Full product description

Xiaomi Portable Photo Printer 1S - a new dimension in photo printing

Xiaomi Portable Photo Printer 1S is a portable printer designed for fast and convenient photo printing wherever you are. It allows you to **print your favorite photos in high quality without the need for large, traditional printers**. The device supports modern printing technology, allowing you to preserve color intensity and detail on special photo paper.

Easy and fast printing

The Xiaomi Portable Photo Printer 1S can **print 50 x 76mm photos in about 45 seconds** on a sheet of photo paper. Thanks to **Bluetooth 5.2** connectivity, you can connect to the device with your smartphone or tablet, making the printing process simple and intuitive. This Xiaomi portable printer allows you to print even outdoors or while meeting with friends.

High print quality and ZINK technology

The device uses **ZINK heat-sensitive technology**, which eliminates the need for ink or toner. The print head of the Xiaomi Photo Printer 1S provides a resolution of up to **313 x 512 dpi**, which guarantees clear and durable photo prints. The Xiaomi Portable Photo Paper used is specially adapted to this technology to preserve the colors and details of the photo.

Portability and compatibility

This **Xiaomi portable printer** is lightweight and compact, allowing you to easily take it with you anywhere. The device is compatible with both **Android** (version 8.0 and above) and **iOS** (version 12.0 and above), and the Xiaomi Home app allows you to quickly control and manage photo printing. Multi-user cooperation via Bluetooth allows for convenient use even in a group.

Convenience and functionality of use

The **Xiaomi Portable Photo Printer 1S** has a bin that holds **up to 10 sheets of photo paper** and a **calibration orange card** for easy use.

The built-in **500 mAh** lithium-polymer battery allows you to print about **20 photos on a single charge**. The device is easy to update thanks to Xiaomi's system, which allows quick improvements through an app.
