Full product description

Surround sound and clarity

Xiaomi Redmi Buds 3 Pro earbuds with high-quality surround sound reproduction and the ability to connect to two devices at the same time. Allow you to immerse yourself in gaming, listening to music or watching movies without being distracted by outside noise. Guarantees **clear sound** in both low and high frequencies

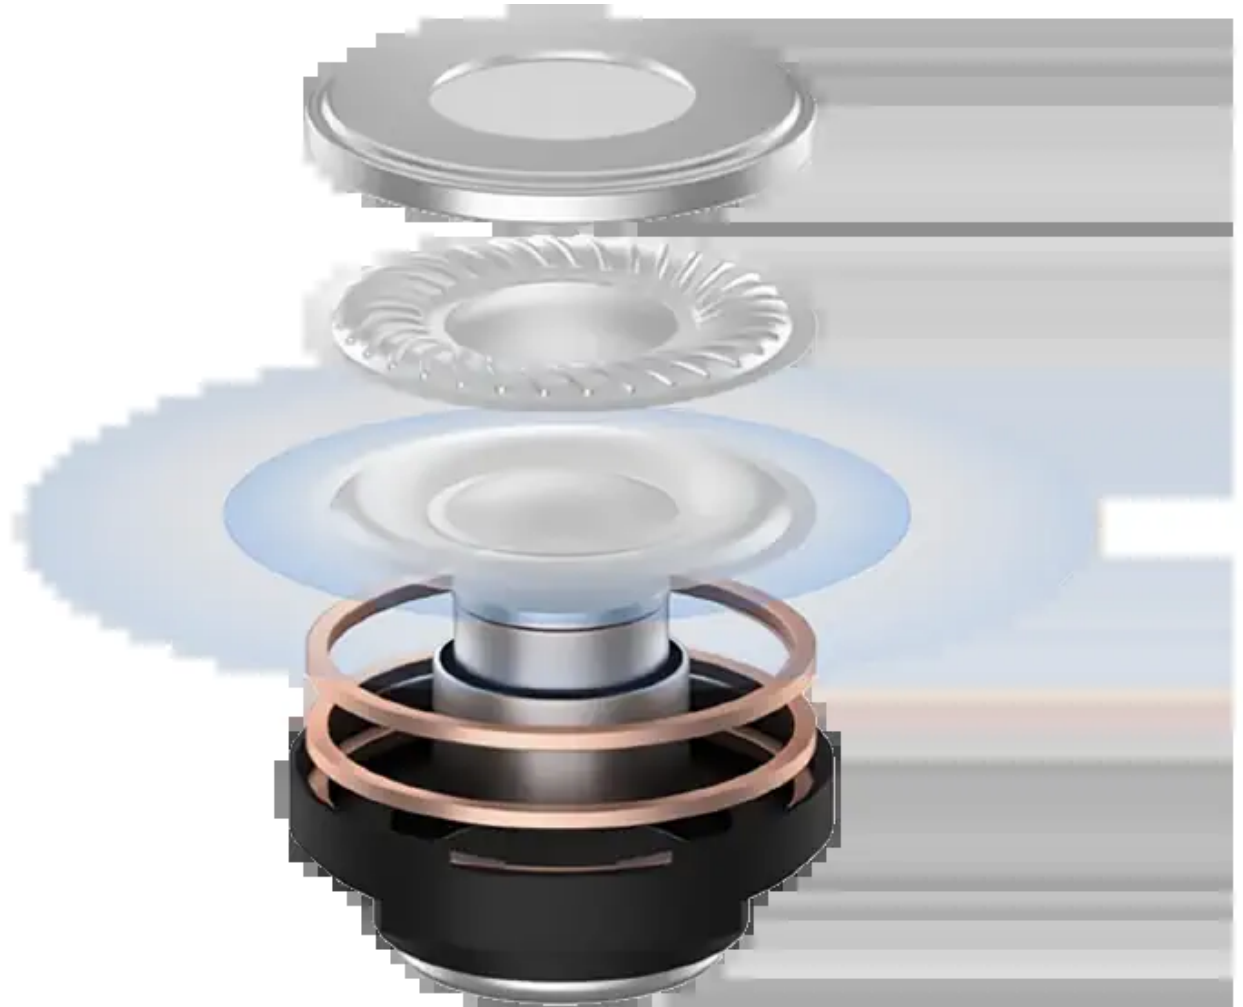

Deep Noise Reduction

Xiaomi Redmi Buds 3 Pro earbuds feature **deep ANC noise cancellation technology**. This allows you to enjoy music without distractions and carry on conversations even when you are in the middle of a busy street. Three built-in microphones ensure crystal **clear sound** and that your voice is clearly audible to the person on the other end of the line

Dual transparency and Hi-Res sound

Built-in transparency allows you to listen to music and hear sounds around you at the same time. This allows you to chat with friends and be aware of your surroundings while wearing the earbuds. The composite has a **diameter of 9mm**, which gives it the ability to distribute sound waves effectively. It is capable of handling **4 types of sound effects**. The headphones support **Dolby Atmos sound** technology, accurately delivering high frequencies, deep bass and excellent sound quality

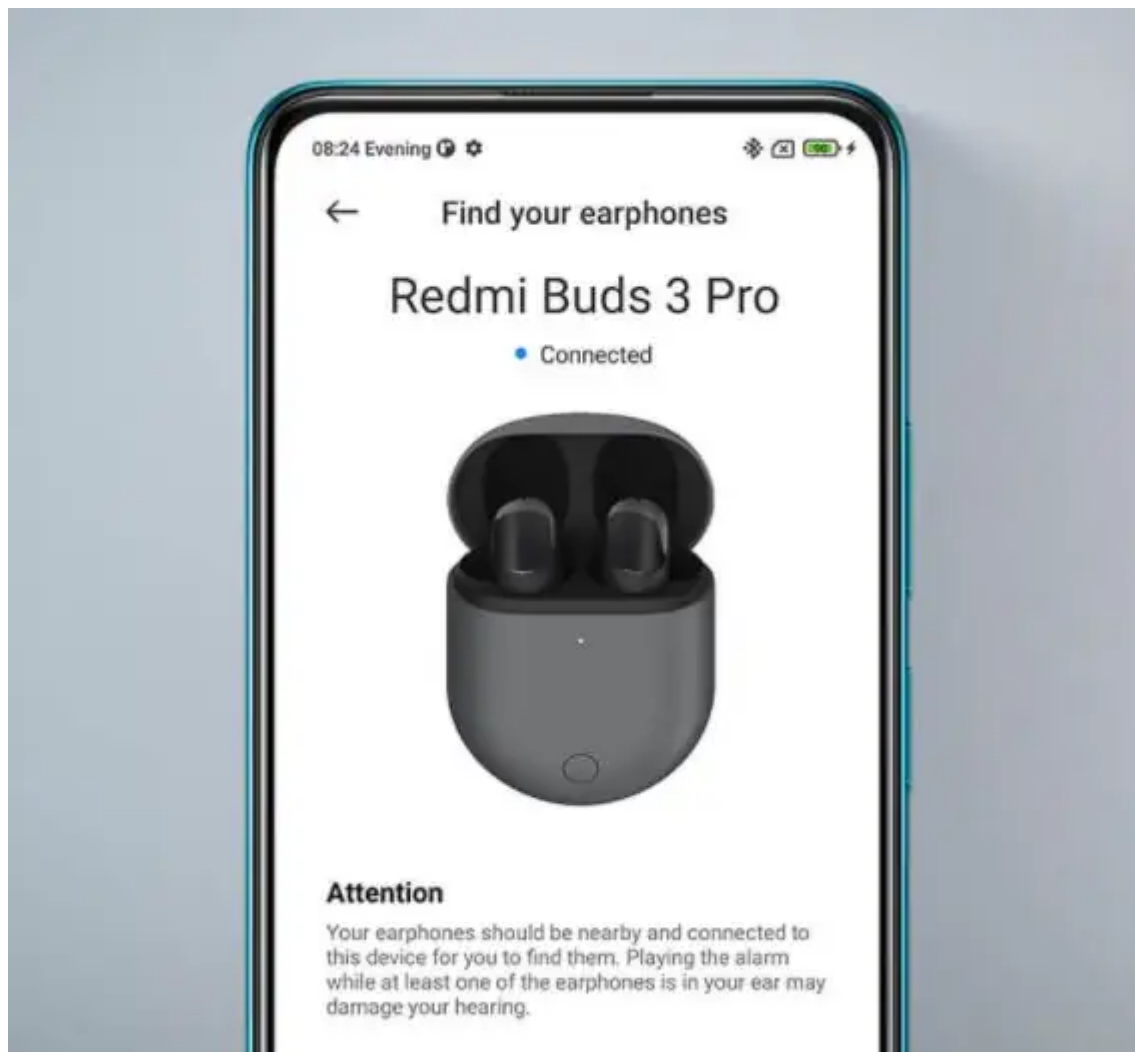

Comfortable control

You can position and control the headphones with **a light touch**. The touch pads on both headphones allow you to tap to switch music, answer calls, and pause. In addition, there is support for the **Xiao AI** voice assistant

Earbud search function

The mobile app will allow you to find **Xiaomi Redmi Buds 3 Pro** if they are within 10 meters from your smartphone. Now you don't have to waste any more time looking for a lost headphone, your phone will do it for you. Connection via **Bluetooth 5.2 wireless technology**

Fast wireless charging

With the built-in fast charging chip, you can charge your **Xiaomi Redmi Buds 3 Pro** in 10 minutes and enjoy music for **an additional 3 hours**. It's also convenient that you don't have to search and plug in a charging cable because the headphones support **wireless charging**.
