Full product description

Xiaomi Gaming Monitor G24i EU - Speed and image quality at the highest level

The Xiaomi Gaming Monitor G24i EU is a state-of-the-art solution designed with gamers in mind, offering 180Hz refresh rate and FreeSync technology to ensure smooth and distortion-free gaming. With Full HD resolution and IPS matrix, this monitor provides wide viewing angles and vivid colors, ideal for gaming, watching movies and working.

180Hz refresh rate and FreeSync technology for smooth images

The Xiaomi G24i monitor offers an incredible **180Hz refresh rate**, which allows it to display extremely smooth and dynamic scenes. Thanks to **FreeSync technology**, the monitor eliminates stuttering and tearing, making gameplay smoother and more comfortable. It's the perfect solution for gamers who want the highest image quality and smoothness in their favorite titles.

IPS matrix and wide viewing angles

Thanks to its **IPS matrix**, the Xiaomi Gaming G24i monitor provides **wide viewing angles** (178°/178°), which means that the image remains clear and colorful regardless of the viewing angle. The IPS matrix also guarantees accurate color reproduction and better contrast, making it

ideal for multimedia work and movie watching.

Low response time and VESA support

The Xiaomi Gaming G24i monitor has a **response time of 1ms**, eliminating lag in dynamic games. Combined with the ability to be wall-mounted using the **VESA 75x75mm** standard, this monitor is not only functional, but also versatile - ideal for placement anywhere, whether in the office or in a gaming room.
