Full product description

Exceptional Functionality on your Wrist

If you are looking for a smartwatch that combines style with functionality, the Xiaomi Redmi Watch 5 Lite is a device that will meet all your expectations. With **an AMOLED display** and built-in **GPS**, you get excellent picture quality and precise tracking of outdoor activities. **Long battery life** and **Bluetooth Calling** features make the watch your reliable companion throughout the day.

Clarity and Detail on Your Wrist

The Xiaomi Redmi Watch 5 Lite features **a 1.96-inch AMOLED display** that offers crisp images and vivid colors. With a high resolution of 410 x 502 pixels and a density of 332 PPI, every detail is clear for comfortable use of apps and notifications. In addition, the **screen-to-case ratio** makes the screen almost bezel-less, providing an even larger display area.

Long-lasting Performance

Thanks to the **470 mAh battery** used, the Xiaomi Redmi Watch 5 Lite offers **up to 18 days of** use on a single charge with typical use. This means you don't have to worry about daily charging, making the watch an ideal choice for a busier lifestyle. The battery, combined with **efficient power management**, allows you to take full advantage of the smartwatch's features for a long time.

Track Activities in Every Situation

The Xiaomi Redmi Watch 5 Lite offers **built-in GPS** and support for **Galileo, Glonass, BeiDou and QZSS** satellites, so you have accurate data on your location without having to carry a smartphone. The watch also supports **numerous sports modes**, such as running, cycling and swimming, making it a great tool for monitoring physical activity in a variety of conditions. Precise data on **heart rate** and **calories burned** provide full control over your progress.

Convenient Communication Without Pulling Out Your Smartphone

With Bluetooth Calling, the Xiaomi Redmi Watch 5 Lite allows you to **receive and make calls** without having to take your phone out of your pocket. The built-in speaker and microphone provide clear sound, and you can talk even while running or cycling. This feature gives you **freedom** and convenience, eliminating the need to reach for your smartphone during activity.
