## Full product description

### Discover amazing image quality and performance with Xiaomi Monitor A27i

This 27-inch IPS monitor with a high refresh rate of 100Hz is ideal for work and entertainment. With narrow bezels on three sides, excellent Full HD resolution and wide viewing angles, every detail on the screen will look clear and vivid.

### Eye protection and comfort

The monitor features low blue light technology and DC dimming to reduce screen flicker, protecting the user's eyes during prolonged work. TUV certification confirms that the screen meets the highest standards for eye protection. In addition, the unique design with narrow bezels on three sides significantly improves viewing angles and provides greater comfort at work.

## High refresh rate of 100Hz

The Xiaomi A27i monitor offers a refresh rate of 100Hz, which ensures **smooth display** even during dynamic scenes. This is perfect for both gamers and people working with graphics. Thanks to the fast and stable connection, the image is clear, without blurring or flickering.

## IPS screen and wide viewing angles

[IPS technology](#) provides wide 178° viewing angles both vertically and horizontally, allowing you to enjoy excellent image quality from anywhere in front of the monitor. Thanks to high coverage of the sRGB color gamut (99%), images are vivid and more natural. Ideal for working with graphics, watching movies or browsing the web and tables.
