Type	Convector electric space heater
Product weight	5700 g

Full product description

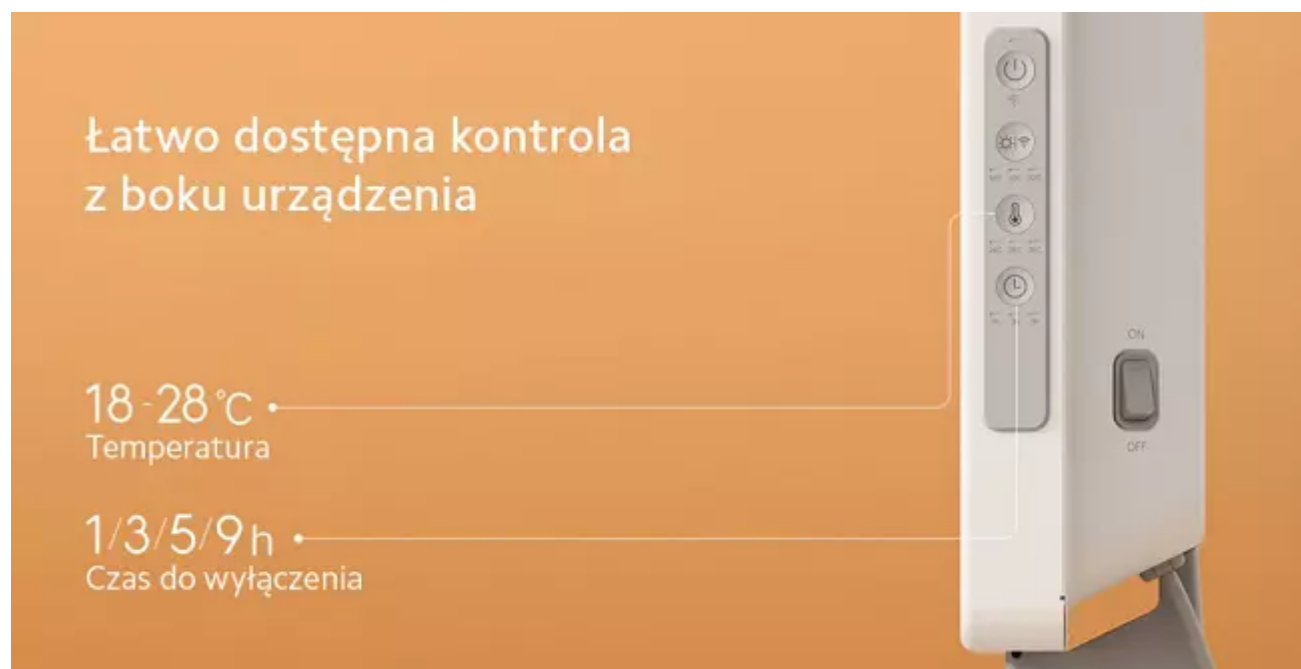

Electric heater - Xiaomi Mi Smart Space Heater S

If you are fed up with the cold at home and it seems that there is no way to warm up the room - the new **Xiaomi Mi Smart Space Heater S** electric heater has come to your rescue. The power of the device reaches **2200 W**, you can instantly heat a small room (**up to 46 m²**). You can also control it with your smartphone. You don't have to worry about the noise, because it has no fan, so it is very quiet, and it evenly distributes heat throughout the room.

Selectable temperature level

Your new **Xiaomi Mi Smart Space Heater S** electric heater offers you a choice of 6 temperature levels: 18, 20, 22, 24, 26 and 28 °C. A precise digital thermostat will help your **Xiaomi Mi Smart Space Heater S** maintain the temperature at the level you choose.

Design and finishing

Like all Xiaomi products, the **Xiaomi Mi Smart Space Heater S** electric heater **has a striking design** with rounded edges and non-slip feet to avoid accidents. It is also easy to transport thanks to its light weight of 5.7 kg and handle. If you want to use the Xiaomi Mi Smart Space Heater S electric heater in the bathroom, don't worry. **This electric heater has an IPX4 waterproof certification.**

Intelligent electric heater

Xiaomi Mi Smart Space Heater S, besides heating your home, is smart, meaning **you can control it from any smartphone** using the Mi Home app over WiFi. Similarly, **you can control this Xiaomi heater with your voice** thanks to the fact that it is compatible with Google Assistant or Amazon's Alexa. And if someone prefers traditional solutions, you **can control it with buttons**.
