Referention number: DNXGJONRMRMNMK

### Information:

Xiaomi Robot Vacuum H40 is an intelligent robot vacuum that combines vacuuming and mopping, providing convenient and effective home cleaning. The 10 000 Pa suction power removes dust, hair and more stubborn dirt from carpets and hard floors, while the 210 ml water tank with flow regulation supports thorough washing. The 5200 mAh battery enables up to 180 minutes of operation, which also works well on larger areas. Thanks to LDS mapping, the robot precisely plans its route and avoids unnecessary repeats, while the station with automatic dustbin emptying increases convenience and reduces maintenance.

### Product features

|                                     |                           |
|-------------------------------------|---------------------------|
| Height                              | 97 mm                     |
| Base station dimensions (W x D x H) | 340 mm                    |
| Programming function                | Yes                       |
| Runtime                             | 180 min                   |
| Vacuum                              | 10 kPa                    |
| Shape                               | Round                     |
| Works with the Google Assistant     | Yes                       |
| Battery capacity                    | 5200 mAh                  |

## Full product description

### Xiaomi Robot Vacuum H40 - Cleanliness without effort!

**Xiaomi Robot Vacuum H40** is an intelligent device that effectively simplifies the daily cleaning of your home. Thanks to advanced technology and high performance, Xiaomi's **cleaning robot** provides exceptional cleanliness on every surface. With its help, **cleaning** becomes simple and convenient, and you save time and energy.

### Suction power of 10,000 Pa

Xiaomi Robot Vacuum H40 offers **suction power of 10,000 Pa**, ensuring effective **vacuuming** of even the toughest dirt. Thanks to this powerful performance, the robot handles dust, hair and fine particles on **carpets** and hard surfaces. Such a level of suction guarantees thorough **cleaning** and the removal of dirt from every nook and cranny.

## Mopping function

Xiaomi Robot Vacuum H40 combines **vacuuming and mopping** functions, making it a versatile device. Equipped with a water tank with a capacity of **210 ml**, it enables effective floor mopping, removing stains and dirt. The ability to adjust the water flow ensures better adaptation to the type of dirt and surface, which increases cleaning efficiency.

## Long operating time

With a **5200 mAh battery**, Xiaomi Robot Vacuum H40 can run for up to **180 minutes** on a single charge, allowing large areas to be cleaned without interruption. Thanks to its long operating time, the device covers more space, minimising the need for frequent charging. After finishing **cleaning**, the robot returns to the charging station to recharge the battery and be ready for the next use.

## Space mapping

Xiaomi Robot Vacuum H40 is equipped with advanced **mapping** technology, which enables precise planning of the **cleaning** route. Thanks to **LDS sensors** (Laser Distance Sensor), the robot effectively maps and remembers the layout of rooms, allowing efficient cleaning without having to repeat the same areas. The **Xiaomi cleaning robot** adapts its route to the layout of your home, ensuring thoroughness in every corner.

## Automatic dustbin emptying

Xiaomi Robot Vacuum H40 is equipped with a **charging station with emptying function** for the dust container. Thanks to this function, after cleaning is finished, the robot automatically empties the **dustbin**, so the user does not have to worry about frequent bag replacement. Automatic emptying of the container improves ease of use and saves your time.
