Price: **229.00 zł** gross / 186.18 zł net

Manufacturer: XIAOMI

Referention number: DNXGGMLRIRMMON

Information:

Xiaomi Outdoor Camera CW300 is a 2.5K outdoor surveillance camera with a 4 MP sensor and a bright f/1.6 lens, delivering highly detailed images even when zoomed in. Thanks to 4 LED lights, it offers full-colour night mode, and when a person is detected it automatically switches on white light. The dual-motor pan-tilt system allows remote rotation and tilting of the camera to cover a larger area. The IP66 rating guarantees resistance to water and dust, while local AI quickly detects people and sends alerts to the Mi Home/Xiaomi Home app. In addition, the camera features an audible and visual alarm, AES-128 encryption, an MJA1 security chip, and easy installation in various configurations.

Product features

Height	168 mm
Antenna type	Internal
Width	100 mm
Depth	123 mm
Connectivity technology	Wired & Wireless
Maximum resolution	2560 pixels
Mounting kit	Yes
Built-in siren	Yes
Remotely operated	Yes
Audio system	2-way
Infra-red wavelength	850
Night mode	Yes
Networking standards	IEEE 802.11b
Ethernet LAN (RJ-45) ports	1
Number of cameras	1

Smartphone/tablet remote support	Yes
Number of lenses	1
IFU / User manual	Yes
DC-in jack	Yes
Built-in light	Yes
Operating temperature (T-T)	-30 - 60 °C
LED type	IR/White
Maximum aperture number	1.6
Number of illumination LEDs	4
PTZ control	Yes
Memory card included	No
Cloud-managed	Yes
Screws included	Yes
Card reader integrated	Yes
Total megapixels	4 MP
Maximum memory card size	256 GB
Compatible memory cards	MicroSD (TransFlash)
International Protection (IP) code	IP66
Wi-Fi standards	802.11b
Wi-Fi	Yes
Bluetooth	No
Ethernet LAN	Yes
Built-in speaker(s)	Yes
Built-in HDD	No
Zoom capability	Yes
Power source type	DC
Drilling template included	Yes
Camera tilt control	Yes
Camera pan control	Yes
Product colour	White
Mounting hardware type	Ceiling
Type	IP security camera
Designation	Indoor & outdoor

Full product description

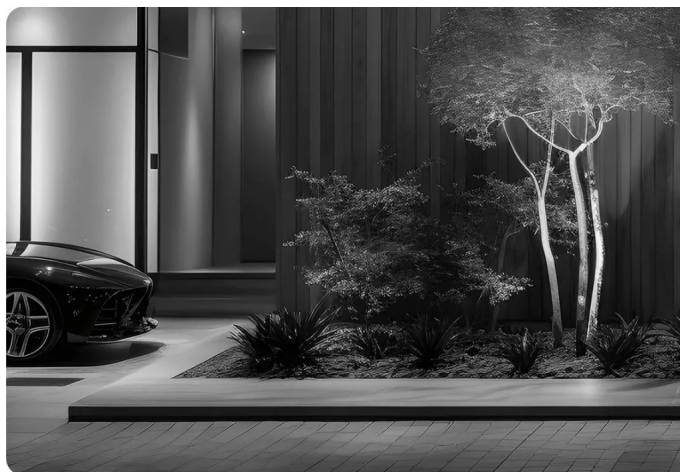

Ultra-Clear Image Quality

The **Xiaomi Outdoor Camera CW300** offers **2.5K** image quality, thanks to **its 4MP** camera and large aperture f/1.6 lens. This provides extremely detailed and clear images that allow you to see even the smallest details when zoomed in.

Intelligent Night Vision

The camera is equipped with **4 LEDs** for full-color night vision. When the camera detects the presence of a person, it automatically turns on the white light, allowing for color images in dark conditions.

Panorama and Tilt for Better Visibility

The camera is equipped with a **dual-motor pan-tilt zoom system** that allows you to rotate the lens in any direction using your smartphone. This solution provides a larger viewing angle and more flexible and secure protection. You can monitor a larger area and adjust the viewing angle to your needs, giving you greater peace of mind.

Resistance to Atmospheric Conditions

Professional **IP66-certified** design makes the camera **water and dust resistant**. This guarantees stable operation even in harsh weather conditions, so the camera works reliably all year round.

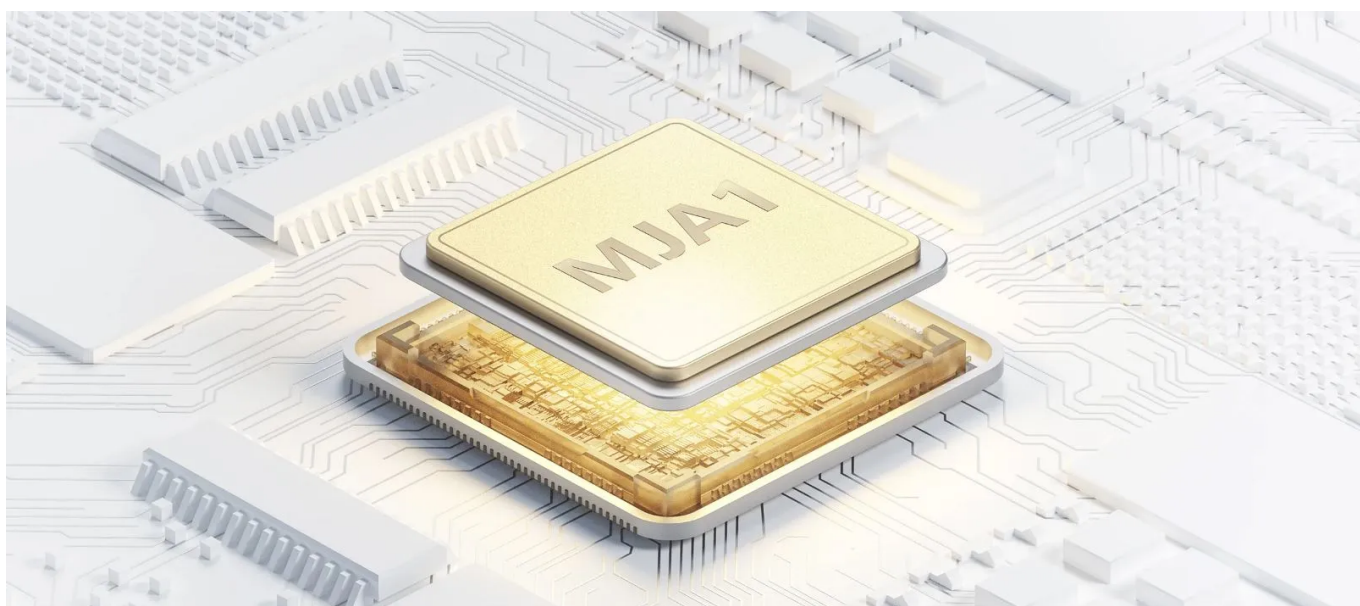

Advanced Detection and Alarms

The **Xiaomi Outdoor Camera CW300** uses a **local AI** algorithm to detect people more accurately and quickly. The camera automatically records video alerts and sends notifications to your smartphone. When it detects motion, it turns on a beep and flashing lights to scare off intruders and simultaneously sends an alert to the **Mi Home/Xiaomi Home** app.

Security at the Highest Level

Each built-in **MJA1 security chip** is equipped with a unique key and credential, effectively **protecting data communications and user privacy** at a level comparable to financial security. The camera supports **AES-128** encryption and offers configurable sleep times, as well as flexible mounting options: ceiling, side and pole.

Easy Installation and Operation

Installing the **Xiaomi Outdoor Camera CW300** is easy with the mounting pattern. All you need to do is follow the instructions: mark the installation location, make holes, attach the mounting bracket, screw in the camera and secure it with waterproof tape. The camera also offers **H.265** encoding technology, which saves disk space and bandwidth for smooth video playback.
