Price: **219.00 zł** gross / 178.05 zł net

Manufacturer: XIAOMI

Referention number: DNXXGKPPLRMNHK

Product features

Power source	Battery
Height	123 mm
Width	45.8 mm
Depth	75.5 mm
Backlight display	Yes
Hose included	Yes
Removable battery	No
Noise level	80 decibel
On/off switch	Yes
Built-in spotlight	Yes
Suitable for	Universal
Product colour	Black
Auto power off	Yes
Built-in display	Yes
Maximum pressure	10.3 bar
Product weight	490 g

Full product description

Faster Pumping, Higher Performance

The Xiaomi Portable Electric Air Compressor 2 is a **new generation of** inflator that provides **faster tire inflation** thanks to an optimized internal structure and a powerful magnetic motor. Compared to the Xiaomi Portable Electric Air Compressor 1S, this inflator features **a 25% increase** in inflation **speed**, meaning it now takes just 8 minutes to inflate an empty tire.

Precise and Safe Pumping

With **digital pressure sensing** and the ability to pump **up to 150 psi**, the Xiaomi Portable Electric Air Compressor 2 guarantees **accurate and safe pumping**. Simply set the required air pressure or select one of six pre-programmed pumping modes, and the device will automatically stop operation when the set pressure level is reached, eliminating the need for supervision.

Excellent Performance and Energy Efficiency

The optimized hardware ensures that when fully charged, **the inflator can inflate up to 10 tires** or fully inflate two empty tires. The high-precision 19mm diameter cylinder block allows for pressures up to 150 psi, and it takes only 86 seconds to inflate a high-pressure bicycle tire.

Easy Operation and Versatility

Thanks to the **new quick-connect air valve adapter**, installation of the valve is quick and hassle-free. The pump is equipped with a **built-in 2000 mAh lithium-ion rechargeable battery**, allowing you to use it anywhere, anytime, without the need for an external power source. A **universal USB Type-C charging** port provides easy and convenient charging, and the compact and lightweight design makes the pump easy to carry and store.

Comfort and Practicality

The Xiaomi Portable Electric Air Compressor 2 weighs only about 490g, making it **extremely lightweight and easy to carry**. You can put it in your backpack, place it in your car or store it at home. A **built-in light source** increases brightness, which is especially useful when pumping at night. In addition, the pump has a comprehensive **battery level display** that tells you the status of the battery.

Innovative and versatile device

Xiaomi Portable Electric Air Compressor 2 is an innovative and versatile device that **provides faster and efficient tire inflation**. With accurate pressure sensing, high performance, easy operation and portability, it is ideal for anyone who values comfort and reliability.
