Full product description

Safe and comfortable play space

Our double-sided educational mat is the perfect solution for parents looking for a safe and comfortable place for their child to play. Made of high quality XPE foam and measuring 150x200x1 cm, it provides adequate cushioning and softness, making it perfect for everyday use. Its design guarantees durability and safety, and the included bag makes it easy to carry, making it a convenient choice for both home and travel.

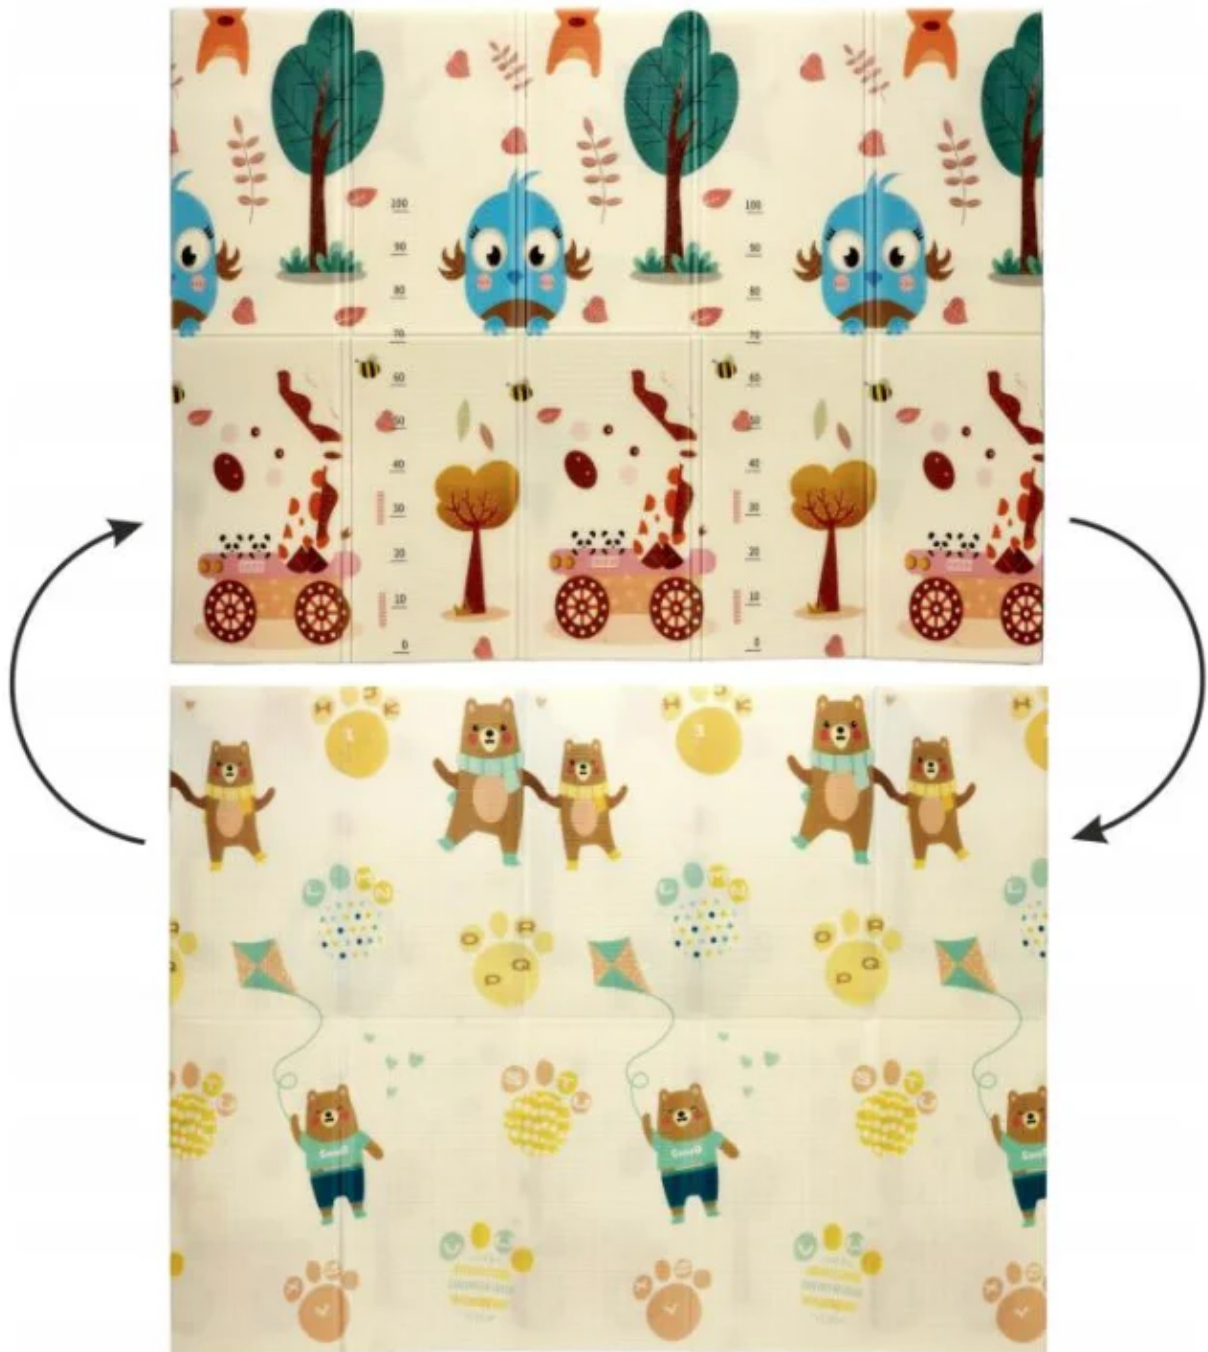

Functionality and storage convenience

The educational mat is foldable, which allows you to store and transport it easily. This will save space and make storing it convenient even in smaller spaces. In addition, the mat can be easily packed into the bag that is included, making it ideal for trips or for storage at home when not in use.

Stimulation of child development

The colorful patterns and varied textures of the educational mat are designed to stimulate the baby's senses and support his development. The variation of patterns on both sides of the mat keeps the toddler's interest, offering new stimuli at any time. The toys and other elements on the mat help the baby learn to explore the surrounding world, which supports cognitive and motor development.

Easy to clean

One of the many advantages of our educational mat is its ease of cleaning. Simply wipe it with a damp cloth to keep it clean and ready for the next game. Thanks to the use of materials that do not absorb dirt, the mat will always look like new, even after heavy use. This is an ideal option for parents who appreciate convenience and practicality in everyday use.
