Full product description

Electric scooter Xiaomi Mi Essential Lite

The biggest improvement of the **Essential Lite** scooters compared to their predecessors is the addition of a visual interactive dashboard that supports self-testing of the vehicle's condition right after it is turned on, and the "repair" icon will light up automatically if the system detects a fault. The Essential Lite electric scooter has a compact and lightweight design, which is made of aircraft aluminium alloy, **the weight of the whole vehicle is only 12.5 kg** and the total payload is up to 100 kg, and a unique folding system allows the scooter to be assembled in 3 seconds.

Display on the handlebar

Thanks to the **built-in display** directly on the handlebar, you always have an up-to-date overview of your scooter's status. Mi Electric Scooter Essential can be connected to the Mi Home application via Bluetooth. The application enables software updates, access to the display - which allows you to set the cruise control to **save energy** and more. The color display has indicators of current speed, 3 speed modes, remaining range, light, Bluetooth, lock, repair system.

Long-range battery

The device is equipped with a **double braking system**, which regenerates the battery during braking. The system monitors the battery and protects it from defects such as: short circuit, overload, discharge - ensuring that the battery remains in a perfectly safe condition and has a longer life. The battery itself has a **capacity of 5100 mAh** and offers a range of up to 20 km on one charge.

A great travel companion

The electric scooter is equipped with a very bright 2W light for night-time safety and a red rear light **for safe braking**.

Reliable braking system

The Essential Lite scooter is equipped with an E-ABS anti-lock system for the front wheel and a large disc brake for the rear wheel. Both brakes are actuated simultaneously, which significantly reduces braking distance and increases driving safety. **Mi Electric Scooter Essential has 8.5" anti-slip tyres.**
