Price: **65.01 zł** gross / 52.85 zł net

Manufacturer: XIAOMI

Referention number: DNXXGLNMFRMMIO

Product features

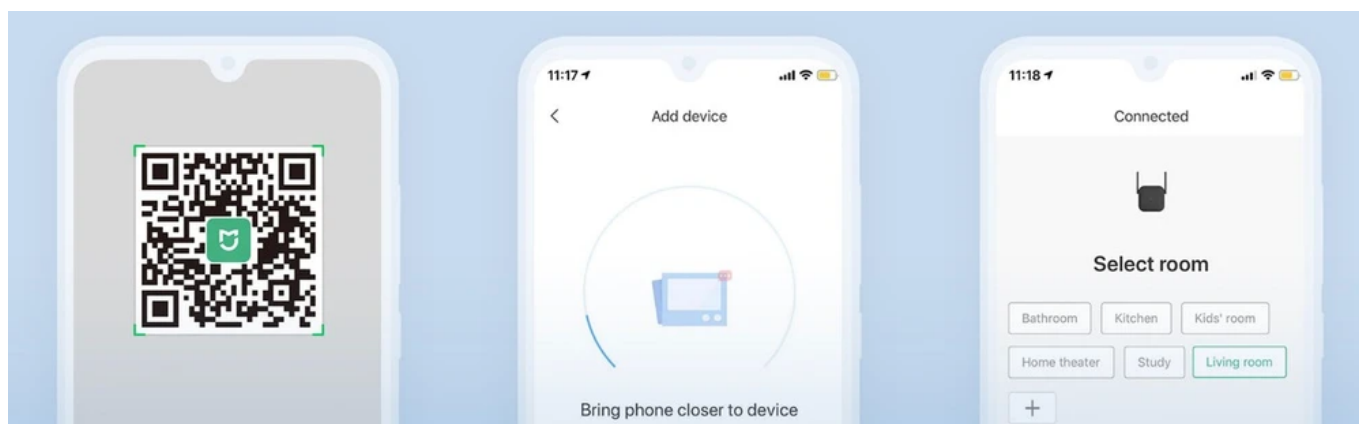

Storage relative humidity (H-H)	5 - 90%
Height	70 mm
Antenna type	External
Modulation	PSK
Width	80 mm
Depth	54 mm
Input current	0.35 A
Storage temperature (T-T)	-40 - 70 °C
Power consumption (typical)	3.57 W
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
Networking standards	IEEE 802.11b
Flash memory	2 MB
Wi-Fi data rate (max)	300 Mbit/s
Operating temperature (T-T)	0 - 40 °C
Internal memory	8 MB
Wi-Fi band	Single-band (2.4 GHz)
Wi-Fi standards	802.11b
Wi-Fi	Yes
AC input voltage	100 V
Antennas quantity	2
Product colour	Black

Mounting hardware type	Wall
Watch case material	Plastic
Type	Network repeater

Full product description

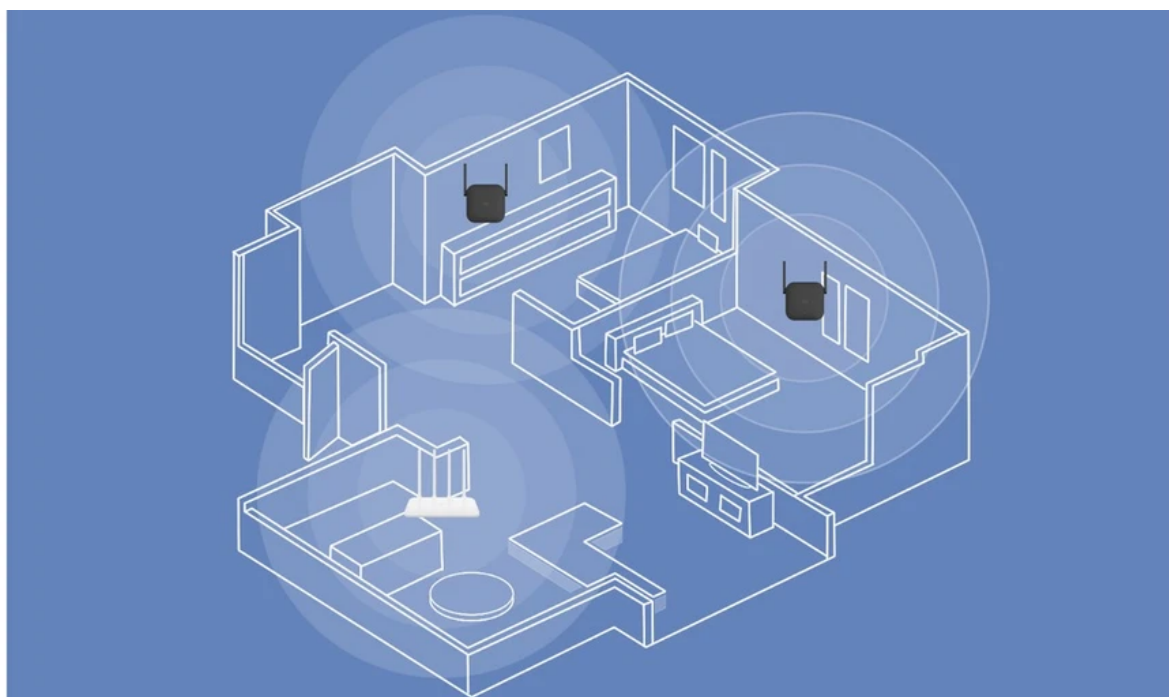

Easily expand WiFi signal

Xiaomi Mi WiFi Range Extender will help you easily extend your network signal range. Place the device near your router, turn on the power and wait for the yellow indicator light to flash. **Scan the QR code** to install the app and follow the instructions to add the device. When the indicator turns blue, pairing is complete. Now you can simply unplug and plug in the **WiFi Repeater** in a location that provides the best WiFi signal quality and coverage in your home, without having to reconfigure the device.

Expand your wireless network

The **Mi Wi-Fi Range Extender Pro** wirelessly connects to your router, amplifying and extending WiFi signal strength to every corner of your home - even to those hard-to-reach places such as bathrooms, balconies and bedrooms. This provides increased range of reliable and high-speed Internet for devices such as notebooks, tablets, smartphones, game consoles and smart TVs.

2x2 external antenna, 300Mbps WiFi

Add a **Xiaomi signal booster** to dramatically speed up gaming and movie watching. The **Mi Wi-Fi Range Extender Pro** Signal Booster now comes with a **2x2 external antenna** that maintains **300Mbps** WiFi transmission speed while increasing signal stability.

Support for up to 16 devices connected simultaneously

When connected to your existing router, you'll always get a reliable connection wherever you're watching TV, catching up on the latest series or sharing happy memories with your kids via video chat.

Download the Mi Home app and find the best location

To get the best WiFi signal, the **Mi WiFi Repeater Pro** must be placed somewhere between the router and the dead zone and have a strong and stable signal from the router - this can be checked using the **Mi Home** app.
