Price: **749.00 zł** gross / 608.94 zł net

Manufacturer: XIAOMI

Referention number: DNxGJONSLRMNJ

Information:

Mijia Smart Air Purifier 6 is an advanced home air purifier that combines precise monitoring with effective filtration. Five sensors (PM1, PM2.5, dust, temperature, humidity) continuously monitor air quality, while the 5-layer filtration system with HEPA, activated carbon, UV lamp and negative ions removes dust, pollen, smoke, allergens, bacteria, viruses and formaldehyde. UVC sterilisation improves hygienic operation, and the high CADR of 443 m³/h ensures rapid refreshing of rooms with an area of 29-50 m². The device operates quietly, supports night mode, works with the Xiaomi Home app and voice control, and its convenient design makes operation and filter replacement easy.

Product features

Height	555 mm
Filtering capability	Allergens
Anti-allergy filter	Yes
Width	250 mm
Depth	250 mm
Apps functions	Remote start
Filters out dust/pollen	99.98
Works with the Google Assistant	Yes
Power consumption (max)	40 W
Noise level (night mode)	32 decibel
Night mode	Yes
Suitable for room area up to	50 m2
Smartphone/tablet remote support	Yes
Voice control	Yes
Works with Amazon Alexa	Yes

Particle filtration	0.3 um
Connectable to internet	Yes
Air particle sensor	Yes
HEPA filter	Yes
PM2.5 sensor	Yes
Placement	Floor
Control type	Remote
Removable filter	Yes
Product colour	White
Air purify rate	443 m³/h
Particle filter	Yes
Anti-bacterial filter	Yes
Built-in display	Yes
Product weight	5200 g

Full product description

Full Air Quality Control

Mijia Smart Air Purifier 6 is an advanced device designed for air purification in the home. Equipped with a **five-sensor system** (PM1, PM2.5, dust, temperature, humidity), **UVC sterilisation**, and a colour LCD display, these features together make monitoring and improving air quality simple. The device offers **5-layer filtration** and a high CADR rate, contributing to the rapid removal of allergens, bacteria, and unpleasant odours, while also ensuring quiet operation during sleep.

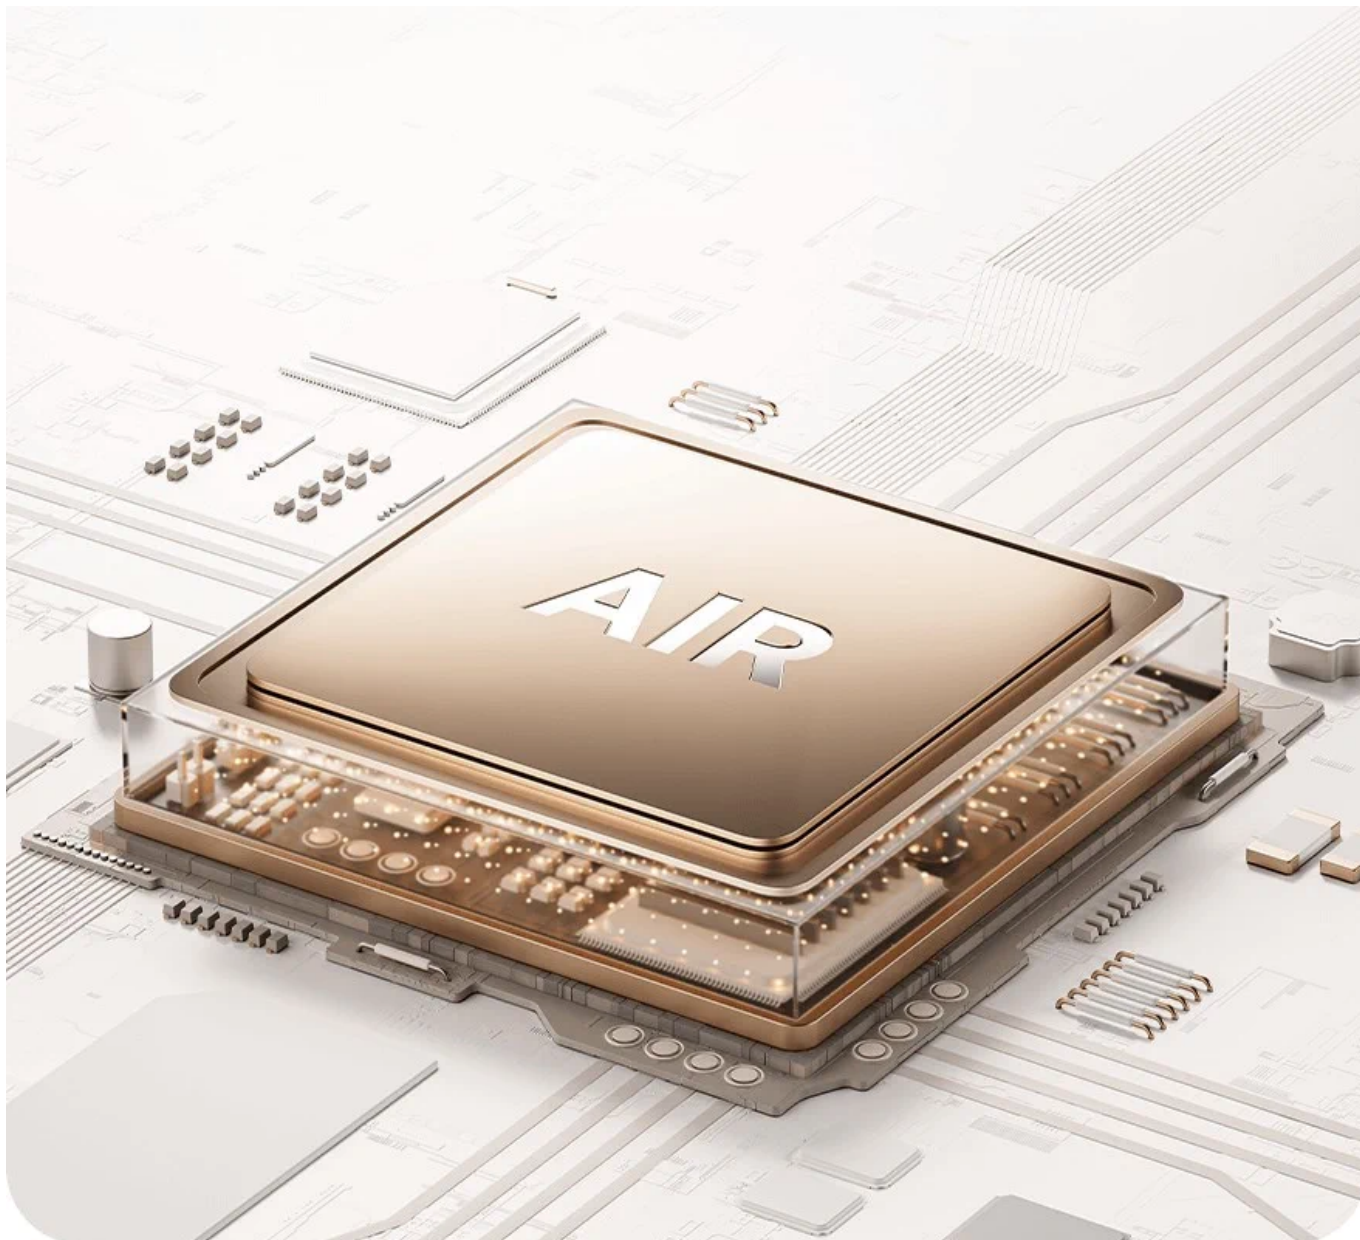

Key Advantages

- **Five sensors** - precise real-time monitoring of air quality.
- **5-layer filtration** - effective removal of pollen, dust, smoke, and fine particles.
- **UVC sterilisation** - reduction of bacteria and viruses during operation.
- **High CADR 443 m³/h** - quick air refreshment in the room.
- **Smart control** - compatibility with the Xiaomi Home app and voice control.
- **Quiet design** - designed for night-time use and comfort.

Advanced Sensors

The device uses a set of sensors: **PM1**, **PM2.5**, dust sensor, temperature, and humidity. This allows you to continuously monitor fine particles that can penetrate deep into the respiratory tract. The PM1 sensor enables the detection of very small pollutants, contributing to better monitoring of health risks for household members.

Multi-layer Filtration

The system consists of a main filter, **high-efficiency Xiaomi filter**, **column activated carbon**, and a UV lamp and negative ion system. The HEPA filter removes **99.98%** of particles sized $0.3\text{ }\mu\text{m}$, and the activated carbon helps reduce formaldehyde and TVOC, making the air noticeably fresher even after renovation.

Effectiveness in Eliminating Pollutants

Laboratory tests indicate high efficiency: **99.99%** reduction of PM10 and H1N1 virus within 1 hour, **99.9%** for selected bacteria, and **98%** removal of formaldehyde. These parameters help maintain a healthier environment, especially for allergy sufferers and families with small children.

Technical Data and Range

The model offers **CADR 443 m³/h** for particles and **CADR 218 m³/h** for formaldehyde. The effective operating area is **29-50 m²**, and at 2 ACPH it can handle up to **87.5 m²**. In a typical room of 10 m², the air can be refreshed in about **3.5 minutes**, making it easy to quickly improve indoor comfort.

Ease of Use and Operation

The device works with the **Xiaomi Home** app, supports voice control, and allows remote monitoring of air quality and filter status. The design with a **removable top cover** and magnetic doors makes maintenance easy. The recommended filter lifespan is about **12 months**, contributing to convenient annual use without frequent replacements.

Specification

Parameter	Details
Product Name	Mijia Smart Air Purifier 6
Product Model	AC-M25-SC
Product Dimensions	250 × 250 × 555 mm
Net Weight	Approx. 5.2 kg
Noise in Sleep Mode	32 dB(A)
Rated Power	40 W
Rated Voltage	200-240 V
Rated Frequency	50/60 Hz

Parameter	Details
Package Contents	Air purifier x1, Filter x1, Power cord x1, User manual x1
