Price: **399.00 zł** gross / 324.39 zł net

Manufacturer: XIAOMI

Referention number: DNXXGGIQSKRMNIK

Product features

Height	1000 mm
Duct type	20 m ³ /h
Width	343 mm
Depth	330 mm
Power consumption (typical)	15 W
IFU / User manual	Yes
Number of speeds	4
Noise level	58 decibel
Fan diameter	343 mm
Placement	Floor
Control type	Wireless
AC input frequency	50 Hz
AC input voltage	100 V
Power source type	DC
Product colour	White
Vertical auto rotation	Yes
Number of oscillation angles	2
Auto oscillating	Yes
Type	Household blade fan
Product weight	3000 g

Full product description

7 5 blades - the secret to smoother breezes

Mi Smart Standing Fan 2 's two layers of fan blades rotate simultaneously, increasing airflow for more efficient cooling. With a longer reach, the dual blades also provide a softer, three-dimensional breeze.

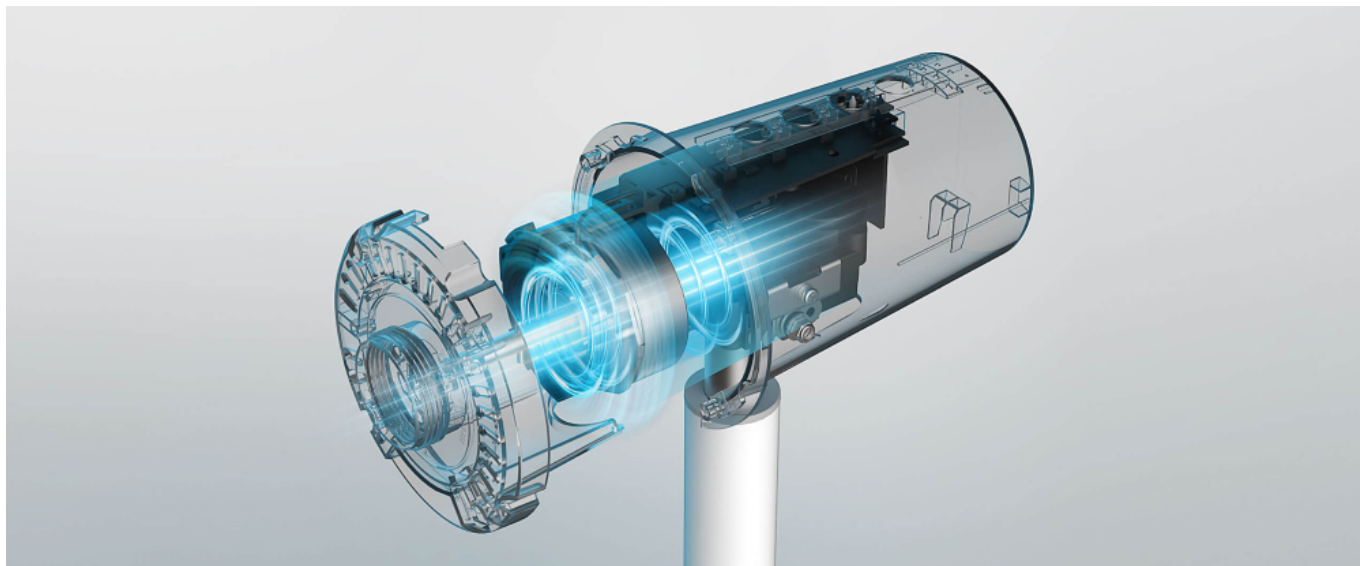

Precise speed settings

Switch between natural wind and direct blow. Set the fan speed from 1 to 100 in the **Mi Home** app to get the desired airflow.

Only 1kWh for the whole summer

The fan uses a copper wire DC motor, which has higher operating efficiency and longer life than an aluminum wire motor. It provides a constant speed for more stable ventilation and less energy consumption. Its blades produce a maximum airflow of **20 m³/min**.

Ideal for any room

Press a single button to easily adjust the height of the stand. Place it on a table or on the floor.

Ultra-wide ventilation angle

Adjustable wide angle ventilation with a maximum range of 14m to provide room cooling for the whole family. **Horizontal rotation is 140° and 39° tilt up and down.**

Keeping the room cool and quiet

With a smooth-running brushless DC motor and two blades, the fan has been optimized to provide exceptionally quiet operation without interference.

Every detail has been rigorously tested

- Horizontal rotation - 5000
- tilt adjustment up and down - 1000
- Power button usage - 10000
- Function key usage - 10000
