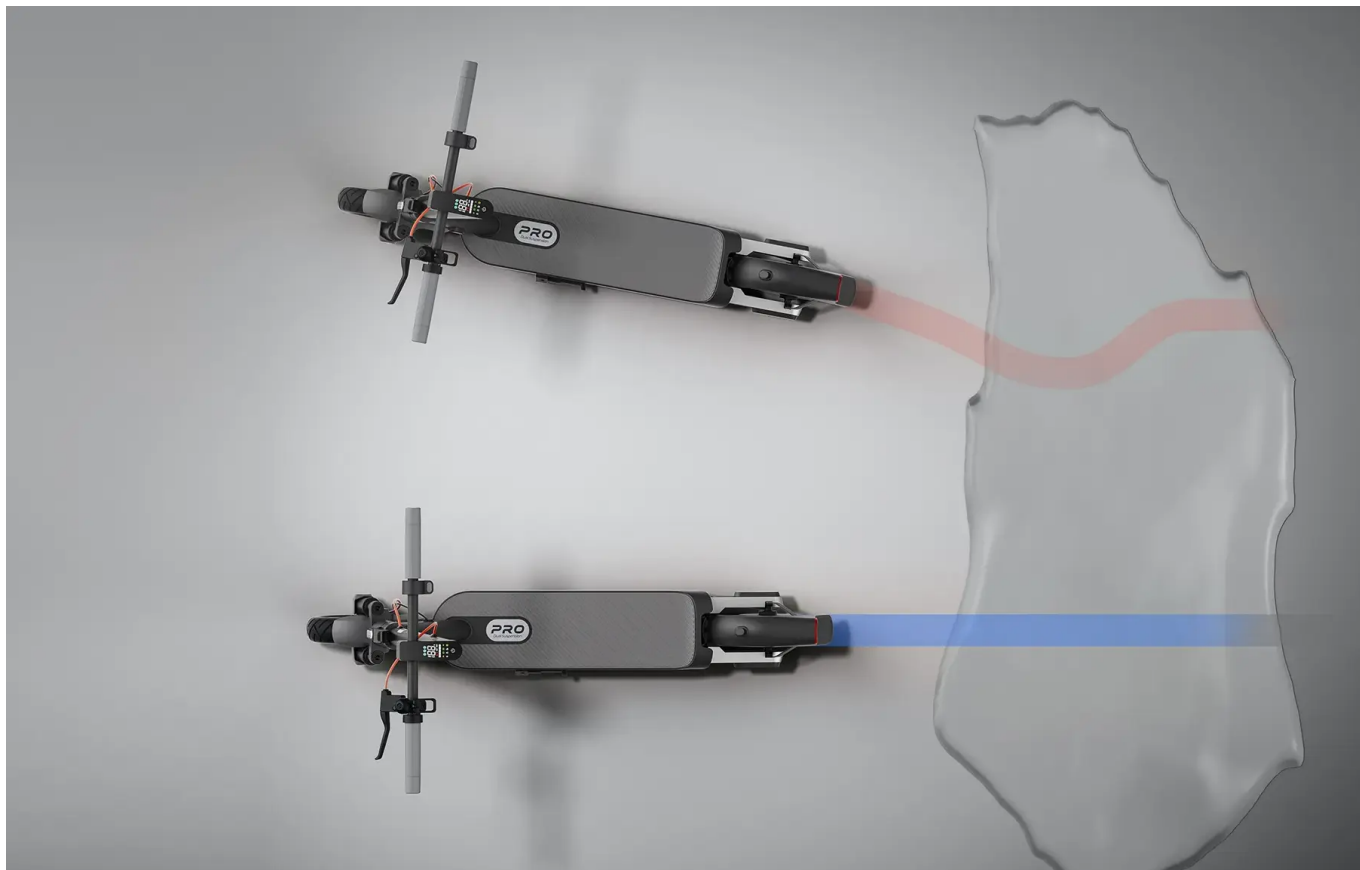

Long range and powerful battery

With a **477Wh** battery, the Xiaomi Electric Scooter 5 Pro can travel **up to 60 km on a single charge**. This is great for people who use the scooter on a daily basis and don't want to charge it often. **The charging time is about 9 hours**, which means that you only need to plug the scooter in overnight to be ready to go in the morning.

Safety and stability while driving

The Xiaomi scooter is equipped with **drum brakes and the E-ABS system**, allowing for effective braking in a variety of conditions. **The 10-inch tubeless tires** improve grip and stability, resulting in greater control over the vehicle. **Dual shock absorption** reduces shocks, making the ride more comfortable even on rough terrain.

Modern display and intuitive operation

The **Xiaomi Electric Scooter 5 Pro** is equipped with an **easy-to-read LED display** that indicates battery status, speed and riding mode. Intuitive controls and an ergonomic steering wheel ensure comfortable use. **LED lighting** and turn signals increase visibility on the road, which improves safety when riding at night.
